## Professional Experience

---

- Ans It India** March-2025 - August-2025  
Api Developer
  - First international project, working with distributed teams in India and Latin America.
  - Developed scalable APIs with FastAPI and web applications in Django and Flask for various clients in the retail and services sectors.
  - Implemented modern interfaces with React, TailwindCSS (HTML, CSS, and JavaScript) to ensure responsive and high-performance applications.
  - Integrated systems using external APIs and optimized data-oriented business processes.
  - Analyzed logs and performance metrics with AWS tools (CloudWatch, Athena), configuring AI-driven anomaly detection features to proactively identify and alert on service failures, which allowed for resource optimization in production and improved reliability.
- Pablo Federico e Hijos S.A** March-2023 - February-2025  
Developer / Integrator
  - Led the end-to-end development of a Django-based machinery tracking ERP, from scoping to production deployment.
  - Implemented real-time communication technologies (ASGI, WSGI, Channels) and managed scalable deployments on AWS and Hostinger.
  - Integrated SAP (inventory, fuel, billing) and Warrior (GPS, fuel) systems, centralizing information and optimizing decision-making with real-time data.
  - Collaborated on project management using the Scrum methodology, prioritizing tasks and coordinating with technical teams and key users.
  - Analyzed large volumes of operational data and machinery logs, using advanced data analysis and AI algorithms to identify performance patterns and predict maintenance needs. This optimized parts inventory and logistics, reducing costs and minimizing downtime.

Tech Stack: Django, Docker, React, Kubernetes, Nginx, Linux, Selenium, Celery, and PostgreSQL.
- Siglo XXI** August-2021 - April-2022  
Functional Analyst/QA
  - Participated in the analysis of large volumes of data from various educational and HR systems.
  - Implemented cloud analytics solutions (AWS QuickSight, Athena) to generate strategic reports, perform quality control, and enable data-driven decision-making.
  - Collaborated using the Scrum methodology, coordinating sprints via Jira with developers and internal clients to ensure effective communication and timely delivery.
  - Acted as a liaison between technical and business areas, ensuring the successful integration of HRFactors (Dynamics) into the new educational system.
- Al Campo S.A** August-2022 - December-2022  
Analyst/Purchasing
  - Managed daily stock control across different branches to ensure product availability.
  - Responsible for loading delivery notes and invoices into the ERP system, maintaining accurate and up-to-date information.
  - Managed the purchasing department, coordinating with suppliers and negotiating terms to ensure competitive costs and supply chain continuity.
  - Analyzed inventory data and supplier performance, generating reports that helped optimize purchases and reduce stockouts.

## Education

---

- **I.P.E.T 70 Dr. Prof. Humberto Dionisi** 2010-2017  
Electromechanical  
Received
- **UTN** 2018-Present  
Systems Engineering

## Language

---

- English: C1

## Personal Information

---

- Nacionalidad : Argentinean
- birthdate : October 6, 1997 (27 years old)
