

FRANCISCO STAGG

Pembroke Pines, FL 33029, United States | +1 347-871-8440 | francisco.stgx@gmail.com

SUMMARY

Senior Full-Stack Software Engineer with 8+ years of experience delivering scalable, high-performance web and mobile applications across healthcare, fintech, and travel sectors. Proficient in **full-stack development** and **front-end development** using React, Node.js, Next.js, Nest.js, Python, Django, GraphQL, and AWS. Adept in **software development**, **application development**, and implementing **technical requirements** for enterprise-grade systems. Proven success in designing RESTful and GraphQL APIs, optimizing system performance, and deploying containerized applications using Docker and CI/CD pipelines. Strong **collaboration skills** and **communication skills**, with a track record of **continuous improvement** and cross-team success. Skilled in cloud-native services, intuitive **user interfaces**, and mentoring engineers in secure, maintainable development practices.

SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, Node.js, Nest.js, Express.js, Python, Django, Flask, React.js, Next.js, Vue.js, React Native, Kotlin
- **Frontend:** React, Redux Toolkit, Zustand, Context API, Tailwind CSS, Styled-components, MUI, SCSS, Chart.js, D3
- **Backend & APIs:** REST APIs, GraphQL, Apollo Server/Client, Prisma, Firebase, Supabase, WebSocket, Redis, PostgreSQL, MongoDB, MySQL, Snowflake, DynamoDB
- **Cloud & DevOps:** AWS (Amplify, Cognito, S3, CodePipeline), GCP, Docker, Kubernetes, Terraform, GitHub Actions, Netlify, Vercel
- **Testing & Quality:** Jest, Cypress, Playwright, Detox, Mocha, Selenium, Testing Library, performance testing
- **Tools & Workflows:** Git, Jira, Storybook, Figma, Agile/Scrum, Microservices, Monorepo, CI/CD
- **Other:** A/B Testing, data management, data analysis, Performance Optimization, Accessibility (WCAG 2.1), SEO, Stripe, Plaid SDK, OpenAI, Intercom

WORK EXPERIENCE

Teladoc Health

Mar 2023 - May 2025

Senior Full-Stack Engineer

- Led full-stack development of Teladoc's cross-platform digital health suite using React.js, React Native, Node.js (Nest.js), and GraphQL.
- Translated complex technical requirements into scalable, production-ready solutions.
- Developed Smart Notes interface with rich text editor and PDF export, enhancing the user experience with a highly intuitive, user-friendly UI.
- Built real-time messaging using WebSocket and Redis pub/sub for service-oriented care delivery.
- Integrated OpenAI-powered symptom checker to support data analysis and decision-making.
- Orchestrated CI/CD pipelines with Docker and AWS CodePipeline, supporting continuous improvement practices.
- Championed performance testing and dashboard optimization using React Query and backend indexing.
- Drove accessibility and UX improvements across interfaces to align with WCAG 2.1.

Robinhood

Dec 2021 - Mar 2023

Full Stack Engineer

- Designed and implemented features for the Robinhood Strategies platform involving both front-end development (React, Redux) and backend (Node.js, GraphQL).
- Built user interfaces that handled high-frequency financial data and maintained smooth user experience via TradingView.
- Collaborated across engineering, product, and design teams, demonstrating strong collaboration and communication skills.
- Developed microservices and tools that emphasized service-oriented design principles.
- Enhanced authentication security using AWS Cognito and integrated Plaid SDK.
- Contributed to a high-quality codebase through robust software development practices and test automation..

Booking.com

Sep 2019 - Dec 2021

Full Stack Developer

- Rebuilt legacy booking system using React and Node.js to modernize the **application development** lifecycle.
- Designed A/B testing tools that supported **data analysis** and UX experimentation across dynamic UIs.
- Developed a component library in Storybook with a focus on **intuitive**, responsive design and accessibility.
- Conducted backend schema planning in GraphQL to optimize frontend consumption and improve data efficiency.
- Worked on SEO optimization and improved **user experience** by implementing SSR with Next.js.

Notion

Jun 2017 - Sep 2019

Intern, Junior Software Engineer

- Supported the development of Notion's early mobile apps with React Native and Node.js, focusing on **user-friendly** features like offline sync and quick note access.
- Built internal dashboards and admin panels with an emphasis on clean UI/UX and efficient **data management**.
- Assisted in accessibility improvements and contributed to **troubleshooting** bugs and technical issues across mobile and web platforms.

- Improved developer velocity through TypeScript migrations and CI/CD tooling.

EDUCATION

Florida Polytechnic University

Bachelor's Degree, Computer Science – Software Engineering

2013 - 2017
