SUMMARY

I am a results-driven **Senior .NET Full Stack Developer** with over 14 years of experience building high-performance, scalable web applications and cloud-based solutions. My expertise includes **.NET Core, C#, Azure, Docker, Kubernetes**, and modern JavaScript frameworks like **Angular** and **React**. Adept at leveraging **microservices architecture** and **DevOps practices**, I am passionate about delivering innovative, efficient solutions while mentoring teams to uphold the highest standards of software engineering.

EDUCATION

Virginia Tech
Bachelor of Science in Computer Science

Blacksburg, VA
May 2006

SKILLS

- **Programming** - C#, JavaScript, TypeScript, PL/SQL, Node.js, C, Visual Basic
- **Web Technologies** - ASP.NET, .NET Core, React, Angular, Blazor, Vue.js, jQuery
- **Cloud Platforms** - Microsoft Azure, AWS, Azure Databricks, AWS Lambda, Google Cloud Platform
- **DevOps Tools** - Docker, Kubernetes, Terraform, Azure DevOps, CI/CD Pipelines, Powershell
- **Databases** - SQL Server, MySQL, PostgreSQL, NoSQL, MongoDB, ETL, Microsoft SQL Server
- **UI/UX Design** - HTML5, CSS3, Bootstrap, Kendo UI, Responsive Design
- **Software Design** - SOLID Design Principles, ADO.NET, .NET Framework, Microsoft Graph

EXPERIENCE

Accenture
Senior .NET Full Stack Developer

New York, NY
April 2021 - Present

- Credited with experience in **.Net Programming** with domain knowledge of **Human Resource Industry** and Procurement, business development and in delivering **Microsoft** and **Java technologies**.
- Built and optimized **RESTful APIs** using **.NET Core**, reducing response times by 27%.
- Automated deployments using **Docker** and **Kubernetes**, enhancing scalability.
- Designed microservices with **Azure Kubernetes Service (AKS)** and **Azure API Management**.
- Developed web applications with **ASP.NET MVC**, **AngularJS**, and **React**, boosting user engagement.
- Enhanced backend performance by implementing **Profile-Guided Optimization (PGO)** in **.NET 6**, achieving a 25% performance boost.
- Tuned database queries and implemented **SQL** best practices, improving efficiency.
- Automated infrastructure provisioning with **Terraform**, reducing setup time by 40%.
- Mentored junior developers and conducted code reviews to ensure high-quality standards.

Tech Skills: .NET Core, Docker, Kubernetes, AKS, ASP.NET MVC, AngularJS, React, PGO, Terraform, SQL.

CGI Group
Senior Software Engineer

Fairfax, VA
August 2018 - February 2021

- Designed and implemented a **cloud-native application**, reducing operational costs by 38%.
- Built scalable microservices using **Docker** and **Kubernetes**, improving deployment efficiency.
- Developed and integrated **n-tier applications** with **.NET Core** and **Angular**, optimizing data exchange.
- Secured applications using **JWT Authentication** and **ASP.NET Core**.
- Configured **Azure** services, managing resources efficiently via the portal and CLI.
- Automated workflows using **PowerShell** scripts, reducing manual tasks by 30%.
- Monitored application health with **CloudWatch**, generating actionable insights.

Tech Skills: Cloud-native applications, Docker, Kubernetes, .NET Core, Angular, JWT, Azure, PowerShell.

Mindtree

.NET Full Stack Developer

Warren, NJ

May 2014 - July 2018

- Led the development of interactive **user interfaces** using **ASP.NET** and **AngularJS**, improving user experience.
- Built and maintained **RESTful APIs** and **SOAP** services, enabling seamless data integration.
- Automated build and deployment processes with **DevOps practices**, reducing delivery time.
- Created **responsive designs** with **Bootstrap** and **Kendo UI**, ensuring cross-device compatibility.
- Developed **ETL pipelines** and **data warehouses**, streamlining data processing.
- Resolved critical bugs, improving system stability by 25%.

Tech Skills: ASP.NET, AngularJS, RESTful APIs, SOAP, Bootstrap, Kendo UI, ETL, Data Warehouses.

Wavestone

.NET Developer

New York, NY

August 2009 - March 2014

- Developed and maintained **web applications** using **ASP.NET**, **C#**, and **WCF**, improving system performance and scalability.
- Implemented **CRUD functionality** with **ASP.NET MVC** and **Entity Framework**, ensuring efficient data handling.
- Built single-page applications (SPAs) with **AngularJS** and **MVC**, reducing load times and improving responsiveness.
- Automated deployment processes using **PowerShell** scripts, cutting release times by 50%.
- Designed and implemented **responsive layouts** with **Bootstrap**, ensuring compatibility across devices.
- Developed and integrated **SOAP APIs**, enabling seamless communication between systems.

Tech Skills: ASP.NET, C#, WCF, CRUD, ASP.NET MVC, Entity Framework, AngularJS, SPAs, PowerShell, Bootstrap, SOAP APIs.

PROJECTS

Online Health Services

- **Duration:** 1 Year
- **Team Size:** 8
- **Platform/OS Used:** Microsoft .Net / Windows 10
- **Tools Used:** Visual Studio 2019, MSSQL 2018
- **Solution Environment:** Asp.Net Core, Microservice Architecture, Angular 8

Financial Solution

- **Duration:** 1 Year
- **Team Size:** 3
- **Platform/OS Used:** Microsoft .Net / Azure
- **Tools Used:** Azure SQL, Cosmos DB, Visual Studio Code
- **Solution Environment:** Asp.Net Core APIs, Azure Portal
