Quality Assurance Engineer

Green Card Holder

PROFESSIONAL SUMMARY

- **5+ years** of professional Quality Assurance experience testing **Web-based and Mobile (iOS/Android) applications** in e-commerce, financial, and fitness domains.
- Master in designing **test documentation: Test plans, Test suites, Test cases**, establishing **Test strategies**
- Expert in performing various types of thorough testing: **Functional, Regression, Sanity, Smoke, E2E, User Acceptance (UAT), GUI, Integration, Cross-browser/cross-platform, Localization, and Accessibility testing (A11y)**
- Skilled in developing automation test scripts for regression and smoke test suites using **Javascript, Cypress, Node.js, and Mocha**
- Committed to enhancing quality control throughout every stage of **SDLC, STLC, and Bug Life Cycle**
- Strong **advocate of practicing shift-left methodology** to contribute to the early stage of the software development life cycle
- Proactive self-starter with a keen eye for details with a **focus on end-user experiences and the ability to go above and beyond to ensure a high-quality release.**

TECHNICAL SKILLS

- **Programming languages:** HTML, CSS, Javascript (JS), Node.js
- **Database:** SQL, PostgreSQL, MariaDB, MySQL
- **Automation:** Cypress, Mocha, Xpath
- **CI/CD:** Jenkins
- **API:** REST API, Postman, Swagger, XML/JSON
- **Debugging tools:** Chrome DevTools, Charles Proxy
- **OS:** Android OS, iOS, MacOS, MS Windows
- **TMS:** Jira, Trello, TestRail, Confluence
- **Version control:** Git, GitHub
- **Mobile testing:** Android Studio, XCode, ADB commands
- **Methodologies:** Agile/Scrum/Kanban
- **Cross-Browser Testing:** BrowserStack
- **Accessibility Testing:** Keyboard navigation, High contrast mode, VoiceOver, Reflow, NVDA, Lighthouse (WCAG)
- **Others:** ETL, Tableau, Unix/Linux

SOFT SKILLS

- Strong analytical skills
- Attentive to details
- Able to describe complex concepts in simple terms
- Excellent communication
- Strong problem-solving skills
- Result-oriented, strategy thinking
- Great team player as well as an individual contributor
- Meticulous, responsible, passionate about quality

EDUCATION

Bachelor's Degree in Economics
Modern Academy for the Humanities (Accounting, Analysis & Audit)

Bachelor's Degree in Biology
Northern Ossetian State University named after K.L. Hetagurov

WORK EXPERIENCE

QA Engineer | Full-time | Remote
Marina's Artisan Foods, TX, USA

August, 2023 - Present

Project: E-commerce Web-based platform

- Own Frontend and Backend testing of **Web-based** application
- Run **SQL queries** using **MySQL** to validate data integrity
- Perform **functional, regression, sanity, API, UI, E2E testing, cross-browser/cross-platform, localization**
- Backend **API testing** utilized **Postman** to verify output based on specification
- Design, execute, and maintain well-structured **Test Plans, Test suites, and Test cases in TestRail**
- Conduct **accessibility (a11y)** testing by running Keyboard navigation, High contrast mode, VoiceOver/Talkback using NVDA, Reflow, and test activities to align with 508 and WCAG compliances
- Review test results, analyze failures, create comprehensive bug reports and feature requests in **JIRA**, and follow them through the complete bug life cycle
- **Work closely with Engineering, Product, and Design teams** to help reproduce and resolve issues, assist in gathering requirements, and discuss the best practices for implementing new features
- Implemented a **shift-left methodology**, enabling QA Engineers to actively contribute at the earliest stages of SDLC for enhanced quality and efficiency.
- Established **QA triage processes** to organize and prioritize tickets on the JIRA board effectively
- Provide **mentorship** for newcomers, set up KT sessions, show feature demo
- Actively participate in all **Agile** ceremonies.

Software QA Engineer | Contract | Remote
Broadridge, NY, USA

Feb, 2022 - Aug, 2023

Project: Web-based platform that provides financial solutions in multiple fields

- Led manual and automation testing for large-scale apps
- Validated database transactions with **SQL (PostgreSQL)**
- Conducted ETL testing using **Tableau** for data migration processes, validating data consistency across systems with 100% accuracy.
- Created automation test scripts using **Cypress, Javascript, Node.js, Mocha** for **StockTrans Registered Reorg Print Application**, reducing regression testing time by 60%, and accelerating delivery of critical updates to stakeholders.

QA Analyst | Contract | Remote
Interactive Strength, Austin, TX

Dec, 2019 - Jan, 2022

Project: Digital fitness services

- Owned testing **iOS Mobile** application and Forme Studio **hardware** device
- Documented suggested improvements on features and processes
- Utilized **Unix/Linux** commands and ran **SQL** queries.
