ERICH P COVEY

PROJECT MANAGER

Delivering Leadership, Accountability, and Excellence.

Total Dedication in Exceeding Client and Personal Expectations in Challenging Environments.

PROFILE INFO

Experienced Program/Project Manager with a strong background in leading complex projects across technology environments. Proven ability to manage budgets, coordinate cross-functional teams, and engage stakeholders to deliver projects on time and within scope.

Adept at driving process improvements, mitigating risks, and aligning digital initiatives with business goals. Committed to fostering collaboration and accountability while achieving measurable results. Excel at building strong, lasting stakeholder relationships built on a foundation of trust and transparency.

EXPERIENCE

Jul 2023 - Sep 2025

FLSmithth Project Manager

- Managed high-value projects as the key liaison between FLSmithth, external stakeholders, international warehouse, production departments, and senior leadership, successfully ensuring timely delivery of complex orders for pumps, cyclones, and valves.
- Collaborated with internal teams and external sub-suppliers to efficiently secure parts and units, ensuring timely fulfillment of customer-specific project orders.
- Enhanced stakeholder relationships by actively facilitating transparent communication, effectively representing customer interests within the company and FLSmithth's interests with clients.
- Led initiatives to improve processes by streamlining the purchase order to product delivery workflow, collaborating across several departments to gain insights and implement successful changes.
- Successfully managed projects from initiation to completion, leading key installation milestones onsite and directing the commissioning of new equipment for optimal performance.
- Implemented comprehensive risk management strategies to ensure projects consistently met timelines and stayed within budget.

2021- 2023

Dynata Senior Project Manager

- Enhanced the accuracy and timeliness of marketing research through effectively managing the collection and distribution of online survey data.
- Served as Liaison between internal departments and client to achieve quality results and build long lasting relationships.
- Partnered with the Sales Team to define project scopes and secure necessary resources, resulting in successful project launches.
- Communicated with the Programmers and Data Analysts to ensure the surveys are correctly designed and data received is quality data, meeting the customer's needs and objectives.
- Tested all designs prior to launching project to ensure all links work correctly and data is being captured.
- Reviewed data to ensure we were meeting all demographic targets and that we had quality respondents, removing poor quality data throughout the process.
- Worked side-by-side with the customer, providing daily communication and status updates in an effort to maintain transparency.
