SUMMARY

Salesforce Developer with over 5+ years of experience designing, customizing, and deploying Salesforce solutions across enterprise environments. Skilled in building scalable applications with Apex, Lightning Web Components (LWC), and Visualforce, as well as integrating Salesforce with external systems using REST and SOAP APIs. Proven success in CRM migrations, Service Cloud Voice implementations, and CI/CD automation, achieving measurable improvements in deployment efficiency, data accuracy, and customer satisfaction. Adept at collaborating in Agile environments, leveraging tools such as Jira and GitHub, and applying best practices in data management, security, and automation. Recognized for delivering innovative Salesforce solutions that align with business goals and enhance user adoption.

SKILLS

- **Programming Languages:** Apex, JavaScript, HTML, CSS
- **Salesforce Tools & Technologies:** Salesforce Lightning, Visualforce, Lightning Web Components (LWC), Apex Triggers, Process Builder
- **Query Languages:** SOQL, SOSL
- **Integration & APIs:** RESTful APIs, SOAP APIs, JSON, XML
- **Cloud Platforms:** Salesforce Platform (Force.com), AWS, Google Cloud
- **Deployment & CI/CD:** Salesforce DX, Metadata API, Jenkins
- **Data Management:** Salesforce Data Loader, Schema Builder, Data Migration
- **Automation & Process Management:** Flow Builder, Workflow Rules, Approval Processes
- **Version Control & Deployment:** Git, GitHub, Salesforce DX, Metadata API
- **Testing & Debugging:** Apex Unit Testing, Debug Logs
- **Security & Access Control:** Profiles, Roles, Permission Sets
- **Collaboration & Project Management:** Agile, Jira
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration

WORK EXPERIENCE

DXC Technology

July 2025 – Present

Salesforce Developer

- Spearheaded the **Service Cloud Voice Implementation**, integrating Salesforce with Amazon Connect to deliver a unified omnichannel support solution.
- Engineered **Lightning Web Components (LWC)** and Apex services to power real-time transcription, AI-driven recommendations, and sentiment analysis.
- Orchestrated **RESTful API integrations** with third-party platforms, ensuring secure and scalable data exchange across systems.
- Optimized deployments by establishing **Salesforce DX and GitHub Actions pipelines**, reducing release cycle times and improving code reliability.
- Partnered with Agile teams to enhance call center KPIs, driving a **30% boost in first-call resolution** and measurable gains in customer satisfaction.

VMware

August 2019 – July 2023

Salesforce Developer

- Contributed to the **Salesforce Migration**, transitioning VMware's global CRM from Siebel to Salesforce while establishing a structured testing framework.
- Developed **Apex triggers, classes, and Visualforce pages** to replicate and enhance legacy functionality in Salesforce Lightning.
- Automated test cases using Selenium and UFT, cutting regression testing time by **40%**.
- Executed **SOQL and SOSL queries** for data validation, ensuring accuracy across migrated objects and workflows.
- Integrated Salesforce with middleware platforms via **SOAP and REST APIs**, streamlining data synchronization across enterprise systems.
- Designed and maintained **workflow rules, approval processes, and Process Builder automations** to support critical business operations.
- Implemented and monitored **CI/CD pipelines using Jenkins and Metadata API**, reducing deployment errors by **30%**.
- Collaborated with QA and business teams to strengthen defect detection, minimizing post-go-live issues and enhancing end-user trust.

- Supported user adoption by preparing **technical documentation, training materials, and cross-team knowledge sharing sessions.**

PROJECTS

1. Salesforce Community Portal for Partner Enablement

- Designed and deployed a **Salesforce Experience Cloud (Community Portal)** for partner onboarding and collaboration.
- Configured **Profiles, Roles, and Permission Sets** to implement secure, role-based access control.
- Leveraged **Schema Builder and Data Loader** for partner data migration and portal user setup.

2. Marketing Cloud Integration for Campaign Automation

- Integrated **Salesforce Marketing Cloud** with Sales Cloud to enable automated email and lead nurturing campaigns.
- Developed **JSON/XML-based REST API integrations** for syncing customer data across marketing platforms.
- Built **custom dashboards and reports** to measure campaign effectiveness and improve ROI tracking.

EDUCATION

Master in Computer Information Science

Aug 2023 – May 2025

Saint Louis University – Saint Louis, MO | **GPA: 3.71**

CERTIFICATIONS

- Salesforce Certified Platform Developer I**
