

MIKHAIL USOV

SOFTWARE ENGINEER

CONTACT

- ✉ musov@protonmail.com
- 🌐 linkedin.com/in/mikhail-usov
- 🌐 github.com/mikhailusov

SKILLS

- Java, PHP, Python
- Spring, Flask, Laravel
- MySQL, PostgreSQL, Redis
- Microservices
- Cursor, LLMs, AI Agenrs
- REST APIs
- Github, Docker, Kafka

EDUCATION

2007 - 2010

SIBERIAN INDUSTRIAL STATE UNIVERSITY

- Bachelor at Computer and Information Sciences

PROFILE

Backend-focused software Engineer with 10+ years of experience building and scaling high-performance distributed systems. Expertise in Java, backends and microservices. Proven track record of leading complex projects at top tech companies. Interested in GenAI and LLMs.

WORK EXPERIENCE

Marqeta (Remote, Oakland, CA)

NOV 2022 - MAR 2024

Senior Software Engineer

- Led backend development for the credit card dispute resolution system, improving dispute resolution speed by 30%.
- Designed and optimized transaction processing services, increasing throughput by 25%.
- Implemented automated fraud detection features using machine learning models.
- Worked closely with cross-functional teams to enhance platform reliability and efficiency.

Cisco AppDynamics (Hybrid, San Francisco, CA)

AUG 2019 - OCT 2022

Senior Software Engineer

- Developed and launched a real-time Kubernetes monitoring system, reducing incident resolution time by 40%.
- Built a Java-based backend service to process large-scale server telemetry data, improving observability.
- Designed a microservice for automated issue detection, using anomaly detection algorithms in collaboration with the Data Science team.

ForeSee (San Francisco, CA)

MAY 2016 - JUNE 2018

Software Engineer

- Led the migration of a monolithic legacy app to a Spring Boot & AWS-powered microservices architecture, increasing deployment speed.
- Optimized database queries in PostgreSQL, reducing query execution time by 50%.
- Refactored Java-based backend modules, improving performance and maintainability.
