Summary

Experienced Product Manager with over 20 years of experience leading complex systems integration and software development projects. Proven track record in driving product strategy, managing the full product lifecycle, and delivering innovative solutions that align with customer needs and business goals. Adept at translating complex technical requirements into actionable plans, leading cross-functional global teams, and consistently delivering multiple concurrent projects on time and within budget. Recognized for strong leadership, strategic thinking, and a collaborative approach to solving problems, and achieving operational excellence. Currently seeking a Senior Project Manager or Product Manager role where I can leverage my expertise to drive impactful outcomes, and support organizational growth.

- Complex Systems Integration

Experience

MANAGER, PRODUCT MANAGEMENT | 02/2024 - 05/2025

HD Supply

- Enhanced customer satisfaction by resolving disputes promptly, maintaining open lines of communication, and ensuring high-quality service delivery.
- Resolved staff member conflicts, actively listening to concerns, and finding appropriate middle ground.
- Managed budgets effectively, ensuring optimal financial performance while investing in necessary resources for business growth.
- Facilitated customer engagement sessions to gather requirements and effectively translated business needs into actionable IT specifications.
- Led a team responsible for the Extended Product Offering (EPO), serving as the EPO subject matter expert and establishing governance frameworks to ensure compliance and efficiency.

SENIOR PROJECT MANAGER | 06/2022 - 05/2024

HD Supply

- Adapted quickly to unexpected challenges or obstacles encountered during project execution, devising creative solutions without compromising objectives.
- Developed comprehensive project plans, identifying risks, and mitigation strategies for timely completion.
- Evaluated vendor proposals, selecting those that provided the best value for cost, quality, and timeliness.
- Presented regular status reports to executive leadership, providing insights into progress made toward achieving key milestones.
- Spearheaded the integration of Cross Chain Fulfillment (CCF), successfully aligning HDPro legacy ERP with HDS SAP systems to streamline operations.
- Directed the enhancement of CCF into an Extended Product Offering (EPO), expanding system capabilities and business value.

- Built a global team of IT architects, functional experts, and software developers within a matrixed organization.
- Led teams of Architects and Developers in a variety of technologies, including infrastructure, fire walls, MuleSoft, sFTP, PIC, Salesforce, SAP/ABAP, EDI, and legacy systems

PRODUCT MANAGER | 08/2017 - 03/2022

The Home Depot Pro

- Managed stakeholder expectations effectively throughout the entire product development process.
- Continuously monitored customer feedback channels after launch to gather insightful data for future iterations or updates.
- Managed the full product lifecycle, from ideation through post-launch support, ensuring that consistent quality control measures were in place.
- Thrived in a fast-paced, highly adept team to develop and prioritize product features, and build the product roadmap.
- Set goals and formalized policies to maximize team performance, and keep the project on task.

PROJECT MANAGER | 03/2014 - 01/2016

Caterpillar

- Successfully managed multiple projects simultaneously by prioritizing tasks according to urgency, resource availability, and alignment with organizational goals.
- Established effective communication among team members for enhanced collaboration and successful project completion.
- Developed comprehensive project plans with clear timelines, milestones, and budget requirements, ensuring timely delivery of high-quality results.
- Coordinated cross-functional teams and resolved conflicts, maintaining a positive work environment throughout the project lifecycle.
- Prepared detailed reports on project status for stakeholders, ensuring transparency and alignment with objectives.
- Built a global team of 24 IT architects, functional experts, and software developers within a matrixed organization.
- Led teams of Architects and Developers in a variety of technologies, including infrastructure, fire walls, Java, .NET, DataStage, MQ Series, BPM, sFTP, COBOL, Salesforce, SAP/ABAP, EDI, WDSL, Red Prairie and legacy systems.

PROJECT MANAGER | 03/2013 - 11/2014

Caterpillar

- Effectively managed scope creep by establishing clear boundaries on requested changes, while keeping projects aligned with original objectives and budgets.
- Coordinated material procurement and required services for projects within budget requirements.
- Implemented continuous improvement initiatives to optimize project outcomes while maintaining cost-effectiveness.
- Completed projects within tight deadlines, coordinating team efforts, and prioritizing tasks effectively.
- Facilitated smoother project transitions, ensuring thorough documentation, and effective handovers.
- Foster a culture of continuous improvement, conducting post-project reviews to identify lessons learned and best practices.

SIX SIGMA BLACK BELT | 07/2008 - 03/2012

Caterpillar

- Followed established procedures for the inspection of belts, drives, and motors, performing needed maintenance.
- Supported continuous improvement initiatives through active participation in Lean Six Sigma projects.
- Monitored flow, temperature, and belt speed to keep smooth production.
- Led process improvement efforts, applying Lean Six Sigma methodologies for enhanced efficiency across various projects.
- Utilized equipment such as wrapping machines, scales, and conveyor belts, efficiently, for precise packaging operations.

PROJECT MANAGER | 03/2006 - 11/2008

Caterpillar

- Monitored progress against established goals, adjusting schedules and resources as needed to keep projects on track.
- Managed risk assessments and implemented mitigation strategies to minimize potential issues during project execution.
- Enhanced overall project success by conducting thorough post-project evaluations and incorporating lessons learned into future efforts.
- Enhanced project delivery times by streamlining communication channels between development and operations teams.
- Maintained compliance with industry standards and regulations, conducting regular audits and updates to project practices.
