IT Systems Project & Product Management Professional

Driving strategic initiatives, Agile transformations, and multi-million-dollar technology projects

SUMMARY

Strategic IT Project and Product Management professional with 20+ years of success in SaaS product development, Agile project management, and enterprise technology implementations. Proven track record of leading large-scale initiatives across diverse platforms, optimizing workflows, and fostering stakeholder collaboration to deliver cost-effective, high-impact results. Proven ability to manage critical vulnerability response projects in the banking sector, mitigating security risks and ensuring regulatory compliance. Skilled in driving Agile transformations and managing cross-functional teams for business-critical outcomes.

PROFESSIONAL EXPERIENCE

Wells Fargo & Company | San Francisco, CA | March 2015 – January 2025

Senior Technical Project Manager

- Spearhead large, high-risk technology initiatives in fraud prevention for Internet Banking systems, achieving seamless integration across platforms and applications. - Oversee multi-million-dollar hardware and software rollouts, ensuring timely delivery and stakeholder satisfaction.
- Develop and manage complex project schedules across multiple departments, delivering consistent updates to executive leadership and business partners.
- Lead cross-functional teams (20+ members) in the provisioning of network, hardware, and software, managing up to 5 concurrent project releases.
- Integrated ServiceNow into Wells Fargo as the main repository of all servers, applications, firewalls, and datacenters. History with CMDB and ITSM.
- Lead for multiple disaster recovery exercises yearly around multiple data centers, applications, services, and databases.
- Skilled with multiple performance management tools for applications, servers, and databases. Worked with engineering teams on rectifying issues found while monitoring and designed the threshold rules for successful deployments.

- Delivered cost savings of 15% by streamlining release installation processes and frequency.

Performance Mechanical Incorporated | Pittsburg, CA | 2013 – 2015

Technology Application Specialist

- Revamped multi-site construction documentation by developing fillable/signable PDF forms accessible via tablets, laptops, and mobile devices improving efficiency and compliance.
- Served as project coordinator, gathering requirements, conducting testing, and overseeing development, rollout, and training efforts.
- Reduced administrative errors by 35% through streamlined digital workflows.

Charles Schwab & Co., Inc. | San Francisco, CA | 1994 – 2013

Senior Internal Technology Application Specialist | 2005 – 2013

- Managed end-to-end implementation of a company-wide inventory management system, reducing operational costs by 38% and improving efficiency by 60%. - Integrated systems with PeopleSoft Financials, customizing workflows and providing 24/7 support for 700+ users across 300+ branches.
- Delivered two system upgrades and multiple enhancements, including SFTP integration for external warehouses.
- Designed training materials and conducted online training programs, increasing user adoption by 20%.

Internal Technology Application Specialist | 1999 – 2005

- Led vendor research and needs analysis to select and implement a new inventory management system, replacing a limited Paradox-based platform.
- Facilitated company-wide integration, resulting in a 25% reduction in turnaround times for order fulfillment.

Systems Administrator | 1996 – 1999

- Provided network and server support for 5 remote locations, earning multiple service excellence awards.
- Played key roles in enterprise-wide software implementations, including Eudora email and PeopleSoft Financials.

Inventory Specialist | 1994 – 1996

- Partnered with Product Managers to oversee inventory for 1,000+ collateral items, implementing controls that reduced waste and improved forecasting accuracy.
