

Alex Lynn Buntrock

Senior Software Engineer

✉ buntrockalexlynn08@gmail.com 📍 2264 S Foothill Dr 119E , Salt Lake City, UT,84109, United States

PROFILE

Senior Software Engineer and .NET Developer experienced in building scalable, secure, and high-performance applications across healthcare, finance, and SaaS industries. Proficient in C#/.NET Core, REST/GraphQL APIs, SQL/NoSQL, and cloud platforms (AWS, Azure, GCP). Skilled in microservices, DevOps automation, and modern frontend frameworks. Adept at applying security standards (OAuth2, JWT, HIPAA, OWASP) and integrating AI/ML solutions with LangChain, Hugging Face, and Spark to deliver reliable, data-driven products.

Professional Experience

Senior Software Engineer, *Pydantic*

04/2023 – Present

- Built and maintained enterprise web applications with C#/.NET Core and Node.js (NestJS), ensuring 99.99% uptime and high scalability.
- Designed REST, GraphQL, and gRPC APIs and frontend systems with React, Angular, and Next.js, improving performance and accessibility.
- Deployed microservices across AWS, Azure, and GCP using Docker, Kubernetes, and Terraform, supported by CI/CD automation.
- Integrated SQL/NoSQL databases, optimized queries, and reduced API latency by 60%.
- Embedded AI/ML features with LangChain, Hugging Face, Pandas, and Spark to enable intelligent, data-driven insights.
- Applied security best practices (OAuth2, JWT, IAM) and achieved OWASP Top 10 compliance.
- Mentored developers and improved team delivery efficiency through DevOps and code quality automation.

Senior Full Stack Engineer, *Infinite Red*

02/2020 – 01/2023 | Vancouver, WA

- Developed scalable backend services using C#/.NET Core, Node.js (NestJS), and Python (Django, Flask) for mission-critical healthcare data systems.
- Built and optimized REST/GraphQL APIs and databases (PostgreSQL, MySQL, MongoDB, Redis), cutting query latency by 50%.
- Migrated legacy systems to Dockerized microservices on AWS EKS and Azure AKS, achieving 99.99% uptime and modular scalability.
- Automated delivery pipelines via GitHub Actions, Jenkins, and Terraform, enabling daily, stable deployments.
- Implemented HIPAA-compliant security (OAuth2, JWT, IAM, encryption) and OWASP Top 10 best practices.
- Improved reliability with Prometheus, Grafana, and ELK Stack, and scaled real-time updates using gRPC and WebSockets.
- Partnered with data teams to build ETL pipelines (Spark, Pandas, NumPy) for analytics and predictive modeling.
- Increased test coverage to 85%+ using xUnit, PyTest, and Supertest, reducing production defects by 30%.

Full Stack Developer, *ServiceNow*

03/2018 – 12/2019 | Santa Clara, CA

- Developed and maintained enterprise-grade web applications using C#/.NET Core, Node.js, and React/Angular, powering large-scale internal business operations.
- Built and optimized REST APIs and SQL Server/PostgreSQL queries, significantly improving data retrieval performance and system responsiveness.
- Deployed applications on Oracle Cloud and AWS using Docker and CI/CD pipelines, ensuring consistent, reliable delivery.
- Partnered with cross-functional teams to uphold scalability, compliance, and timely delivery of key contractual deliverables.

.NET Developer, Particle Health

01/2016 – 02/2018 | New York, NY

- Designed and maintained C#/.NET Core backend services supporting healthcare data platforms with HIPAA compliance and 99.99% uptime.
- Built and optimized RESTful APIs and gRPC services using SQL Server, PostgreSQL, and MongoDB, improving query efficiency and data throughput.
- Implemented secure authentication and authorization via OAuth2, JWT, and Azure Active Directory, successfully passing multiple security audits.
- Automated deployments with Azure DevOps, Docker, and Kubernetes, reducing release cycles by 60% and improving reliability.
- Partnered with frontend teams using React and Angular to deliver seamless provider and patient experiences.
- Increased test coverage to 85% with xUnit, NUnit, and Postman, reducing production issues and enhancing code quality.

EDUCATION

Bachelor Degree in Computer Science, Coastal Carolina University

08/2012 – 05/2016 | Conway, SC

SKILLS

Frontend

React, Next.js, Angular, Vue, Tailwind, Material UI, etc.

AI/ML

LangChain, Hugging Face, Pinecone, Spark pipelines.

Testing

Cypress, Jest, Mocha, Playwright, Selenium.

Databases

PostgreSQL, MongoDB, MySQL, Redis, Elasticsearch, Spark/Hadoop.

Backend

Node, Django, Flask, NestJS, Go, .NET, APIs, GraphQL, gRPC.

Security

OAuth2, JWT, IAM, OWASP.

Cloud/DevOps

AWS, Azure, GCP, Docker, Kubernetes, Terraform, Jenkins, Prometheus, Grafana.
