Skills Overview

Impeccable ability to keep calm under pressure and show deep compassion and empathy for others while maintaining a strong moral code in regard to high stress environments & assignments

Influential development skills that compliment an expert-level talent for risk reduction and prevention to maintain a consistent flow of accuracy for CFOs and their cross-domain investments

Extensive field experience within Business spaces that fully contributes to an advanced understanding of risk and regulatory compliances regarding project objectives and team performances

Documented success in organizational change management with the ability to devise solutions plans in the formulation, project execution, & monitoring of new programs during initial phases

Project Impacts & Accomplishments

Congratulated by the Operations Director at *Cardinal Financial* in January 2025 for always going above the call of duty to ensure reports and financial reporting tools were working properly and that the training of new Corporate Leaders on project charters was completely integrated, which resulted in an 18%+ reduction in tech inefficiencies

Praised by the Program Managers at *Host International Inc.* in September 2023 for finding solutions for partner companies and managing performance mishaps, which included business account troubleshooting that improved accuracy by over 44% in the first quarter of the year, which surpassed the original KPI objectives and project sales

Thanked in 2021 by the External Stakeholders and Project Teams at *Host International Inc.* for introducing them to resolution methods that effectively transformed client engagement and for dedicating time to building stronger feedback systems with customers, which increased overall satisfaction levels by over 22% and decreased turnover
