

Vijay Kumar Gandhi

Salesforce Developer

Dallas, TX | 513-516-9857 | vijaykumargandi7@gmail.com

SUMMARY

- Experienced Salesforce Developer with over 3+ years in Salesforce development (Apex, Lightning Web Components, SOQL, Triggers, Flows) and skilled in designing robust, scalable front-end and back-end solutions.
- Strong background in cloud-based environments, containerization (Docker, Kubernetes), and API development, with expertise in integrating third-party services.
- Adept at collaborating with cross-functional teams, including Product Managers, Designers, and Engineers, to deliver cutting-edge software solutions.
- Certified Salesforce Platform Developer with a solid understanding of Agile methodologies, secure coding practices, and system architecture.

SKILLS

Programming Languages: Java, Apex, JavaScript, SQL/T-SQL, HTML5

Salesforce Development: Apex, Lightning Web Components (LWC), Visualforce, SOQL, Triggers, Flows, Process Builder

API Development: REST, SOAP APIs, Integration with external systems

Cloud & DevOps: Hybrid & Cloud Environments, Azure, Docker, Kubernetes, Azure Container Instances, OpenShift

Database Skills: SQL Server, MongoDB, Data Definition Languages, Stored Procedures

Version Control & CI/CD: Git, Salesforce DX, Metadata API

Software Development Tools: Visual Studio Code, IntelliJ, GitHub, Azure DevOps

Frontend Development: Responsive Design, Lightning Design System (SLDS), Aura Framework

Containerization: OCI Compliant Containers, Docker, Kubernetes

Security & Compliance: Secure Coding Practices, GDPR, HIPAA, PCI-DSS Compliance

Soft Skills: Strong communication, Cross-functional collaboration, Problem-solving, Leadership, Mentorship

EXPERIENCE

Theodore Roosevelt, USA | Salesforce Developer

Jan 2025 - Current

- Implemented Agile Scrum methodology, worked on developing and optimizing different Applications System, designed to Securely transfer patient data between hospitals. Using Apex, LWC, SOQL, Triggers, Flows, Java, JavaScript, Docker backend development.
- Designed and developed scalable Salesforce applications using Apex, Lightning Web Components (LWC), SOQL, Triggers, and Flows to improve customer engagement by 30%.
- Implemented RESTful APIs for seamless integration with third-party services, enhancing system interoperability across cloud platforms. Utilized Docker and Kubernetes to deploy containerized microservices in hybrid cloud environments, optimizing scalability and performance.
- Applied Agile methodologies, participating in sprint planning, and retrospectives to ensure timely delivery of high-quality software solutions.
- Developed secure, maintainable code following industry best practices and Salesforce security guidelines, ensuring compliance with GDPR and HIPAA standards.

Model N India Software Pvt. Ltd, IND | Salesforce Developer

Jan 2021 – Aug 2023

- Engaged in the Software Development Life Cycle (SDLC), worked towards developing Global Pricing Management (GPM) Project, Salesforce Apex, Visualforce, SOQL, Java, JavaScript, SQL Server, Docker, Kubernetes, Git, Azure microservices architecture to handle millions of concurrent users.
- Developed robust back-end solutions on the Salesforce platform, leveraging Apex, Visualforce, SOQL, and Process Builder to automate business processes and improve efficiency.
- Collaborated with cross-functional teams to transform designer mock-ups into responsive, user-friendly web applications using HTML5, CSS, and JavaScript frameworks.
- Designed and deployed containerized applications using Docker and Kubernetes for enhanced performance in cloud environments.
- Implemented CI/CD pipelines with Git and Azure DevOps, automating testing, deployment, and rollback processes for improved release management.
- Conducted performance tuning, debugging, and root cause analysis to resolve complex technical issues, reducing system downtime by 25%.

EDUCATION

Master's Degree in Information Technology | University of Cincinnati

Bachelor's Degree in Computer Science | University Arts and Science College

PROJECT

Salesforce Usage in Nonprofit Organizations

Description: Researched Salesforce adoption challenges and developed a customized solution with integrations and training to improve productivity and workflows in nonprofits.

Technologies: Apex, Visualforce, SOQL, Process Builder, Java, JavaScript, SQL Server, Docker, Kubernetes, Git, Azure DevOps
