SUMMARY

Senior Salesforce Developer with 3+ years' experience across Service, Community, and Sales Clouds. Expert in Apex, LWC, REST/SOAP APIs, and workflow automation. Skilled in optimizing legacy systems, mentoring developers, and delivering scalable, maintainable solutions.

SKILLS

- **Salesforce** : Apex, Triggers, Lightning Web Components (LWC), Visualforce, Flows, Workflow Rules
- **APIs** : REST APIs, SOAP APIs, Postman, Salesforce Connect
- **Data & Queries** : SOQL, Schema Builder, Data Loader
- **Deployment & DevOps**: Copado, Gearset, Git, CI/CD
- **Programming & Web** : Java, Python, HTML, CSS, JavaScript (ES6)
- **Other Tools** : Lucidchart, Jira, VS Code, Workbench

EXPERIENCE

Senior Salesforce Developer

📅 July 2021 - July 2023

Cognizant Technology Solutions, Hyderabad, INDIA

- Refactored legacy Visualforce pages and Apex controllers into Flows and LWC to enhance maintainability.
- Monitored and optimized SOQL queries within Apex triggers and controllers to reduce CPU time by 30% and eliminate governor limit violations.
- Collaborated with cross-functional teams to develop scalable solutions using custom objects, Apex classes, and Lightning Web Components across Salesforce Sales and Service Clouds.
- Implemented CI/CD using GitHub, Copado, and Gearset, automating deployment workflows and reducing production release errors by 40%.
- Maintained compliance and system integrity by managing user roles, profiles, and field-level security across Salesforce orgs.
- Created documentation for Salesforce schema, Apex classes, and triggers, ensuring architectural clarity and maintainable codebase.
- Developed robust unit tests for Apex classes and triggers, achieving 90%+ test coverage and supporting error-free CI/CD deployments.
- Mentored junior Salesforce developers in code quality, LWC standards, and declarative tools, which improved overall team efficiency by 15%.

Salesforce Developer

📅 May 2020 - Jun 2021

Cognizant Technology Solutions, Hyderabad, INDIA

- Participated in Agile sprints to deliver feature enhancements, defect fixes, and UAT support on schedule.
- Developed Apex batch jobs and triggers to automate account onboarding workflows and data validation.
- Integrated third-party apps into Salesforce via RESTful APIs, improving system interoperability.
- Managed data migration using Data Loader and Workbench, ensuring data integrity.
