SUMMARY:

Results-driven Senior Program Manager with over 20 years of experience delivering strategic and tactical solutions in enterprise wide compliance, risk management, regulatory remediation (Consent Orders, MRAs and MRIs), and technology transformation. A proven track record of successfully managing complex programs and conducting in-depth business analysis with extensive experience engaging with senior stakeholders, partners (Internal Audit and Legal Counsel), and external regulators (OCC, FRB and DFS) to meet regulatory requirements and achieve organizational goals.

- **Core Competencies:** Program Management, Compliance, Regulatory Remediation, Risk Management, Business Analysis, Stakeholder Engagement, Technology Transformation.
- **Technical Skills:** Mantas, Actimize, Detica, Fircosoft, and Fenargo.

EXPERIENCE:

Regulatory Remediation Project Manager, Vertical Relevance, NY (Sep 2024 – Present)

Led the end-to-end remediation of regulatory MRAs for Complaints Management, Change Management, and Initial Disclosures transformation programs at RBC Bank, ensuring compliance and operational effectiveness.

- Provided monthly project remediation progress reporting to the program steering committee and the OCC, covering MRA remediation progress.
- Authored and coordinated MRA tollgate and closure packages, including detailed remediation narratives, supporting evidence, and artifact traceability matrices to substantiate regulatory closure requests.
- Collaborated cross-functionally with all lines-of-defense teams to ensure data accuracy, governance adherence, and effective issue resolution.

Compliance Transformation Program Manager, SMBC Group, NY (Jan 2023 – Jun 2024)

- Led matrix teams across Compliance Transformation, Actimize Surveillance Implementation, and Control Room Operations, driving collaboration and innovation.
- Designed and implemented QA procedures to review issue closure forms and artifacts, achieving an 80% reduction in validation errors and enhancing quality control.
- Established and chaired a dedicated Americas Division Compliance Steering committee, providing monthly updates and strategic insights to the FRB and senior executives.

Program Manager - Operations & Technology Transformation Office, CITIGROUP, NY (Sep 2021 – Jan 2023)

- Developed and implemented QA validation procedures for review of Issue Closure Forms and Closure Artifacts ensuring 100% compliance with regulatory requirements.
- Founded and chaired a cross-functional / cross-region Operations and Technology Governance Forum, driving collaboration and governance for Consent Order initiatives.
- Implemented governance framework to ensure alignment with global Ops & Tech policies covering regulatory responses and change control for core and related books-of-work related to Consent Order commitments

Head of Consent Order PMO - Legal & Compliance Department (LCD), BANK OF CHINA, NY (April 2019 – Sep 2021)

- Led the Consent Order PMO team responsible for managing all Consent Order remediation program articles and ensuring compliance with regulatory requirements including Sanctions, KYC, AML, and Governance.
- Provided end-to-end project management for multiple work streams, ensuring accountability for project objectives.
- Authored monthly and quarterly reports for US and China Executive Committees and the OCC, detailing progress, status, risks, & issues, and change control across all Consent Order articles.
- Assessed and approved changes to action plans or mitigation measures, ensuring they effectively addressed corrective actions, recommended plan revision, and tracked revision status.
- Successfully implemented applications to upgrade AML monitoring, sanctions and payments screening, and KYC enhancing compliance capabilities and reducing risk exposure resulting in the OCC lifting the bank consent order.

Program Manager - Americas Compliance Change Management PMO, DEUTSCHE BANK, NY (Dec 2016 – April 2019)

- Established and led the regional PMO, achieving a 100% project success rate and improving team efficiency by 30%
- Designed and implemented a new engagement model for the US Change team, resulting in clear roles, responsibilities, and performance goals.
- Managed and ensured successful delivery of transformation projects for Employee Registrations, Employee Trade Approvals, and Mantas Transaction Monitoring.

Associate Director - Global Investigations & Compliance Project Manager, NAVIGANT CONSULTING, NY (Oct 2014 – Dec 2016)

- Led and managed global monitorship branch-site testing of a British bank, ensuring adherence to sanctions regulations and identifying areas for improvement.
- Supported and ensured the successful implementation of Detica NetReveal for AML monitoring, resulting in enhanced compliance capabilities and reduced risk exposure, conducted independent **model validation** and performance testing for ensuring compliance with regulatory expectations.
- Conducted AML system assessments for 7 Latvian banks, identifying key risks and operating gaps, recommended corrective actions, and improved compliance standards. Documented validation procedures, workpapers, and supporting evidence in accordance with internal audit, industry best practices and regulatory standards.

Program Manager, CITIGROUP, NY (July 2010 – Oct 2014)

- Architected and implemented the PMO Operating Model, driving a 25% improvement in performance, 30% enhancement in regulatory control, and 20% increase in strategic planning effectiveness.
- Managed BAU and strategic activities, supporting global and regional compliance projects and ensuring successful delivery.
- Developed and implemented innovative programs, including alert risk scoring, threshold optimization, and client segmentation, resulting in a 40% enhancement in AML capabilities and a 25% reduction in risk exposure.
- Assessed AML models for compliance with NYDFS Part 504, OCC Model Risk Management (OCC 2011-12), and other applicable regulatory requirements. Reviewed data integrity, model inputs/outputs, and scenario coverage to evaluate system effectiveness and identify potential control gaps. Prepared model validation reports and findings for compliance leadership, providing remediation recommendations, and collaborated with risk management and technology teams to ensure AML models meet model risk governance and regulatory expectations.

Program Manager, BARCLAYS CAPITAL SINGAPORE (May 2009 – July 2010)

- Managed APAC Compliance IT team, ensuring seamless support for EU and US compliance and control units
- Successfully oversaw a global portfolio of compliance programs, including Mantas TCM & AML and decommissioning, Actimize onboarding, position limit monitoring, and Control Room integration projects achieving 100% implementation success.

Project Manager, CREDIT SUISSE SECURITIES, SINGAPORE (Jun 2006 – May 2009)

- Created a regional IT project portfolio for APAC CIO with an in-depth review of in-flight and pipeline projects; and supported deep dives for IT audit reviews by driving the content of MIS & metrics including program delivery, application capacity and resiliency; and cost transparency.
- Implemented online request management tool to support CTB/RTB requests improving the Operational Business Planning process and chaired a steering committee with functional heads to discuss initiatives with shared impact.

Earlier Experience:

- Held project manager and business analyst roles at CITI, BOOZ ALLEN HAMILTON, and PEOPLESOFT.

EDUCATION:

- MBA in Finance, CITY UNIVERSITY OF NEW YORK - BARUCH COLLEGE
- BS in Marketing, NEW YORK INSTITUTE OF TECHNOLOGY
- Project Management Professional (PMP) Certification Number: 2217187
