

DAVID C. SKINNER, JR.

Jacksonville, FL | (904) 510-4303 | dskinner_jr@outlook.com | linkedin.com/in/david-skinner-76687a17

Professional Summary

Results-driven Senior Project Manager with over 20 years of progressive leadership experience across technology, insurance, and professional services industries. Holds dual certifications as a Project Management Professional (PMP) and SAFe Release Train Engineer (RTE), with proven expertise in enterprise-level project delivery, business transformation, competitive procurement, and large-scale construction management. Recognized for leading cross-functional teams, optimizing operational workflows, and executing high-impact initiatives that drive organizational efficiency, cost control, and stakeholder value. Equally adept at managing Agile software development programs and complex construction projects, ensuring strategic alignment and measurable outcomes across diverse project portfolios.

Core Competencies

Project Lifecycle Management | Agile Program Leadership | Competitive Procurement | Contract Administration | Budgeting & Cost Control | Cross-Functional Team Leadership | Risk & Compliance Management | Technology Implementations | Construction & Facility Renovation | Vendor & Stakeholder Engagement

Professional Experience

Senior Project Manager — Citizens Property Insurance Corporation, Jacksonville, FL April 2021 – Present

- Lead enterprise-level initiatives across technology, construction, and facility renovation portfolios, integrating Agile program management with strategic business and procurement processes.
- Manage competitive procurement solicitations in partnership with Vendor Management, Purchasing, Legal, and cross-functional Business Units, ensuring compliance with corporate and state standards.
- Translate complex technical and operational requirements into comprehensive procurement and project delivery strategies, optimizing value, performance, and contract compliance.
- Oversee end-to-end construction and relocation projects, coordinating design, scheduling, and execution activities to deliver modernized facilities that support business continuity and operational excellence.
- Drive Agile transformation and scaled delivery models as a certified Project Management Professional (PMP) and SAFe Release Train Engineer (RTE), fostering collaboration across

development teams and business stakeholders.

- Recognized for establishing collaborative vendor relationships and process efficiencies that streamline procurement workflows, reduce cycle times, and enhance stakeholder satisfaction.

Senior Project Manager — Brightway Insurance, Jacksonville, FL January 2015 – June 2020

- Directed the successful delivery of 40+ enterprise technology implementations and product integrations across corporate operations and 150+ franchise locations, ensuring seamless business continuity.
- Led multi-site system migration initiatives, coordinating efforts between internal stakeholders, cross-functional development teams, and external vendors to achieve on-time, on-budget completion.
- Championed business transformation initiatives, improving operational efficiency and scalability across corporate and franchise environments.
- Served as subject matter expert (SME) in business solutions, providing strategic insight that drove system adoption and operational optimization.
- Applied Agile methodologies and data-driven analysis to improve project visibility, stakeholder engagement, and performance outcomes.
- Partnered with executive leadership to define project governance frameworks, risk management protocols, and change control processes, enhancing transparency and alignment with business goals.

Senior Project Manager — Garden City Group, Jacksonville, FL January 2005 – November 2014

- Directed high-volume Class Action Claims Administration projects involving wage and hour, consumer, and securities cases with class sizes from 1,000 to over 1 million members and settlement values exceeding \$1 billion.
- Oversaw call center operations for high-profile national cases, managing 14 managers, 42 supervisors, and 482 agents, ensuring consistent service quality and compliance.
- Developed and implemented business rules, workflows, and tax reporting procedures for complex claims processing, ensuring efficiency and accuracy.
- Directed financial, legal, and administrative functions related to project delivery, compliance, and settlement distribution.
