---

## Professional Summary

Accomplished Senior Software Developer with 9+ years of experience leading projects as an architect, developer, and programmer analyst. Proficient in supporting project deliverables and maintaining releases. Strong leader in guiding support teams and solving complex issues. Steadfast in planning and implementing effective development strategies based on industry best practices.

---

## Work Experience

### Deloitte

*Full Stack Developer (February 2024 - January 2025)*

- Spearheaded the development of a strategic pricing prototype system enabling Deloitte experts to accurately price client engagements, significantly improving proposal accuracy and business development efficiency.
- Developed and implemented enterprise-grade solutions using C#, Entity Framework, and React (JavaScript/TypeScript, HTML5, CSS3, and SQL), ensuring adherence to strict security standards including SAST and DAST testing protocols.
- Used Azure AD Authentication and Authorization to determine access control
- Architected and developed an innovative file validation system that significantly improved client data processing efficiency:
  - Designed a configurable rule-based validation engine for preprocessing client submissions.
  - Implemented real-time validation feedback for data quality requirements such as data type constraints and character limitations.
  - Reduced processing delays by enabling users to identify and correct data issues before submission.
  - Created a user-friendly interface for clients to upload and validate files against predefined business rules.
- Led daily stand-up meetings and collaborated with cross-functional teams to ensure project alignment and timely delivery of solutions.

- Utilized Azure DevOps for efficient task management and tracking, maintaining high standards of code quality through regular code reviews.
  - Successfully deployed and maintained applications on Microsoft Azure, implementing robust security measures and best practices.
  - Engaged in end-to-end development from UI design to production deployment, ensuring seamless integration with existing systems.
  - Used SOLID principles
- 

## Praxis Computing

*Senior Software Developer and Team Lead (Feb 2020 – Jan 2024)*

- Developed robust back-end APIs using C#, Node, and Java, applying clean architecture and repository patterns.
- Created applications with Angular, .NET Blazor, WebSocket, HTML5, and DevExpress Tools, enhancing UI/UX experiences.
- Integrated Sage Evolution Accounting System with third-party applications, optimizing business processes and data flow.
- Designed and developed databases using Microsoft SQL Server and Oracle, implementing optimization techniques for superior performance.
- Implement and maintain CI/CD pipelines, for smooth and fast deployments
- Led teams through successful design and development projects, mentoring junior developers and ensuring collaboration.
- Provided project status updates to stakeholders, facilitating smooth communication and alignment on deliverables.

## Adapt IT Holdings Proprietary Limited

*Technical Lead (Jan 2022 – June 2022)*

- Conducted research and development activities, evaluating emerging technologies.
- Developed front-end solutions using Angular, integrating with UI/UX designs from Adobe XD.
- Designed and implemented backend APIs with C#, following clean architecture principles.
- Integrated PayGate payment gateway for secure transactions.
- Mentored and led a team of five junior developers, fostering professional growth.
- Utilized Azure DevOps for project tracking, Git repositories for version control, and conducted thorough code reviews.

## CodeKit Express

### *Technical Lead, (June 2019 – March 2022)*

- Led a team of three developers in developing wildlife and domestic animal tracking applications.
- Conducted performance optimizations and scalability improvements for large data processing.
- Integrated ASP.NET MVC and C# solutions to enhance operational efficiency.
- Deployed applications to production servers, ensuring best practices in configuration management.
- Stayed updated with industry trends, proactively recommending innovative solutions.

## **Chartered Systems Integration**

### *Software Developer (August 2015- Jan 2020)*

- Conducted system walkthroughs and incorporated client feedback into solutions.
  - Integrated banking systems using Microsoft BizTalk, Windows Services, and Web Services.
  - Provided technical support for clients, troubleshooting and resolving system errors.
  - Created user requirement documentation and conducted training sessions for clients.
  - Developed cloud-based applications hosted on Microsoft Azure.
- 

## **Skills**

- C#, .NET, ASP.NET Core, Entity Framework
  - JavaScript, React, Angular, Blazor
  - SQL Server, PostgreSQL, Oracle
  - Cloud Computing (Microsoft Azure, Firebase)
  - API Development & Integration
  - Agile & Scrum Methodologies
  - Azure DevOps, Git, CI/CD Pipelines
  - Security Standards (SAST, DAST, Authentication & Authorization)
  - Technical Leadership & Mentorship
-

## Education

### **Bachelor of Technology (B.Tech) in Software Engineering**

Harare Institute of Technology - Harare, Zimbabwe
