

Chaitanya Kishore Singaraju

Certified PEGA Senior System Architect

(928) 225-7081 | Atlanta, GA, USA | chaitanya9780@gmail.com | [Linkedin](#)

Professional Summary

Results-driven and detail-oriented PEGA Developer with over 3.5 years of expertise in business process automation, case management, and enterprise-level solution development. Proven ability to design, develop, and implement scalable PEGA solutions that reduce inefficiencies by over 50% while ensuring seamless application performance. Adept at leading cross-functional teams, integrating legacy systems, and optimizing workflows to align with business goals. Proficient in PEGA, Java, SQL, Python and API integrations, with a strong focus on delivering robust, secure, and efficient enterprise applications.

Skills

- **PEGA Development:** PEGA, PEGA BPM, PEGA Infinity, PEGA Case Management, Pega application development, Pega Constellation, Pega architecture, GENAI
 - **Programming Languages:** Java, Python, SQL, C, C++, REACT
 - **Web Development:** HTML5, CSS, XML, JavaScript, React
 - **Database Systems:** Oracle SQL, PLSQL, PostgreSQL
 - **Integration:** API Development, GraphQL, REST, SOAP
 - **Methodologies:** Agile, SCRUM, CI/CD, Software Development Life Cycle
 - **Other Skills:** Troubleshooting, Data Analysis, Performance Tuning, UI/UX Design, Statistical Analysis, Linux, AWS
 - **Soft Skills:** Leadership, Communication, Problem solving, Attention to Detail
-

Professional Experience

Pega Senior System Architect

TD Bank | Georgia, USA | DEC 2025 – Present

- Designed and developed interactive **business dashboards** using Pega Report Definitions to provide real-time visibility into case volumes, SLAs, and operational KPIs.
- Configured **Report Scheduling and Job Scheduler rules** to automate dashboard data refresh and periodic report distribution.
- Implemented and maintained **File Listener rules** to process inbound files from upstream systems, enabling automated case creation and data ingestion.
- Developed parsing, validation, and mapping logic for CSV files to ensure accurate and consistent data integration into Pega case structure.

Pega Senior System Architect

Primerica | Georgia, USA | Feb 2025 – NOV 2025

- Developed a new case type, ACQ, from end to end, supporting the migration of IT applications to Pega and enhancing overall process efficiency.
- Enhanced the DG User interface (UI), significantly improving user experience and reducing load time.
- Increased development efficiency for TVCC case type by 50% enabling faster delivery and improved scalability.
- Delivered and resolved all user stories related to Data Movement (DM) case type, for ongoing IT application migration to Pega.
- Collaborated with cross functional teams to migrate legacy IT applications to Pega, optimizing workflow automation and system reliability.

Pega System Architect

HighMark Health | Pittsburgh, USA | May 2024 – Dec 2024

- Spearheaded the development of the "Broken Queue Count" feature, reducing queue bottlenecks by 30% and improving team productivity.
- Designed and launched the Guided Tour feature in PEGA, enhancing user engagement by 15% and reducing support tickets by 10%.
- Managed cross-functional teams and collaborated across departments to deliver critical projects on tight schedules.
- Validated and resolved PEGA Infinity upgrade issues, ensuring seamless system performance.
- Documented business-impacting issues with resolution steps, reducing future troubleshooting time by 20%.

Software Engineer

Verizon Data Services | Hyderabad, India | August 2021 – July 2023

- Led a team in developing a user-centric admin tool interface in PEGA, improving admin task efficiency by 20%.
- Implemented automated workflows, reducing manual task dependency and enhancing system scalability.
- Conducted comprehensive testing and debugging of PEGA modules, resulting in a 20% drop in post-production defects.
- Led the migration of legacy systems to PEGA 8.3, minimizing downtime and boosting operational efficiency.
- Mentored junior developers on PEGA development best practices, fostering team-wide knowledge sharing.

Pega System Architect

Talent Sprint | Hyderabad, India | October 2019 – February 2021

- Developed scalable, PEGA-based case management solutions, improving business process efficiency.
- Designed and implemented enterprise applications aligned with business goals using PEGA frameworks.
- Conducted extensive testing and debugging, enhancing system reliability and maintainability.
- Collaborated with cross-functional teams to deliver projects on time and within budget.

Software Engineer Intern

Chip In Tech | Bangalore, India | May 2019 – August 2019

- Designed, developed, and tested application components under senior developer guidance.
 - Collected, analysed, and reported data using SQL and data visualization tools, aiding informed decision-making.
 - Conducted unit testing, troubleshooting, and debugging to maintain software quality.
 - Maintained comprehensive technical documentation to ensure future scalability.
-

Certifications

- **Certified Pega System Architect (CSA)** | August 2020
 - **Certified Pega Senior System Architect (CSSA)** | March 2021
-

Education

Master of Science in Computer Science

Northern Arizona University | Flagstaff, AZ, USA | GPA: 3.82 | August 2023 – December 2024

Bachelor of Technology in Computer Science

Lovely Professional University | Punjab, India | GPA: 8.60 | August 2017 – May 2021
