

GADE VENKATA SAI KRISHNA

Phone: +1(561) 593- 0088 || Email: saikrishnagadevenkata@gmail.com

Summary

Innovative **Software Engineer with 4+ years of experience** delivering high-impact solutions in various **IT domains**. Recognized for **architecting cloud-native platforms on AWS**, building **scalable microservices**, and driving **CI/CD automation** that slashes release cycles. Hands-on expertise in **React.js, Next.js, Node.js, TypeScript, and Kubernetes**, with advanced knowledge of **observability, DevOps, and ML/AI model deployment**. Proven ability to **modernize legacy systems**, boost performance, and deliver solutions that **cut costs and accelerate business growth**.

Technical Skills

- **Programming & Scripting:** JavaScript (ES6+), TypeScript, Python, SQL, Go, Shell Scripting
- **Frontend Development:** React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Responsive & Accessible Design (WCAG)
- **Backend Development:** Node.js, Express.js, NestJS, REST & GraphQL APIs, Microservices, Event-Driven Architecture
- **Databases & Data Systems:** PostgreSQL, MongoDB, MySQL, DynamoDB, Redis, Snowflake (data warehousing)
- **Machine Learning & AI:** Scikit-learn, TensorFlow, PyTorch, NLP (LLMs, Sentiment Analysis, Recommendation Engines, Predictive Analytics), Model Deployment via APIs & Cloud ML Services (SageMaker, Vertex AI)
- **Cloud Platforms & Infrastructure:** AWS (Lambda, API Gateway, ECS/EKS, CloudFormation, CloudWatch, RDS, S3), Azure (App Services, Functions), GCP (BigQuery, Pub/Sub, Cloud Run)
- **DevOps, CI/CD & IaC:** Docker, Kubernetes, Helm, Terraform, GitHub Actions, Jenkins, ArgoCD
- **Monitoring, Observability & Security:** Prometheus, Grafana, ELK/EFK Stack, Splunk, OpenTelemetry, Snyk (security scanning)
- **Testing & Quality Assurance:** Jest, Mocha, PyTest, Postman, Cypress (E2E), Swagger (OpenAPI), JUnit (legacy Java projects)
- **Collaboration & Agile Tools:** Jira, Confluence, Git, GitHub, GitLab, Bitbucket, Figma, Miro

Professional Experience

Liberty Mutual Finance Software Developer

Jan 2025 – Present

- Spearheaded the design and deployment of enterprise-grade microservices and event-driven APIs using Node.js, NestJS, and GraphQL, reducing claim-processing latency by 30%.
- Architected cloud-native solutions on AWS (Lambda, ECS, RDS, S3, CloudFormation), cutting infrastructure costs by 25% while achieving enterprise scalability.
- Engineered Next.js + React.js dashboards with Tailwind CSS, enabling real-time financial insights and accelerating decision-making for analysts by 40%.
- Pioneered GitHub Actions + ArgoCD CI/CD pipelines, introducing zero-downtime deployments and reducing release cycles from weeks to days.
- Advanced observability practices with Prometheus, Grafana, and OpenTelemetry, improving system reliability and shrinking MTTR (Mean Time to Resolution) by 35%.
- Championed cross-team Agile delivery, translating high-level business goals into production-ready engineering solutions using Jira, Confluence, and Figma.
- Provided expert guidance on Java-based legacy systems, modernizing critical modules while ensuring seamless backward compatibility.

Creative Newtech Ltd Software Engineer

Jan 2020 – Sep 2023

- Developed scalable RESTful and GraphQL APIs with Node.js, Express.js, and PostgreSQL, laying the foundation for enterprise integration across retail and e-commerce systems.
- Improved frontend performance by migrating from legacy code to React.js and Redux Toolkit, enhancing load times by 20% and streamlining state management.
- Introduced Redis caching and DynamoDB for high-volume transaction processing, lowering API latency by 65% and supporting traffic growth.
- Containerized applications using Docker and Kubernetes, establishing a baseline for cloud-native adoption and improving deployment consistency.
- Built and deployed an ML-based recommendation engine with TensorFlow & scikit-learn, boosting upsell and cross-sell conversion rates by 18%.
- Strengthened QA processes with Jest, Cypress, and Postman, which reduced production defects by 40% and improved stakeholder confidence.
- Collaborated with senior engineers to maintain Java-based backend services, gaining exposure to enterprise development practices and legacy modernization.

Education

- **Master's degree, Information Technology**, Atlantis University
- **Bachelor of Technology (Mechanical Engineering)**, SRKR Engineering College
