Professional Summary

Dedicated and innovative IT professional with over 8 years of experience in providing exceptional IT support, troubleshooting hardware and software issues, and optimizing system performance across various environments. Expertise in network management, systems administration, IT equipment procurement, and user support. Demonstrates strong analytical skills, effective communication, and the ability to work under pressure in fast-paced environments. Committed to minimizing downtime, enhancing customer satisfaction, and contributing to the success of IT operations.

Core Competencies

- Systems Administration & Network Management
- IT Troubleshooting & Root Cause Analysis
- Hardware & Software Support
- Network Configuration & Engineering
- IT Equipment Procurement & Inventory Management
- User Support & Training
- Project Management & Mentorship
- Documentation & Record Keeping
- Telecom/PBX Administration
- Data Cabling & Systems Integration
- Problem Solving & Analytical Reasoning
- Strong Communication & Collaboration

Professional Experience***Amazon.com Services LLC — Sparrows Point, MD***

May 2016 – Present

IT Support Associate II

- Provide comprehensive IT support to Amazon's warehouse operations, ensuring minimal downtime and optimal system performance across various IT systems and devices.
- Diagnose and resolve hardware and software issues for devices such as scanners, printers, and workstations, improving operational efficiency.
- Manage network configurations, including addressing connectivity issues and maintaining stable access to essential systems.
- Deliver training sessions on IT systems and best practices to warehouse staff, enhancing team productivity and reducing IT-related downtime.
- Maintain and update detailed records of IT equipment inventory, service logs, and maintenance schedules for optimal resource management.

IT Equipment Coordinator

- Coordinate procurement, deployment, and maintenance of IT equipment, ensuring timely availability and functionality for company-wide operations.
- Track and manage IT inventory, conducting audits to ensure accuracy and availability of hardware and peripherals.

- Collaborate with vendors for purchasing, negotiating contracts, and ensuring timely delivery of IT supplies and services.
- Provide ongoing technical support for internal teams, assisting with equipment setup, troubleshooting, and configuration.

ICQA Problem Solver

- Conduct audits and cycle counts to verify inventory accuracy, identifying and resolving discrepancies.
- Investigate root causes of inventory issues, such as system errors, process inefficiencies, and operational challenges.
- Develop and implement corrective solutions in collaboration with cross-functional teams, including operations, logistics, and IT.
