

Luke Aaron Simpson

Senior Full Stack Engineer | .NET, React, Azure | 14+ Years

lukesimpson838@outlook.com | (772) 356-2227 | Spring Hill, FL 34606 | [linkedin.com/in/luke-simpson-b0745749](https://www.linkedin.com/in/luke-simpson-b0745749)

With over **14** years of experience as a **Senior .NET Full-Stack Engineer**, I specialize in building enterprise-grade solutions that address complex business challenges while ensuring scalability and performance. My strength lies in designing and managing robust backend systems, where I excel at architecting solutions that optimize resource utilization, handle high volumes of data, and deliver fast, reliable performance under pressure.

SKILLS

Backend	C#, .NET Framework, .NET Core, ASP.NET MVC, ASP.NET Core, ASP.NET Web API, RESTful APIs, SOAP Web Services, SignalR, LINQ, Entity Framework, Entity Framework Core, Ninject, Dependency Injection, Microservices, RabbitMQ, Swagger, CQRS (Command Query Responsibility Segregation), Event-Driven Architecture, .NET Identity, .NET Core Identity, IdentityServer4, OAuth2, OpenID Connect, Authentication & Authorization, JSON Web Tokens (JWT)
Frontend	React, Redux, TypeScript, Angular, Vue.js, JavaScript (ES6+), HTML5, CSS3, SASS/SCSS, Tailwind CSS, Bootstrap, jQuery, Webpack, Babel, Axios, GraphQL, Next.js, Gulp, Yarn, Material UI, Semantic UI, Flexbox, CSS Grid, Responsive Design, PWA (Progressive Web Apps)
Databases	SQL Server, T-SQL, MySQL, PostgreSQL, MongoDB, Redis, Oracle, Entity Framework Migrations, NoSQL Databases, In-memory Caching, Full-text Search (SQL Server, Elasticsearch), Database Optimization, Database Sharding
Cloud/DevOps	AWS (EC2, S3, Lambda, RDS), Azure (App Services, Functions, Blob Storage), Google Cloud Platform (GCP), Docker, Kubernetes, Jenkins, GitLab CI, Azure DevOps, Continuous Integration (CI), Continuous Deployment (CD), Terraform, CloudFormation, CloudWatch, SQS (Simple Queue Service), CloudFront, API Gateway, S3 Bucket Configuration
Other Tools	RabbitMQ, Elasticsearch, Kafka, Redis Pub/Sub, OpenAPI/Swagger, DevExpress, Telerik, PowerShell, Bash, Command Line Tools, Azure DevOps Pipelines, Service Bus, FluentValidation, NLog/Serilog

EXPERIENCE

Senior .NET Full-Stack Engineer

Feb 2018 - Jan 2025

Cododevs | Los Angeles, CA

Project 1: Dextall

<https://www.dextall.com/>

- Dextall offers innovative, prefabricated exterior wall systems designed to reduce construction timelines, cut costs, and enhance sustainability with integrated BIM technology and advanced training for industry professionals.
- Led a **5-person team** of developers, designers, and project managers, ensuring seamless collaboration across functions, and accelerating project delivery.
- Engineered and customized **Umbraco CMS** to streamline content management.
- Architected and implemented **Microsoft ASP.NET Core 3.1** backend solutions, enhancing application performance and reducing load times.
- Integrated **Three.js**, delivering interactive 3D models that elevated user interaction and engagement.
- **Tech Stack:** Umbraco CMS, Microsoft ASP.NET Core, Three.js, SQL Server 2019, Azure Functions, OAuth 2.0, JWT, Redis, Azure App Services, CSS3, Tailwind CSS, SASS, Azure Blob Storage, Nginx

Project 2: CPREnroll

<https://www.cprenroll.com/>

- CPR Enroll is an online platform designed to streamline the enrollment process for CPR and first aid certification, offering secure and efficient registration, training, and certification services for individuals and organizations.

- Implemented **Angular**, optimizing user interactions and boosting system responsiveness.
- Built a powerful **ASP.NET Core** backend that supports high-performance features, cutting API response times.
- Used **WebSockets** to deliver real-time notifications to users about class schedules, status updates, and reminders, enhancing communication flow.
- **Tech Stack: Angular, TypeScript, ASP.NET Core, Google Maps API, Zone.js, JWT, SQL Server 2019, Redis, Azure App Services, SASS, Azure Blob Storage, Nginx, Sentry, Webpack, Babel, OAuth 2.0, TypeORM**

Project 3: Pablow

<https://www.pablow.io/>

- Pablow offers vacation rental insurance that covers non-refundable trip costs against cancellations due to unforeseen circumstances like sickness or weather and also includes coverage for car rentals, baggage, and trip interruptions.
- Implemented **ASP.NET Core 5** for the backend, ensuring scalable and high-performance service delivery.
- Integrated **Azure SQL Database**, streamlining data management and improving query performance.
- Developed **real-time chat functionality** using **SignalR**, increasing engagement by **50%** and providing instant communication between users and support teams.
- **Tech Stack: ASP.NET Core 5, Azure App Services, SignalR, Azure SQL Database, OAuth 2.0, JWT, Azure Functions, Redis, Docker, CI/CD (Azure DevOps), Sentry, Nginx, WebSockets, TypeScript, GraphQL**

Senior .NET Developer

Feb 2016 - Feb 2018

SDLC Corp | San Francisco, CA

- Worked in an **Agile Scrum** environment, ensuring timely delivery of accepted functionality in each sprint.
- Developed a **Hybrid Single Page Application (SPA)** using **C# 5.0, .NET Framework 4.5, ASP.NET MVC 5**.
- Designed and implemented scalable **microservices architecture** for modular development.
- Implemented **Mathematical computations using Math.NET**, improving accuracy in numerical operations.
- Established **database connectivity with Entity Framework 6.0 and LINQ**.
- Led **data migration from Oracle to SQL Server** using **PL/SQL and T-SQL**.
- Designed and executed **ETL transformations with SSIS** and generated **data reports using SSRS**.
- Utilized **OWIN** to decouple server components, improving flexibility and maintainability.
- Managed and deployed cloud-based applications using **Microsoft Azure and AWS**.
- Created and managed **message queues** using **RabbitMQ and Azure Service Bus** for distributed systems.
- Automated application monitoring and logging using **ELK Stack and Azure Monitor**.
- Designed and managed **role-based access control (RBAC)** for secure application access.
- **Tech Stack: NET Framework, Visual Studio 2015, C#, ASP.NET, MVC, Entity Framework, SQL Server 2014, React, Vue, Node, Next, Nuxt, AngularJS, AJAX, IIS 7, LINQ, SSIS, SSRS, Git, Agile, Jenkins, NUnit, Docker, JIRA, Confluence, Microsoft Azure, AWS, JWT, Dapper, OWIN, PL/SQL, T/SQL.**

.NET Developer

Nov 2011 - Feb 2016

ZipRecruiter | Santa Monica, CA

- **Developed and delivered** enterprise applications for various industries, ensuring scalability, security, and long-term maintainability.
- **Collaborated with clients** to understand business needs, translating them into technical solutions that improved operational efficiency.
- **Managed database migrations** and large-scale data integrations, ensuring seamless transitions with minimal downtime.
- **Worked closely with cross-functional teams**, including designers, analysts, and DevOps engineers, to streamline project workflows.

EDUCATION

California State University, San Bernardino

Bachelor of Science - Computer Science

2008 – 2011

San Bernardino, CA
