PROFESSIONAL PROFILE

Seasoned Web and Graphic Designer with over 15 years of expertise in crafting visually stunning and effective designs. Recognized for delivering top-notch designs with a keen attention to detail, I excel in translating complex ideas into engaging visuals. My commitment to open communication, combined with a strong ability to build impactful and aesthetic digital experiences, positions me as a valuable asset. Passionate about continual growth in the ever-evolving design landscape, I am eager to collaborate with teams to enhance visual storytelling and contribute valuable insights to achieve design excellence.

Content specialist, system optimization, visual storytelling, proficiency in Adobe Creative Suite, multi-platform media expertise (graphics, video, print), strong interpersonal skills, independent work with minimal guidance, problem solving, efficient organization, adaptability based on feedback, leadership, motion designer, video broadcasting

Adobe Creative Suite (Photoshop, InDesign, Illustrator) Figma, Jira, Canva, Sketch, Webflow, HTML5, CSS, C+, HubSpot, Adobe Premiere Pro, Adobe After Effects, Affinity, Microsoft Suite

EMPLOYMENT HISTORY

Graphic Designer, Arch Systems, Inc.

April 2024 - Current

In my role at Arch Systems, LLC., I create visually engaging materials that simplify complex technical concepts, working with engineers and marketers to develop compelling graphics, illustrations, and presentations. Using tools like Adobe Creative Suite, Figma, Jira, and Webflow, I contribute to both visual content creation and strategic problem-solving, helping drive the company's success in a fast-paced, collaborative environment.

Web and Graphic Designer, Cisco

May 2021 - August 2023

At Cisco Systems, I led the WebEx platform's rebranding, utilizing Figma, Momentum, and Adobe Creative Suite to update the Help Center while ensuring WCAG compliance. I also collaborated with engineers to adopt innovative content delivery methods, and played a key role in maintaining systems like the CDN and transitioning from AEM to Ingeniux CMS, showcasing proficiency in platforms like Webflow, HTML5, and AI-driven design solutions. Motion design was also used to enhance the WebEx Help Center website.

Freelance Graphic Designer, Upwork

July 2017 - Current

As a Freelance Graphic Designer at Upwork, I handle diverse projects such as crafting HTML5 email templates and designing advertising campaigns, utilizing tools like Adobe Creative Suite, Figma, and Webflow. I also incorporate design workflows, assist startups with branding strategies, and create educational content, including video tutorials using After Effects, showcasing versatility across various media platforms to meet client objectives. Additionally, I worked on some video broadcasting for a client that worked with marketing.

Producer, Designer, Actos Games, LLC.

January 2013 - June 2017

As CEO, Designer, and Producer of Actos Games, LLC., I led the development of video games for platforms like Nintendo's Wii U, overseeing the full lifecycle from concept to release. Utilizing tools such as Adobe Creative Suite, Figma, Jira, Unity, I managed a creative team and ensured cohesive workflows to drive the success of our projects.
