Technical Program Manager

Product Owner | Release Manager | Technology Leader

PROFESSIONAL SUMMARY:

Dynamic and results-driven technology leader with 15+ years of experience managing complex, enterprise-scale software development programs. Proven ability to align technical innovation with business goals, lead cross-functional delivery teams, and ensure application lifecycle success from requirements to deployment. Deep expertise in healthcare IT, cloud-based systems (AWS, Azure), and modern Agile delivery frameworks.

CORE COMPETENCIES:

Agile Program Management | Cloud Architecture (AWS, Azure) | Application Lifecycle Management
Client Engagement & Stakeholder Alignment | Cross-Functional Leadership | EHR/EMR Integration
SaaS Implementation & Optimization | Data & Reporting Strategy | Regulatory Compliance (HIPAA, HITECH)
Risk Mitigation & Change Management | Software Engineering Oversight | Technical Roadmap Execution

TECHNICAL SKILLS & PLATFORMS:

SaaS & Cloud Platforms (AWS, Azure) | Project Management Tools (Jira, Confluence) | CRM (Salesforce) | Data Analysis (SQL, Tableau) | Security | Agile Methodologies

PRODUCT OWNER / SR. BSA: 2/2024 – 3/2025 • Wilco Source • Columbus, OH

As Product Owner/Sr. Business Systems Analyst at Wilco Source, I led cross-functional teams to deliver scalable healthcare solutions. I was responsible for developing and executing product roadmaps that integrated Salesforce and patient portal tools, aiming to enhance user experience and stakeholder satisfaction. I conducted regular stakeholder workshops to gather insights and translate them into actionable user stories and deliverables. Additionally, I oversaw the development of internal tools to improve clinician productivity and engagement through streamlined workflows. I collaborated closely with engineering, UX, and QA teams to ensure that all releases met quality standards and regulatory compliance.

- Led cross-functional teams to deliver scalable solutions aligned with business objectives.
- Developed and executed product roadmaps integrating Salesforce and patient portal tools, enhancing user experiences.
- Conducted stakeholder workshops to gather insights and create user stories.
- Oversaw internal tool development to improve clinician productivity.
- Ensured release quality and regulatory compliance through collaboration with engineering, UX, and QA teams.

RELEASE MANAGER: 3/2023 – 10/2023 • HealthEdge • Burlington, MA

As Release Manager at HealthEdge, I was responsible for overseeing the deployment lifecycle of SaaS-based healthcare solutions. My key achievements included managing full release cycles with zero downtime, which ensured continuous service for clients. I coordinated multi-team collaboration, which led to a 15% improvement in deployment timelines. I also created performance dashboards to track post-release success and adoption rates, providing valuable insights for future releases. Additionally, I implemented risk mitigations and change management protocols to ensure smooth transitions and minimal disruption. I worked closely with executive stakeholders to align each release with the company's business objectives.

- Managed full release lifecycle with zero downtime for SaaS healthcare platforms.
- Improved deployment timelines by 15% through effective multi-team coordination.
- Created performance dashboards to track post-release success and adoption.
- Implemented risk mitigations and change management protocols.
- Aligned releases with business objectives in collaboration with executive stakeholders.

SENIOR DIRECTOR OF TECHNOLOGY • STRATEGY & INNOVATION: 2021 – 2022 • CAREPATH RX, LLC. • Orlando, FL

As Senior Director of Technology at CAREPATH RX, I led enterprise-wide modernization efforts, focusing on aligning cloud technology strategies with business goals. I directed technology modernization projects, including migrations to AWS cloud and integration with SaaS platforms, which resulted in a 30% reduction in operational costs and improved system scalability and patient engagement. I managed a team of 15 members, including service desk, implementation, and development teams, ensuring efficient operations using ITIL/Service Now and Azure DevOps. I also developed governance frameworks, key performance indicators (KPIs), and internal tools to optimize operations across the organization.

- Directed technology modernization, AWS cloud migrations, and SaaS integrations.
- Led team of 15 including Service desk (ITIL / Service Now, Implementation, Development (Azure DevOps)
- Reduced operational costs by 30% and enhanced scalability and patient engagement.
- Developed governance frameworks, KPIs, and internal tools for operations.

SENIOR CLINICAL APPLICATIONS ANALYST: 2019 – 2021 • OPTION CARE HEALTH • Columbus, OH

As Senior Clinical Applications Analyst at OPTION CARE HEALTH, I managed clinical application implementations and optimized claims processes. I led the implementation of Salesforce and DocuSign, which increased efficiency by 35%. I enhanced claims workflows and ensured system integration and regulatory alignment. I conducted stakeholder training to improve adoption across teams and supported cross-functional collaboration for optimized patient care tools. I also provided post-launch support to increase satisfaction and system usage.

- Led Salesforce and DocuSign implementation, increasing efficiency by 35%.
- Enhanced claims workflows and interoperability between systems.
- Conducted stakeholder training to improve adoption across teams.
- Supported cross-functional collaboration for optimized patient care tools.
- Delivered post-launch support, increasing satisfaction and system usage.

SENIOR BUSINESS ANALYST: 2017 – 2019 • DIPLOMAT SPECIALTY • Cincinnati, OH

I supported specialty pharmacy operations by developing automated solutions and managing vendor relationships, improving process accuracy and operational performance.

- Streamlined pharmacy operations via workflow automation.
- Improved contract accuracy and reimbursement processes.
- Facilitated vendor collaboration and Salesforce CRM optimization.
- Developed reporting dashboards to track contract performance.
- Conducted process improvement initiatives aligned with compliance.

IT RISK ANALYST: 2016 – 2017 • JP MORGAN CHASE • Columbus, OH

I conducted comprehensive risk assessments and developed security frameworks to safeguard enterprise systems and align with regulatory and financial compliance requirements.

- Conducted 40+ IT risk assessments and vendor security evaluations.
- Partnered with security teams on remediation and threat mitigation.
- Supported executive reporting and continuous risk monitoring.
