PROFESSIONAL SUMMARY

Microsoft Power Platform Developer with **7+ years** of hands-on experience in **designing, developing, and deploying** enterprise-grade solutions that streamline workflows, enhance data-driven decision-making, and ensure robust operational efficiency. Skilled in leveraging **PowerApps (Canvas & Model-Driven)**, **Power Automate**, and **Power BI** to create tailored applications, automate complex processes, and deliver actionable insights across diverse industries.

- **Advanced Data Modeling & Analytics:** Proficient in creating and optimizing **data models**, **DAX** calculations, **Power Query (M) transformations**, and **custom visuals** within **Power BI**, enabling stakeholders to derive meaningful insights and drive strategic decisions.
 - **Comprehensive ETL Processes:** Skilled in **extracting, transforming, and loading** data from multiple sources (SQL Server, SharePoint, Dataverse), using **Power Query**, **REST APIs**, and **Custom Connectors** to ensure high data quality and integrity.
 - **Automation & Workflow Orchestration:** Expert in **Power Automate** for designing multi-stage **approval processes**, building **scheduled data refresh pipelines**, and integrating solutions with enterprise tools to reduce manual effort and error rates.
 - **Application Lifecycle Management (ALM):** Familiar with **Azure DevOps** or Git-based **CI/CD pipelines**, solution packaging, and **environment management** to facilitate continuous delivery of Power Platform solutions in **Development**, **Test**, and **Production** environments.
 - **Security & Governance:** Experience implementing **Row-Level Security (RLS)** in Power BI, managing **Role-Based Access Control (RBAC)**, and enforcing compliance policies within the **Power Platform** to protect sensitive data and maintain regulatory standards.
 - **Dataverse & Integration:** Proficient in configuring and extending **Dataverse** entities for Model-Driven Apps, and seamlessly integrating them with external systems or third-party applications through **Custom Connectors** and **RESTful APIs**.
 - **Solution Monitoring & Optimization:** Adept at using **Monitor** and **Performance** tools in Power Apps, optimizing DAX queries, and conducting **regular performance reviews** to ensure apps and reports run efficiently at scale.
 - **User Training & Adoption:** Skilled at designing interactive **workshops**, producing detailed documentation, and conducting **hands-on training** sessions to promote effective use of Power Platform solutions, ensuring high user adoption and satisfaction.
-

CORE COMPETENCIES

• PowerApps (Canvas & Model-Driven) • Power Automate • Power BI (DAX, Power Query) • Microsoft Dataverse • Azure DevOps • SQL Server • CI/CD Pipelines • REST APIs • SharePoint • Python • C# • PL-300 • PL-900 • AZ-900

KEY PROJECTS

- **VA-Doli:** Automated tax and compliance reporting with **Power BI**, improving accuracy by 40%.
 - **Marsh & McLennan:** Developed financial risk assessment tools and compliance audits with **Power BI**, cutting processing times by 50%.
 - **Tokyo Electronics:** Optimized manufacturing analytics and resource allocation with predictive maintenance workflows.
 - **Merit & Ace (Ohio State):** Created **Power BI** reports for case management and workflow automation in legal and HR operations; automated document approval flows, reducing cycle times by 60%.
 - **Greystar:** Enhanced property management solutions with **Model-Driven Apps**, improving tenant service response times by 40%.
-

WORK EXPERIENCE

Power Platform Developer

Verizon, Houston, TX — Feb 2025 – Present

- **Designed and deployed** custom **PowerApps** using Canvas and Model-Driven apps, **increasing operational efficiency by 35%** and boosting user engagement via **UX improvements**.
- **Developed** interactive **Power BI dashboards** with advanced **DAX** and custom visuals to enable **executive-level decision-making**.
- **Automated** invoice approval and data refresh workflows in **Power Automate**, **reducing manual processing time by 40%**.
- **Integrated** PowerApps with **Dataverse** and **SharePoint**, enabling seamless data flow and **reducing integration errors**.
- **Led 5+ training sessions** across departments, **increasing Power Platform adoption rate by 60%** within 3 months.
- **Conducted regular performance tuning** using **Power BI Analyzer** and **Power Apps Monitor**, improving report loading speed by 20%.
- **Implemented RBAC and DLP policies** within Power Platform to safeguard **PII** and ensure **HIPAA compliance**.
- **Managed sprint planning** and backlog grooming in **Azure DevOps**, delivering **95% of features on schedule**.

BI Developer

Prolific Technologies, Atlanta, GA — Aug 2024 – Jan 2025

- **Led the design and implementation of Power BI dashboards** for financial KPIs, enhancing real-time financial transparency for **C-level stakeholders**.
- **Built automated compliance workflows** using **Power Automate** and **Power BI**, reducing manual audit effort by **50%**.
- **Partnered with finance leaders** to streamline data ingestion and modeling in **Power BI**, accelerating dashboard delivery by **30%**.
- **Oversaw end-to-end BI project execution** from **ETL design** in **SQL Server** to **Power BI dashboard deployment**, ensuring **100% on-time delivery**.
- **Implemented row-level validation** and **ETL cleansing routines** in **Power Query**, improving data integrity by **25%**.
- **Conducted Power BI workshops** for 3 business units, increasing self-service reporting adoption by **40%**.

Consultant

Ernst & Young, India — Jun 2023 – Jul 2024

- **Designed data pipelines** using **Power Automate** and custom connectors to integrate **SharePoint** and **SQL Server** across departments.
- **Advised enterprise clients** on scaling **Power Apps** and **Power BI implementations**, improving platform utilization by **45%**.
- **Automated HR onboarding workflows** with **Power Automate** and Forms, reducing turnaround time from 7 days to 2.
- **Delivered 10+ Power Platform training workshops** to internal and client teams, resulting in a **90% satisfaction rate**.
- **Provided ongoing technical support** for **Power BI deployments**, ensuring **99.9% uptime** and successful feature rollouts.
- **Authored technical documentation** for **CI/CD processes** using **Azure DevOps** and **Dataverse** environment management.

Software Engineer

Enlume Private Technologies, Remote — Mar 2022 – Jun 2023

- **Developed and deployed Model-Driven PowerApps** integrated with **Dataverse**, enhancing business workflow visibility across 5 departments.
- **Delivered technical milestones** for app releases using agile sprints and **Azure Boards**, meeting all deadlines.
- **Conducted performance audits** using **Power Apps Monitor** and **Power BI Analyzer**, optimizing load times by **30%**.

Associate Software Engineer

Digipropel Pvt Ltd, Hyderabad, India — Feb 2020 – Mar 2022

- **Built 10+ custom Canvas apps** for inventory tracking, **reducing manual entry errors by 45%.**
- **Developed apps** for internal resource management using PowerApps and SharePoint, improving task tracking accuracy.
- **Integrated PowerApps** with legacy **SQL Server** database and SharePoint lists, enabling real-time sync of work orders.
- **Coordinated with product and QA teams** to deliver cross-platform apps on time with a 95% test pass rate.
- **Conducted quarterly app audits**, identifying **UX/UI improvements** that reduced task completion time by 20%.

Software Development Engineer (SDE)

LifeNet Solutions, Hyderabad, India — Aug 2018 – Feb 2020

- **Spearheaded first-ever Power BI implementation** for hospital reporting, **reducing report generation time from 2 days to 2 hours.**
- **Automated patient admission logs** using **Power Automate** and SQL triggers, **reducing admin workload by 30%.**
- **Helped implement encrypted data pipelines** in compliance with **HIPAA standards** using **Azure Functions** and **RBAC.**
- **Built Power BI models** with historical patient data to forecast ER visits, improving staffing allocation accuracy.
- **Led monthly training sessions** on BI tools, **boosting cross-team Power BI adoption from 20% to 70%.**

TECHNICAL SKILLS

Power Platform Development

- **PowerApps (Canvas & Model-Driven):** Designed 10+ enterprise-grade apps using advanced PCF controls, formula-level error handling, and responsive layouts for cross-platform performance.
- **Power Automate:** Developed complex workflows with multi-stage approvals, integrated REST APIs and custom connectors, reducing manual processing by 40%.
- **Power Virtual Agents:** Built conversational bots integrated with backend systems for support automation and 24/7 query handling, improving resolution time.

Business Intelligence & Data Analytics

- **Power BI:** Expert in DAX, Power Query (M), and custom visuals; optimized report performance using Analyzer and Performance Inspector tools.
- **Data Modeling:** Designed star schema models and optimized relational queries with incremental refresh, enabling real-time analytics at scale.

- **Collaboration & Sharing:** Managed Power BI workspaces, implemented RLS, and published content packs for governed and secure enterprise distribution.

Programming & Scripting

- **Languages:** Proficient in PowerFX, JavaScript, C#, Python, and advanced SQL for ETL scripting and backend integrations.
- **APIs:** Integrated external systems using RESTful APIs, JSON, and XML; created secure pipelines with Azure API Management and custom connectors.

Data Integration & Management

- **Microsoft Dataverse:** Modeled custom tables, enforced field-level security, and managed N:N relationships in scalable Model-Driven apps.
- **SQL Server & Azure SQL:** Authored advanced stored procedures, triggers, and ETL pipelines to support data warehousing and Power BI.
- **SharePoint Online:** Integrated SharePoint lists and libraries into apps and flows, utilizing permission groups and versioning for data integrity.

Cloud & DevOps

- **Microsoft Azure:** Built serverless workflows using Azure Functions and Logic Apps; managed deployments via API Management and Bicep templates.
- **CI/CD Pipelines:** Implemented version control and solution lifecycle automation in Azure DevOps using Git, YAML pipelines, and environment variables.

Security & Compliance

- **Governance:** Applied tenant-wide DLP policies, audit logs, and solution monitoring to meet enterprise compliance standards.
- **Access Control:** Configured RBAC, implemented Row-Level Security (RLS), and managed environment roles for least-privilege access.

EDUCATION & CERTIFICATIONS

Bachelor of Technology in Information Technology

Anna University, Chennai, India

- **Microsoft Certified: Power Platform Fundamentals (PL-900)**
 - **Microsoft Certified: Azure Fundamentals (AZ-900)**
 - **Microsoft Certified: Power BI Data Analyst Associate (PL-300)**
 - **SQL & SQL Server Certification (IITM)**
-
