

PETER ALFANO

DEVOPS ENGINEER

SKILLS

Production / Source Control
DevOps / Cloud / Infrastructure
Engineering
Release Management
Software Development
Automation Engineering
Agile + Waterfall Methods
Substantive Testing
Financial Analysis
Process Improvement
- (Six Sigma - Yellow Belt)

PROFICIENCIES

UrbanCode Build / Deploy
Azure Devops
Azure Cloud
Amazon Web Services
Jenkins
Terraform
Visual Studio Code
Mend / Sonarcloud
Gitlab / Gitbash / Github
Jira / Digital AI
Mainframe Applications (Citrix)
Blue Prism
Automation Anywhere
Active Directory
Powershell
Python
SQL
XML
SSMS
JAMS

ABOUT ME

Results-oriented DevOps Engineer with extensive experience designing automated deployment pipelines, ensuring audit compliance, and optimizing system configurations across diverse environments. Proven track record of improving code quality, enhancing release management protocols, and delivering significant operational efficiencies through automation. Skilled in collaborating with cross-functional teams to achieve stable, secure, and scalable software environments.

EXPERIENCE

DEVOPS ENGINEER

ORIX Corporation USA: 2022 - 2025

- Constructed advanced, automated and improved the efficiency of deployment pipelines for Development, Test, and Production environments, leveraging on-prem and cloud-based technologies, including Azure DevOps, Jenkins, YAML pipelines, and ARM/BICEP templates to streamline deployments, reduce lead times, and enhance cross-team collaboration in both Linux and Windows
- Developed code to automate and standardize Azure-based system configurations across environments, using Terraform, PowerShell, Git, and Visual Studio Code to enhance consistency, reduce manual effort, and expedite dataset management
- Implements code quality and security controls by integrating scanning tools like Mend and Whitesource, identifying vulnerabilities early in development lifecycle, and mitigating potential security risks, troubleshooting ad-hoc issues as they were identified
- Upheld rigorous audit standards by monitoring code scanning tools, establishing repository and branch policies, and enforcing structured deployment timelines, ensuring compliance and maintaining deployment integrity
- Facilitated smooth release management by documenting deployment workflows, collaborating with development and technical teams, and ensuring traceability of code changes for improved transparency and accountability

BUILD AND RELEASE ENGINEER

HM Health Solutions: 2018 - 2022

- Created comprehensive release content packs aligned with ISO standards and managed real-time deployment of developer code to production, resolving release issues swiftly in collaboration with developers and live teams, optimizing production uptime
- Compiled and deployed developer code, analyzed and corrected build errors, and developed scripts to ensure platform stability, significantly improving developer productivity and code quality
- Designed and optimized CI/CD Build/Release pipelines, migrated source code bases from legacy systems to platforms like GitLab and Azure DevOps, and implemented tracking and traceability systems to maintain release accuracy and reliability
- Enhanced and evaluated toolsets to automate processes, achieving over \$150,000 in operational savings in 2021 through reduced manual intervention and improved deployment speed
- Provided 24/7 support for critical issue escalation in automated production environments across multiple projects and domains, ensuring rapid response and resolution to maintain system uptime and stability

OPERATIONS MANAGER

Legendary Support Coordination: 2016 - 2018

- Designed, installed, and maintained inter-office network infrastructures, developed regional office upgrades, and provided senior management with essential hardware training to enhance system performance and reliability
- Coordinated and managed complex service plans, ensuring compliance with financial and legal audit requirements by providing senior management with timely updates to support effective critical path decisions

EDUCATION

BACHELOR OF SCIENCE - ACCOUNTING

Susquehanna University: 2010 - 2014
