

AYODEJI BANKOLE

• Address: Lagos, Nigeria.

• Mobile Number: +2348189737752. • E-mail: bankoleaq@gmail.com

PROFESSIONAL SUMMARY

I am a dedicated and innovative software engineer, passionate about designing scalable systems and delivering simplified solutions. My focus is on building and maintaining robust web applications while continuously learning new technologies and taking on challenges beyond my core expertise.

CORE TECHNICAL SKILLS

- **Languages & Frameworks:** Java, Spring, Spring Boot, APIs, Kafka, Redis, MySQL, JUnit
- **Architectures:** Microservices, REST
- **Tools & Platforms:** Azure DevOps, Maven, FeignClient, WebClient
- **Other:** Redis, Kafka, Test-Driven Development (TDD), XML, Automating Deployment Through CI/CD pipelines, Scalable Web Applications

WORK EXPERIENCES

INTERSWITCH GROUP

August 2022 – present.

www.interswitchgroup.com

Senior Software Engineer

- Collaborate on the development of Quickteller, the core consumer-facing product of Interswitch Group.
- Manage backend services, including the notification and consumer microservices, ensuring performance and uptime across the system.
- Perform extensive unit, integration, and system testing to maintain backend integrity and resolve issues promptly.
- Implement algorithms, caching strategies, and code optimizations to enhance system performance.
- Work closely with frontend teams to ensure seamless API integration and address any technical challenges.

MATADOR TRUST

February 2022 – July 2022.

www.matadortrust.com

Software Engineer

- Developed and launched the waitlist website for the Matador app, with a focus on animations and smooth user experience.
- Designed admin pages for managing app data, contributing to the successful pre-launch of the application.

VERDANT DEVCORE

February 2021 – January 2022.

www.verdantdevcore.com

Software Engineer

- Designed and built the Transit Co. corporate website, driving engagement for a mobile app through a streamlined user experience.
- Collaborated on backend development for employment platforms, building endpoints for frontend consumption and maintaining existing codebases.

TIIDELAB (Think Ideate Innovate Develop Execute Lab)

August 2020 – January 2021.

www.tiidelab.com

Software Engineer

- Contributed to the development of BASCOM, a fully functional project management tool, building project management features in Java(Backend) and Javascript.
- Developed backend APIs and implemented authentication/authorization to secure routes and data.
- Collaborated on transitioning the frontend to React and integrated UI components.

SOFT SKILLS

- Strong problem-solving and analytical abilities.
- Detail-oriented with the ability to manage multiple projects simultaneously.
- Excellent collaboration and communication skills, adept at working both independently and in teams.
- Proven ability to thrive under pressure and consistently meet deadlines.
- Active listener and strategic thinker, capable of delivering high-quality work in fast-paced environments.

EDUCATION

UNIVERSITY OF LAGOS (UNILAG), Akoka, Yaba, Lagos State, Nigeria.

2011 – 2016.

www.unilag.edu.ng

*Bachelor of Science in **Computer Engineering (Second Class Upper Division)**.*
