EXPERIENCE

Software Engineer

Bank of America

May 2024 - August 2024, Plano, TX

- Designed and developed responsive and dynamic web interfaces using **React.js**, enhancing user experience with modular, reusable UI components.
- Utilized **React Hooks** (useState, useEffect, useContext) and **lazy loading** to enhance performance and reduce initial load time.
- Integrated frontend applications with **RESTful APIs**, enabling seamless real-time data exchange between the UI and backend systems.
- Managed application state with **Redux Toolkit**, and implemented **React Router** for dynamic routing, improving navigation and state flow across views.
- Collaborated with designers and backend teams to align on UI/UX expectations and API integration.
- Participated in **Agile ceremonies** (stand-ups, sprint reviews) and maintained progress using **Jira**.
- Implemented unit tests using **Jest** and React Testing Library.
- Used **GitHub** for version control, collaborated through feature branches and pull requests, and contributed to automated workflows via **GitHub Actions**.

Student Assistant - Web

University of North Texas

March 2024 - May 2024, Frisco, TX

- Maintained and updated university web applications using **HTML**, **CSS**, **JavaScript**, and **React.js**, enhancing user experience with responsive design via CSS Flexbox and Grid.
- Collaborated with staff on content updates and helped implement changes based on **UI/UX feedback**.
- Managed version control using **GitHub** and participated in weekly meetings for sprint progress.
- Managed tasks and workflows using **Jira** to ensure timely completion of deliverables.

Full-stack Developer

Proprio Language Services

July 2021 - July 2023, Hyderabad, India

- Developed, maintained, and shipped production code for websites primarily using Java, TypeScript, React.js.
- Developed microservices using **Spring Boot**, **Spring MVC**, **Spring Security** and **RESTful** Web Services.
- Hands on experience in **Amazon Web Services (AWS)**, services like **EC2**, **S3**, **IAM**, **ELB (Load Balancers)**, **RDS**, **VPC**, **Route53**, **Cloud Watch**, **Cloud Formation**, **IAM**, **SNS** etc.
- Used **Jenkins**, **Docker for Containerization** for **CI/CD** (Continuous Implementation and Continuous Delivery).
- Optimized relational schema in **PostgreSQL** and managed unstructured data with **MongoDB**.
- Created new, dynamic, front-end visually appealing UI using **React.js with TypeScript**.
- Developed automated tests with **JUnit 5** and **Mockito**.

SKILLS

Programming Languages : Java, Python, JavaScript, TypeScript, C, C++, SQL, R

Frontend Technologies : HTML, CSS, React.js, Angular.js, Tailwind CSS, jQuery, Bootstrap

Backend Frameworks : Spring boot, Spring, Hibernate, Node.js, Microservices

Databases : MySQL, MS SQL, Oracle SQL, MongoDB, PostgreSQL, SQL server

Web Services : REST, SOAP, GraphQL

Cloud : AWS, Azure

Application Server : Apache Tomcat, JBoss

IDEs : Visual Studio Code, Eclipse, NetBeans, IntelliJ, Postman

Methodologies : Agile, Scrum, Kanban

Project Management : Git, GitHub, Jira

Testing Tools : JUnit, Jest

DevOps : Jenkins, Docker, Kubernetes

Operating Systems : Windows, MacOS, Linux

Office Tools : Word, Excel, Powerpoint

EDUCATION

Master of Science (MS) in Computer Science

University of North Texas • United States • 2025

- Relevant Courses: Software Engineering, Artificial Intelligence, Machine Learning, Algorithms, Web Development, Databases, Data Structures, Full Stack Development.

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering

Gokaraju Rangaraju Institute of Engineering and Technology • India • 2023
