## PROFESSIONAL SUMMARY

- **Software Developer (Java Full Stack)** with **5+ years** of experience in designing and implementing scalable, high-performance applications using Java, Spring Boot, and Microservices.
- Proficient in developing interactive and responsive web applications using React.js and Angular, improving front-end efficiency and user engagement.
- Extensive experience in building RESTful and SOAP web services, ensuring seamless data exchange between distributed systems.
- Strong background in working with PostgreSQL, MongoDB, MySQL, and Oracle, optimizing queries for enhanced application performance.
- Hands-on expertise in CI/CD automation using Jenkins, Docker, Kubernetes, and Maven, reducing deployment time and enhancing release cycles.
- Skilled in AWS cloud services such as EC2, S3, Lambda, and API Gateway, ensuring application reliability and scalability.
- Implemented OAuth2, JWT, and Spring Security, strengthening authentication, authorization, and data protection.
- Experience in event-driven architecture with Kafka and JMS, improving real-time data processing and system responsiveness.
- Adept in Agile and Scrum methodologies, using JIRA, Confluence, and Rally for effective project management and collaboration.
- Strong focus on unit and integration testing with JUnit, Mockito, and Selenium, ensuring code stability and reducing production defects.
- Excellent problem-solving skills, with a track record of optimizing system performance, refactoring legacy code, and enhancing application maintainability.
- Passionate about mentoring junior developers, fostering knowledge-sharing, and driving technical excellence within development teams.

## TECHNICAL SKILLS

- **Programming Languages:** Java (8, 11, 17), J2SE, J2EE, TypeScript, SQL, PL/SQL
- **J2EE Technologies:** Servlets, JSP, Enterprise Java Beans (EJB), Web Services (RESTful, SOAP), JDBC, Java Mail, XML, XSL, JMS
- **Frontend Technologies:** JavaScript (ES6+), TypeScript, React.js, Angular (2+), Redux, Bootstrap, Material-UI, Tailwind CSS
- **Application Frameworks:** Spring Boot, Spring MVC, Spring Core, Spring Security, Spring Cloud, Spring JDBC, Spring ORM, Spring Hibernate, Struts
- **Microservices & Cloud Technologies:** AWS (EC2, S3, Lambda, API Gateway, RDS), Azure, GCP, Docker, Kubernetes, Terraform, OpenShift, Helm, API Gateway
- **Messaging & Streaming:** Kafka, RabbitMQ, ActiveMQ
- **DevOps & CI/CD:** Jenkins, GitHub Actions, GitLab CI/CD, Docker, Kubernetes, SonarQube, Nexus, ArgoCD
- **Database & ORM:** Oracle, MySQL, PostgreSQL, MongoDB, Redis, Elasticsearch, Hibernate, JPA
- **Testing Tools:** JUnit 5, Mockito, TestNG, Cucumber, Selenium, Postman, REST Assured
- **Build & Issue Tracking Tools:** Maven, Gradle, JIRA, Rally, SonarQube
- **Development Tools:** Eclipse, IntelliJ IDEA, Visual Studio Code, Spring Tool Suite (STS)
- **Authentication & Security:** OAuth2, JWT, SAML, Keycloak, Spring Security
- **Logging & Monitoring:** ELK Stack (Elasticsearch, Logstash, Kibana), Prometheus, Grafana, Splunk, Log4j
- **Other Tools:** Git, Bitbucket, OpenAPI (Swagger), GraphQL, WebSockets

## PROFESSIONAL EXPERIENCE

### Wawanesa Group

Sep 2022 – Present

#### Software Developer

- Designed and implemented 15+ microservices using Spring Boot, REST APIs, and GraphQL, enhancing modularity and scalability.
- Developed a responsive React.js UI with Redux, reducing page load times by 3 seconds and improving user engagement.
- Integrated AWS services (EC2, S3, Lambda, API Gateway, DynamoDB, SQS, SNS, RDS, CloudFormation) to ensure high availability and fault tolerance.
- Built 5+ CI/CD pipelines using Jenkins, Docker, Kubernetes, and AWS Code Pipeline, automating build and deployment processes.
- Optimized PostgreSQL and MongoDB database performance, reducing query execution time by 5 seconds via indexing and query tuning.
- Developed event-driven applications using Apache Kafka and RabbitMQ, enabling real-time processing of 500,000+ messages daily.
- Implemented OAuth2 & JWT authentication for secure user access, supporting 50,000+ daily logins.

- Configured log monitoring with AWS CloudWatch, ELK (Elasticsearch, Logstash, Kibana), and Prometheus, improving system observability.
- Created Spring Batch jobs for scheduled data processing, reducing manual workload by 80%.
- Automated cloud deployments using Terraform and AWS CloudFormation, ensuring 99.99% uptime.
- Conducted 1,000+ unit and integration tests using JUnit, Mockito, and Selenium, ensuring software reliability.
- Led and mentored a team of 5 junior developers, improving productivity and knowledge-sharing.

#### **YNR Infotech**

**Jan 2017 – Nov 2019**

##### **Software Developer**

- Developed and maintained 10+ enterprise web applications using Java 8, Spring Boot, and Hibernate, ensuring high performance and scalability.
- Built dynamic UI components using Angular and Bootstrap, improving frontend responsiveness and user experience.
- Integrated Azure services (Azure App Service, Azure Functions, Azure Kubernetes Service (AKS), Azure Storage, Cosmos DB, Azure DevOps) for cloud-based deployments.
- Migrated legacy JSP and Servlets-based applications to Spring MVC, improving code maintainability and system performance.
- Optimized MySQL and Oracle database queries, reducing query response time by 2 seconds through indexing and stored procedures.
- Automated CI/CD pipelines using Maven, Jenkins, and Azure DevOps, reducing deployment time by 60%.
- Implemented role-based access control (RBAC) using Azure Active Directory (Azure AD) for enhanced security.
- Developed serverless applications using Azure Functions, reducing infrastructure costs by 30%.
- Configured load balancing using Azure Traffic Manager, improving application availability across regions.
- Integrated SOAP & RESTful APIs, handling 1,000,000+ API calls daily for seamless application communication.
- Monitored system health using Azure Monitor and Application Insights, proactively resolving 95% of incidents before impacting users.
- Led code reviews and performance optimization sessions for a team of 3 developers, ensuring best coding practices.

#### **EDUCATION**

---

- **Masters in Computer Science from**  
Southern Arkansas University Magnolia, AR
- **Bachelors in pharmacy**  
Vallabhaneni Venkatadri institute of pharmaceutical sciences College - Gudlavalleru, AP, india
