

GOPICHAND KARANAM

Software Quality Assurance Analyst

Email: gopichandkaranamqa5@gmail.com | +1 (945) 544-7668 | USA

<https://www.linkedin.com/in/kchandu9989>

PROFESSIONAL SUMMARY

Analytical and detail-oriented **Software Quality Assurance Analyst** with **5+ years of experience** in manual and automated testing across **healthcare, BFSI, and telecom** domains. Skilled in **SQL validation, API testing (Postman, REST Assured), ETL testing, and Agile QA delivery**. Strong command of **Azure DevOps, CI/CD pipelines**, and **end-to-end testing** in Scrum teams. Recognized for mentoring junior testers, driving defect prevention, and ensuring high-quality software delivery.

CORE SKILLS

- **Testing Tools:** Selenium, Postman, JMeter, JIRA, TestRail, Zephyr, Xray
 - **Automation Frameworks:** Selenium WebDriver (Java), TestNG, Cucumber, Rest Assured
 - **Database Testing:** Strong SQL, Data Validation, ETL Testing
 - **Agile Tools:** Azure DevOps, JIRA, Confluence
 - **Cloud/CI-CD:** Jenkins, Git, GitHub Actions, Bitbucket, AWS, Azure
 - **Testing Types:** Functional, Regression, Integration, API, Smoke, UAT
 - **Programming Languages:** Java, Python, JavaScript
 - **Methodologies:** Agile, Scrum, SDLC, STLC, BDD/TDD
-

PROFESSIONAL EXPERIENCE

CVS Health, TX, USA | *QA Automation Engineer*
June 2025 – Present

- Led QA activities for healthcare applications ensuring data integrity, accuracy, and regulatory compliance.
- Designed and executed **manual and automated test cases** for web, mobile, and API layers.
- Performed **SQL-based data validation** and **ETL testing** across backend systems.
- Validated REST APIs using **Postman** and **REST Assured**, including CRUD operation checks.
- Integrated test suites with **Azure DevOps** and **Jenkins CI/CD** for continuous testing.
- Tracked and triaged defects using **JIRA** and collaborated closely with developers in Agile sprints.
- Mentored junior QA engineers in test design and automation strategy.

Key Achievements:

- Reduced regression cycle time by **30%** through reusable test frameworks.
- Improved API defect detection by **25%** via early Postman validations and SQL-driven data tests.

NWMSU - Department of LTC, Missouri, USA | *Software Engineer* **Sept 2023 – Dec 2024**

- Designed and executed **UI, API, and ETL test cases** in an Agile environment.
- Validated API endpoints using Postman and automated backend verification with **Selenium** and **JUnit**.
- Conducted **SQL data validation** and schema integrity tests on MySQL databases.
- Integrated automated tests into **GitLab CI/CD pipelines**, improving release efficiency.

HCL Technologies, Chennai, India | *QA Engineer* **July 2021 – Aug 2023**

- Delivered QA testing for enterprise applications using **Selenium, JIRA, and Postman**.
 - Performed **manual, regression, and performance testing** with focus on data accuracy and functionality.
 - Participated in **Agile ceremonies**, created test plans, and supported release management in Azure DevOps.
 - Conducted **ETL testing** on data warehouse migrations, ensuring accurate data mapping and transformation.
-

Cognizant Technology Solutions, Hyderabad, India | QA Engineer
Aug 2020 – July 2021

- Conducted **backend and API testing** using Selenium, JUnit, and Postman.
 - Performed **SQL data verification** and supported **TDD-based testing** practices.
 - Logged and tracked defects via **JIRA**, collaborating with development teams for root cause resolution.
-

EDUCATION

- **Master of Science in Computer Science** – Northwest Missouri State University, USA
 - **Bachelor of Technology in Electronics and Communication** – JNTU, India
-

HIGHLIGHTED PROJECTS

- **Healthcare Claims & Eligibility Portal (CVS Health)** – Automated and validated end-to-end claims workflows using Selenium and REST Assured; ensured ETL and backend consistency through SQL scripts.
- **Logistics Automation Platform (NWMSU)** – Built and tested full-stack CRUD workflows with data validation and API automation using Cypress and Postman.
