

Sai Aravind Reddy K ServiceNow Developer | ITSM Specialist

San Francisco, CA | saiaravindreddyk14@gmail.com | +1 (530) 592-8767 | [LinkedIn](#)

SUMMARY

Results-driven ServiceNow Developer with over 4+ years of experience delivering enterprise-grade ITSM solutions. Proficient in designing, configuring, and integrating ServiceNow platforms to automate business processes and enhance IT service delivery. Expertise in ITIL-aligned modules including Incident, Problem, Change, and Knowledge Management. Demonstrated success in creating custom applications, Service Portals, and API-based integrations to streamline workflows. Passionate about delivering tangible business outcomes through innovation and collaboration in agile environments. Actively seeking full-time roles.

SKILLS

ServiceNow: ITSM, CSM, Now Assist, AI Agents, Virtual Agents, Flow Designer, UI Builder, AWA, Service Catalog, App Engine Studio, Business Rules, Script Includes, Client Scripts, UI Policies, ATF, ACLs, MID Server, Performance Analytics

Programming Languages & Frameworks: JavaScript, Java, AngularJS, HTML5, CSS3, AJAX, and RESTful APIs

Databases: ServiceNow Data Models, MySQL, PostgreSQL, MongoDB

Cloud Platforms & Integrations: AWS, Azure, ServiceNow Integration Hub, Web Services, SOAP, REST

Tools: Git, GitHub, Jenkins, JIRA, ServiceNow Agile Development

Certifications: ServiceNow CSA, ServiceNow Micro-Cert: Now Assist, AI Agents, Agile & Test Mgmt, Azure Administrator

EXPERIENCE

ServiceNow Developer | Work4Flow

Jul 2025 – Present | San Francisco, CA

- Designed and deployed **AI Agents** using **Now Assist** and the **Agentic Framework** to automate Knowledge Article and Catalog Item discovery, improving query response efficiency across ITSM processes.
- Developed and customized **Now Assist Skills** using **Skill Authoring** and **Skill Kits**, creating new Skills and enhancing OOTB Skills to automate complex tasks across **Knowledge, Catalog, and Incident domains**.
- Built dynamic **Flow Designer workflows** integrated with **AI Search APIs** to fetch high-relevance Knowledge Articles, Catalog Items, and Incidents, enhancing user search experience and reducing manual lookup time.
- Created **custom Script Actions** and **Scripted REST APIs** to simulate global search behavior, programmatically returning accurate AI search results and optimizing workflow automation.
- Configured and tuned **AI Search Profiles, Search Sources, and Context Configurations** to align custom search outputs with default global search, ensuring consistency and high relevancy.
- Developed **interactive dashboards** using **UI Builder** to visualize application dependencies, version validations, and AI search result summaries for monitoring and decision-making.
- Automated ITSM processes across **Incident, Knowledge, and Catalog modules** using scalable, AI-enhanced logic, increasing operational efficiency and supporting enterprise-wide IT optimization.

Student Assistant | Associated Students – CSU Chico

Sep 2023 – May 2025 | Chico, CA

- Developed and maintained **custom ServiceNow applications** to automate IT workflows for the university IT department, streamlining ticket handling and improving overall operational efficiency.
- Designed and implemented **Service Catalog items and dynamic forms** used by students and faculty, reducing service request response times by **30%** and enhancing user satisfaction.
- Integrated **ServiceNow with multiple campus systems** using **REST APIs**, enabling seamless data exchange and ensuring consistency across IT platforms.
- Conducted regular **compliance and configuration reviews** for ITSM modules, ensuring all processes adhered to university policies and maintained system integrity.

ServiceNow Developer | Hexaware Technologies

Jun 2020 – Jul 2023 | Pune, India

- Customized **ITSM modules** (Incident, Change, Request) and built an intuitive **Service Portal**, streamlining employee interactions and improving overall service delivery efficiency.
- Implemented **Advanced Work Assignment (AWA)** with multi-channel routing, customizing queues and assignment rules to optimize task distribution across support teams and reduce response times.
- Developed **Flow Designer workflows, Script Includes, and UI Policies** to automate processes, reducing ticket handling time and ensuring adherence to **ITIL standards**.
- Led **ServiceNow integrations** with third-party systems using **REST APIs, JSON, and XML**, enabling seamless data exchange and enhancing cross-platform functionality.
- Built **Power BI dashboards** for SLA tracking and operational metrics, providing leadership with real-time performance insights and actionable reports.

- Configured **Service Catalog items** and automated request management workflows, increasing efficiency by **20%**, and deployed the **Automated Test Framework (ATF)** to cut regression testing time by **60%**.
- Managed **user roles, ACLs, groups, and change deployments**, authored **Knowledge Articles**, and performed unit/smoke testing to ensure platform stability, compliance, and smooth adoption by end-users.

EDUCATION

California State University	Aug 2023– May 2025 Chico, CA
Master of Science in Computer Science	
Reva University	Aug 2016 – Jun 2020 Bengaluru, India
Bachelor of Technology in Computer Science	

PROJECTS

Online Chess Multiplayer Game

- Devised a real-time multiplayer chess game using Django, JavaScript, WebSocket, optimizing backend efficiency.
- Migrated to WebSocket communication with Django Channels, reducing latency and server load for a seamless experience.

Tasty Trails – Food Delivery App

- Formed a scalable Android app using Flutter, REST APIs, AWS, integrating cloud automation and database management.
- Formulated a restaurant portal for menu management, promotions, and image uploads, enhancing vendor accessibility.

CERTIFICATIONS

- ServiceNow CSA
- ServiceNow CIS – ITSM
- ServiceNow Micro Certifications: Now Assist Executive, Agentic AI Executive, Virtual Agent, Agile & Test Mgmt
- Microsoft Certified: Azure Administrator Associate Microsoft Certified: Azure Fundamentals
