

MELANIE C. PARR

Baltimore, MD 21231 | (410) 925-1537 | melanie.parr@parrgroup.com

PROFESSIONAL SUMMARY

Results-driven Project Manager and Team Leader with 30+ years of experience delivering complex technology implementations and leading cross-functional teams across government, utilities, healthcare, and enterprise sectors. Proven expertise in building PMOs from the ground up, managing multimillion-dollar initiatives, and driving organizational change through agile and waterfall methodologies. Skilled at bridging technical and business teams to deliver projects on time while ensuring stakeholder satisfaction and operational excellence.

Core Competencies: Project & Program Management | Team Leadership | Agile & Waterfall Methodologies | Stakeholder Management | Change Management | Risk & Issue Resolution | PMO Development | Process Improvement | Business Analysis | Training & Documentation

PROFESSIONAL EXPERIENCE

TEAM LEADER / PROJECT MANAGER (CONSULTANT)

Opportunity Knocks | 2020 – Present

Lead technical teams and manage multi-year federal government initiatives focused on automating security controls, standardizing risk reporting, and implementing compliance tools across agencies.

- Manage implementation and ongoing updates of SaaS configuration compliance scanning tool for federal agencies, ensuring adherence to strict governance and security requirements
- Coordinate cross-functional project teams using agile methodology, prioritizing tasks and delegating work to meet critical stakeholder timelines
- Provide executive leadership with timely status reporting and risk analysis to ensure on-time delivery and client satisfaction
- Develop and implement workarounds to address potential roadblocks, maintaining project momentum and timeline integrity
- Create and maintain comprehensive project documentation libraries and executive communications
- Facilitate resolution of complex technical and operational issues affecting project success

PRESIDENT

Parr Consulting Group | 2009 – 2020

Founded and led consulting firm specializing in project management for enterprise technology implementations. Managed strategic client relationships and professional services delivery across utilities, healthcare, and enterprise sectors.

Project Management Office (PMO) Development:

- Built complete PMO infrastructure for client company that scaled from \$5M to \$50M in sales
- Designed and implemented business processes, documentation standards, management reporting frameworks, and communication templates from the ground up
- Managed all professional services projects for strategic and high-profile clients, including resource allocation, issue resolution, and stakeholder communication
- Coordinated RFP creation and managed procurement processes for clients
- Developed and finalized Statements of Work (SOWs) for all professional services contracts

Major Project Highlights:

WSSC Water – Oracle Implementation & Post-Conversion Support (Jan 2019 – Jan 2020)

- Led Workaround Team of 30+ stakeholders to develop operational and technical solutions for system defects, preventing business disruption during critical go-live period
- Created standardized workaround documentation template, testing processes, and tracking methodology in HP ALM
- Developed and implemented "Incident to Release" process and new Incident Prioritization framework for managing post-implementation defects and change requests
- Designed Release Communication Plan to effectively communicate application changes to 500+ end users and executive stakeholders
- Produced training materials and delivered classroom instruction for enterprise system implementation

Vectren Corporation – Oracle Utilities Deployment (Jun 2018 – Oct 2018)

- Managed all training development and delivery for multi-application Oracle deployment (CC&B, ODM, MDM)
- Created comprehensive training curriculum and developed complete library of business process and application training modules

SENIOR PROJECT MANAGER

IP DataSystems | 2011 – 2018

Managed complex technology implementation projects for Fortune 500 companies and utilities across Mid-Atlantic region.

- Led project teams from charter through completion for clients including Pepco Holdings/Exelon, Under Armour, University of Maryland Medical System, and Hughes/Echostar Network Systems
- Provided comprehensive issue tracking, communication frameworks, and resolution strategies
- Delivered regular status reporting to executive stakeholders and managed escalations
- Developed and implemented PMO resource tracking and forecasting tools to optimize team utilization

EARLY CAREER HIGHLIGHTS

Testing Lead / Training Lead | *Northeast Ohio Regional Sewer District* (2009 – 2010)

- Managed complete testing lifecycle for Stormwater Billing Program implementation, including UAT phase
- Created all testing documentation and trained client resources; reported directly to COO

Post-Implementation Stabilization Manager | *Exelon (ComEd)* (1999)

- Led resolution of post-implementation billing exceptions with team of 60+ resources
- Developed training program for new hires and tracked enterprise-wide completion metrics

Implementation Project PMO Lead | *Exelon (ComEd)* (1997 – 1998)

- Refined project plan after major regulatory scope change and recovered timeline through strategic alternatives

Consulting Senior Manager | *Accenture* (1990 – 1997)

- Created Customer Information System (CIS) product for utility industry
- Developed and delivered training for CIS Solution Center, training 700+ consultants
- Managed delivery teams of up to 150 people across multiple client sites
- Led marketing and business development efforts for utilities practice
