

VENKATESH MEDAMONI | Salesforce Developer/Admin

Jersey City, NJ, USA | +1 (551) 344-7599 | venkatesh.medamoni@aogjob.com | [LinkedIn](#)

Summary:

Salesforce Developer/Administrator with 3+ years of experience in designing and implementing customized Salesforce solutions across industries such as healthcare, finance, and renewable energy. Proficient in **Salesforce CRM, Veeva CRM, Apex, Visualforce, Lightning Components**, and integrating third-party platforms. Demonstrated expertise in configuring security protocols (**DKIM, CNAME, OAuth, SSO**), automating processes with **Apex and Batch Apex**, and deploying seamless solutions using **CI/CD tools** like **Jenkins** and **AutoRABIT**. Skilled in building complex **reports, dashboards**, and custom applications to enhance sales, service, and operational efficiency. Strong experience in external system integrations, deployment processes, and Salesforce administration, with a deep understanding of compliance and data security. Hands-on with **Veeva CRM, Tableau, ServiceNow, Field Service Lightning**, and **Salesforce Marketing Cloud**.

Education:

Master of Science in Computer Science | University of Bridgeport – Bridgeport, CT, USA | **May 2024**

Professional Experience:

JPMorgan Chase, NY, USA

Nov 2023 - Current

Role: Salesforce Developer

- Integrated **Tableau** with **Salesforce** using **Canvas Adapter (Sparkler)**, enabling dashboard embedding, deep linking, and custom **Lightning components**.
- Configured **DKIM** and **CNAME records** to enhance email security and prevent spoofing in collaboration with the infrastructure team.
- Developed **Workflow Outbound Messaging** and integrated Salesforce with external systems for medical inquiries, utilizing **service accounts** and secure **IP ranges**.
- Designed **Visualforce Tabs** and **Apex Code** to display and manage compliance-related medical inquiry signatures with advanced **PDF** and print capabilities.
- Led deployments and **Veevatization** processes in **Veeva CRM** using **AutoRABIT Dataloader Pro** for seamless production rollouts.
- Implemented **Single Sign-On (SSO)** for **Veeva CRM** using **OAuth**, coordinating with **MDM** and **PingFederate** teams for secure authentication.
- Developed custom solutions for **sales team** and **territory management**, including **Apex code** for **PDE calculations** for healthcare prescribers.
- Created complex **reports and dashboards (Tabular, Summary, Matrix, Joined)** and assigned roles, boosting user engagement with **Salesforce** as a sales tool.

Tech Stack: Salesforce, Veeva CRM, Tableau, Canvas Adapter (Sparkler), Lightning Components, DKIM, CNAME Records, OAuth, Single Sign-On (SSO), Apex, Visualforce, AutoRABIT Dataloader Pro, MDM, PingFederate, Workflow Outbound Messaging, IP Ranges, PDF Generation, Salesforce CLI, Visual Studio Code, Tabular Reports, Summary Reports, Matrix Reports, Joined Reports, Dashboards, Batch Apex, Triggers, Service Accounts.

DXC Technologies | Chennai, TN, India

Aug 2021 - Aug 2022

Role: *Salesforce Admin*

- **Managed user access** by creating **roles, users**, and **public groups**, and implementing **sharing rules** and **record-level permissions** to ensure secure data sharing among diverse user groups.
- Defined and implemented **lookup, master-detail**, and **junction object relationships** to enhance connectivity among Salesforce objects, facilitating robust data integration.
- Developed custom **Salesforce objects, reports**, and applications tailored for specific business needs in sales performance monitoring and lead generation statistics.
- Customized **dashboards** for tracking productivity and performance metrics across business centers and sales teams, and configured **analytical snapshots** for regular data monitoring.
- Set up and managed **Salesforce Communities** for customers and partners, fostering secure and efficient communication channels between stakeholders.
- Utilized **Salesforce Data Loader** for data insertion, updates, and bulk imports/exports, optimizing data management processes through efficient use of **CSV files**.
- Automated routine tasks using **Lightning Component Process Builder** and developed custom **Visualforce pages** and **controllers** to enhance user experience and interface aesthetics.
- Authored various **Batch Apex classes** and utilized **Apex Schedulable classes** for the timely execution of tasks, ensuring high performance and adherence to **Salesforce governor limits**.
- Integrated Salesforce with external **Java applications** and other Salesforce instances using **Apex REST API callouts**, enhancing system interoperability and data capture capabilities.

Tech Stack: Salesforce CRM, Apex, Visualforce, Lightning Component Framework, Process Builder, Salesforce Data Loader, Apex REST API, Batch Apex, Apex Schedulable, Lookup Relationships, Master-Detail Relationships, Junction Objects, Salesforce Communities, Analytical Snapshots, Sharing Rules, Record-Level Permissions, Java Integration, CSV, Public Groups, Roles, Custom Objects, Reports, Dashboards, OAuth, Single Sign-On (SSO).

Role: *Salesforce Admin*

- Developed and deployed Triggers, Apex classes, Flows, and Lightning components to enhance Salesforce CRM functionality.
- Managed end-to-end Residential Solar+ processes, including sales, installation, and service, within Salesforce CRM.
- Integrated CRM with external platforms such as Rooftop Solar Invoice Management and SurveyMonkey for seamless data capture and feedback collection.
- Configured ServiceNow modules (Incident, Problem, Change Management) and integrated AWS Connect for enhanced customer interaction and case management.
- Implemented and optimized Field Service lighting with automatic technician dispatch, scheduling, and Dispatch Console configuration.
- Customized marketing campaigns using Salesforce Marketing Cloud tools like Journey Builder, Email Studio, and Automation Studio.
- Utilized Flosum and Jenkins for CI/CD, managing deployments across various Sandboxes and production environments.
- Automated batch processes such as technician commission calculations and approval workflows, improving operational efficiency.
- Led change and release management processes across multiple Salesforce environments, providing training and support to super users.

Tech Stack: Salesforce (Apex, Flows, Triggers, SOQL, Lightning Aura Framework, Lightning Web Components), Salesforce Marketing Cloud (Journey Builder, Email Studio, Automation Studio), ServiceNow (Incident, Problem, Change Management), Field Service Lightning (Dispatch Console, Scheduling), Flosum, Jenkins, AWS Connect, SOAP/REST APIs, CI/CD, Salesforce Data Cloud, Web-to-Lead, Batch Apex, Salesforce CRM, and SLDS.

Technical Skills:

Salesforce CRM: Workflows and validation rules, Approval Processes, Sales, Service, Profiles, Roles, Permission sets, Relationships, Custom objects, Dashboards, Reports, Search Layouts, Page Layouts, Record Types, Process builders, Reporting, Platform Events, Sales, and Service Cloud, Data loader, Workbench, Lightning Flows

Force.com Tools: LWC, CPQ, VS Code, Developer Console, Force.com, Data Loader, Asynchronous Process, Batch, Schedule, Queueable Apex's, Lightning and Lightning web components, Aura, Visualforce, Apex, Triggers

Web Design Tools: Eclipse, Spring STS, IntelliJ, JBoss Developer Studio, SQL Query Analyzer, Adobe Photoshop, Dreamweaver, Tortoise SVN, MS Office, Visio 5.0, Adobe Acrobat Pro

Salesforce Tools: Force.com Eclipse IDE Plugin, Change Sets, Import Wizard, Force.com Data Loader, Workbench, Dataloader.io, Force.com Excel Connector, Connect for Outlook, Exchange Sync, Informatica Cloud Data Wizard, Adobe E sign, S-Docs, Conga, CRM fusion

Languages: SOQL & SOSL Language, Apex Language (Classes, Trigger, Batch, Schedule), Java, JavaScript, jQuery, Salesforce CLI, Salesforce DX

Web Technologies: HTML, XML, CSS, JavaScript, SOAP, REST, AppExchange, AWS, Jenkins, APIs (REST/SOAP).

Database: SQL Database, Oracle, Data Migration, DocuSign

Deployment tools/Security tools: Change Sets, Jira, ANT Tool, Jenkins, Postman, Git, GitHub, VS Code, Check Mark tool, COPADO, CI/CD tools, MuleSoft, unit & integration testing

Academic Projects:**Admissions CRM with Salesforce | Jan 2024 - Apr 2024**

- Developed a Salesforce CRM solution to enhance the student management process for the university's admissions department.
- **Sales Cloud Implementation:** Automated lead capture and management from multiple sources (web forms, email) using custom workflows for seamless lead nurturing and applicant tracking.
- **Service Cloud Integration:** Provided support for student inquiries through case management, ensuring smooth handling of admissions-related incidents.
- **Data Migration:** Executed data migration strategies to import existing student and applicant data into Salesforce while ensuring data integrity.

Customer Support Case Management System | Aug 2023 - Oct 2023

- **System Implementation:** Implemented a comprehensive case management system in Salesforce Service Cloud to improve the efficiency of the customer support team.
- **Email-to-Case Integration (API Use Case):** Utilized a REST or SOAP API to integrate with external email services (Microsoft Exchange, Gmail).

Certifications:

- Certified Salesforce Platform Developer I
- Certified Salesforce Platform Developer II
- Certified Salesforce Administrator
