Professional Experience

Forvis Mazars – Manager, Project Management | Dec 2022 – Aug 2025 |

Global accounting, assurance, tax & consulting firm serving clients worldwide.

- Lead and mentor a distributed team of Project Managers; drive a culture of excellence, accountability, and continuous improvement across the Enterprise PMO.
- Direct enterprise-level, cross-functional programs from initiation through delivery, aligning outcomes to corporate strategy and regulatory expectations.
- Manage multimillion-dollar budgets, portfolio prioritization, and resource capacity planning to optimize delivery throughput.
- Develop, refine, and enforce PMO governance frameworks, standards, and stage-gate controls to ensure consistent quality and traceability.
- Partner with executive leadership to translate strategic objectives into actionable project roadmaps and measurable KPIs.
- Provide executive and board-level reporting on program performance, financials, risks, and mitigation strategies; escalate critical blockers proactively.
- Designed and maintained centralized portfolio dashboards in Jira and Confluence, enabling leadership to monitor scope, deliverables, milestones, and risks in real time.
- Standardized program reporting processes across Jira and Confluence, producing

weekly initiative roll-ups and executive summaries for C-suite and board visibility.

- Lead post-implementation reviews; capture lessons learned and roll them into PMO playbooks, templates, and maturity-improvement initiatives.

Broadridge Financial Solutions – Sr. Project Manager | Feb 2014 – Dec 2022

Global fintech leader delivering investor communications and technology solutions to banks, broker-dealers, funds, and corporations.

- Delivered large-scale enterprise programs spanning digital, infrastructure, mobile, and cloud (AWS) initiatives for highly regulated financial clients.
- Managed concurrent project portfolios using hybrid Agile/Waterfall models; created integrated schedules, SOWs, and dependency plans for on-time, on-budget delivery.
- Drove C-suite visibility: prepared dashboards and briefings on status, risks, scope variance, and strategic alignment for executive and steering committees.
- Owned Jira governance across multiple Agile teams, configuring boards, workflows, and automation to enforce consistency and improve reporting accuracy.
- Built executive dashboards in Confluence and Jira to provide steering committees with real-time visibility into risks, dependencies, and KPI progress.
- Served as Scrum Master across multiple Agile teams; facilitated standups, sprint planning, retrospectives, and backlog refinement to improve velocity and predictability.
- Championed PMO automation and continuous process improvement initiatives that strengthened compliance readiness and reporting accuracy.
- Mentored junior PMs; delivered org-wide training on Jira, Confluence, MS Project, SDLC, and audit expectations, elevating PMO maturity.

Business Analyst | Consulting & Technology Firms | 2011– 2013

- Managed ERP/DMS system implementations and application rollouts
- Led requirements gathering and documentation for enterprise- wide initiatives.
- Created BRDs, FSDs, workflows, and wireframes to ensure alignment across business and technical teams.

Education and Certifications

- B.S. in Management Information Systems – SUNY Old Westbury
- Project Management Professional (PMP) – Active since 2017
- Certified ScrumMaster (CSM) – Scrum Alliance
