

EDEM ADDOH

SENIOR SQL SERVER DATABASE ADMINISTRATOR

O'Fallon, IL | +1 301 452 8458 | edaddoh@gmail.com

PROFILE SUMMARY

Highly accomplished and detail-oriented **SQL Server Database Administrator** with **7+ years** of progressive experience in **designing, implementing, securing, and optimizing enterprise-scale database solutions**. Proven expertise in **high availability (HA), disaster recovery (DR), database performance tuning, and migration strategies** across on-premises and **Azure environments**. Adept at managing mission-critical **databases, automating administrative processes**, and ensuring **maximum** uptime with **robust backup & restore solutions**. Recognized for **bridging technical and business needs** by **delivering reliable, secure, and scalable database infrastructures** that support **organizational growth and compliance**

EXPERIENCE

SQL Server Database Administrator | Rejis Commissioner

Jun 2022 - Present

- Developed 100+ SQL objects, improving database efficiency by 25% across multiple SQL Server environments (2012–2022)
- Upgraded and migrated 10+ databases to SQL Server 2016 & Azure, reducing downtime by 40%, ensuring zero data loss
- Implemented disaster recovery solutions, achieving 99.99% uptime for 24/7 production environments using Always-On AG & log shipping
- Assisted 15+ applications across environments, collaborating to reduce issue resolution time by 30%, improving client satisfaction
- Tuned complex queries using SQL tools, improving response times by up to 50% & enhancing overall database performance
- Designed backup and recovery strategies, ensuring 100% SLA compliance & reducing data recovery time by 35% during incidents

SQL Server Database Administrator | Académie Lafayette

Jun 2018 - May 2022

- Managed 100+ user permissions with least privilege, implementing TDE, Always Encrypted, DDM; reduced data breaches by 30%
- Configured HA & DR solutions on 20+ SQL servers (Always-On AG, WSFC, mirroring, replication), achieving 99.99% uptime
- Monitored SQL Server health continuously using native tools & IDERA, proactively resolving 95% of issues before impacting users
- Supported 15+ SQL Server instances across environments, reducing downtime by 40% through quick troubleshooting & on-call support
- Created documentation & audit reports, improving compliance by 25% and streamlining user access management processes
- Performed migrations, backups, & restores for 10+ databases; optimized indexes and resolved deadlocks, boosting query performance 35%

IT Assistant | Académie Lafayette

Jul 2011 - May 2018

- Scheduled and supervised academic calendars & class timetables for 3,000+ students, ensuring 100% on-time completion each year
- Oversaw end-of-year data archiving and imported over 10,000 student test scores annually with 99.9% data accuracy in SIS
- Advanced & delivered 20+ customized reports for charter sponsors, enabling timely compliance and strategic decision-making
- Administered permissions & directed 5,000+ student email accounts, reducing access issues by 40% through streamlined onboarding
- Trained 50+ staff members on SIS functionalities, improving daily system use efficiency & reducing support tickets by 30%
- Coordinated inventory & updated class rosters for 100+ classes, assisting IT leadership in policy development and tech compliance

EDUCATION

Bachelor's in Information Technology | University of Phoenix, Greenbelt, MD

Nov 2010

CERTIFICATIONS

- **Microsoft Certified:** Azure Fundamentals
- **Microsoft Certified:** MTA Database Fundamentals

TECHNICAL SKILLS

- **Administration & Monitoring:** Backup & Restore Strategies, Database Integrity Checks, IDERA, SolarWinds DPA, Capacity Planning
- **Database Platforms:** Microsoft SQL Server (2008–2022), Azure SQL Database, Azure Managed Instances, Azure SQL VMs
- **Security & Compliance:** Always Encrypted, Transparent Data Encryption (TDE), Dynamic Data Masking (DDM), Role-based Access Control, Principle of Least Privilege, Security Audits
- **High Availability & DR:** Always On Availability Groups (AG), Log Shipping, Database Mirroring, Windows Server Failover Clustering (WSFC), Replication (Snapshot, Transactional)
- **Performance & Optimization:** Query Optimization, Index Tuning, Performance Baselineing, Extended Events, Query Store, SQL Profiler, Execution Plans
- **Development & Automation:** T-SQL, Stored Procedures, Functions, Views, Triggers, SSIS, SSRS, SSAS
- **Cloud & Virtualization:** Azure Cloud Services, Hyper-V, SAN Storage Solutions
- **Other Tools:** Git, PowerShell, Windows Server Administration

CORE COMPETENCIES

SQL Server Installation, Configuration & Upgrades | Cloud Database Migration (On-Prem to Azure) | Enterprise Backup & Disaster Recovery Planning | Database Performance Monitoring and Tuning | Data Security | Compliance Management | Business Continuity Planning | Database Design & Development | Automation of DBA Processes | User & Role Administration (On-Prem and Active Directory) | Strategic Database Infrastructure Planning | Cross-functional Collaboration | Stakeholder Engagement | Troubleshooting Root Cause Analysis | Agile & ITIL-aligned Change Management | Capacity Forecasting | Resource Optimization | Incident & Problem Management in 24/7 Environments | Strong Analytical | Effective Communication | Leadership & Mentorship for Junior DBAs
