## Professional Experience

### Maven Solutions

CEO / Senior Technical Program Manager (Consultant)

Aug 2014 - Present

Seattle, WA (Hybrid/Remote)

- Led requirements gathering and daily Scrum for AI/LLM pilots at six medical non-profits, managing 5+ delivery specialists across concurrent engagements; implemented Monday.com and Notion workflows to improve collaboration efficiency by 15% across a \$4M SaaS portfolio.
- Delivered two concurrent AI interactive streaming SaaS projects on time and under budget, achieving zero-downtime Stripe API migration with GDPR/KYC/AML compliance and reducing onboarding friction by 30% through single-page UX and cross-vendor payment interoperability (\$8M portfolio).
- Managed Crypto Blockchain SaaS engagements, improving delivery predictability 20% for B2C/B2B clients by applying Scrum Master sprint planning in Jira/Monday.com and aligning cloud IaaS architecture with stakeholder requirements (\$5M portfolio).
- Oil & Gas 6 MS D365 CRM/ERP (Jun 2022 6 Oct 2023): Delivered CRM 1,078 hours under \$2M budget and on-time ERP go-live with 11 integrations, applying SAP Fundamentals and Minnesota Enterprise Systems for integration alignment; used Azure DevOps user stories and Waterfall-based MS Project plans (Cornell Project Management) to accelerate build velocity 10% for 7 teams.
- Industrial Tech 6 Cloud & M&A (May 2021 6 Nov 2023): Met M&A deadlines across two continents by executing Azure tenant-to-tenant and colocation-to-OCI migrations; rationalized licenses for \$1.2M savings through process optimization (Cornell Systems Design); centralized PMO governance for 4 companies and 3 PMs using Minnesota IS/IT Governance (\$10M portfolio).
- Global Fraud Education 6 Salesforce Turnaround (Jun 2018 6 Mar 2020): Revived stalled \$3M Salesforce CRM with 11 integrations (incl. Zuora) to exact go-live date by adopting hybrid Agile (Scrum Master) and coaching 10 developers/12 stakeholders; saved 20% on vendor costs via API negotiations; improved burn-rate visibility 30% with Azure dashboards and compliance auditing (UPenn Regulatory Compliance) (\$6M portfolio).
- Software App Customization (Nov 2016 6 Jul 2019): Enhanced milestone/budget performance 23% managing 8 enterprise app implementations for 10 remote developers, using earned value management (Cornell Project Management); turned around red accounts in 2 weeks via optimized Jira workflows and risk assessment (\$6M portfolio).

### alliantgroup

Implementation Project Manager

Mar 2013 - Aug 2014

Houston, TX

- Managed 5+ client-facing SaaS and business application projects concurrently, increasing utilization to 85% and improving profitability 20% by designing resource-to-billing analytics and training 20 tax consultants on project scheduling and compliance frameworks.
- Streamlined tax document delivery, eliminating dependencies to meet federal deadlines for 5 teams across software development and engineering sectors.

### Cypress-Fairbanks ISD

Instructor / AP Lead

Aug 2009 - Mar 2013

Houston, TX

- Boosted student GPA scores 15% through tailored curriculum development (M.Ed. skills) on project management, bridging gaps in core classes for honors, gifted, and at-risk students.
