Green Card Holder | Authorized to Work in the U.S. | Residing in Richardson, TX

I. Professional Summary

- Accomplished mechanical engineer and operations leader with over 20 years of experience in water treatment, energy, and industrial systems. Proven expertise in project management, operational optimization, and cost-saving initiatives. Skilled at aligning strategies with organizational goals to drive growth, enhance efficiency, and deliver measurable results. Known for strong leadership, effective communication, interpersonal skills and problem-solving abilities.
- Versatile Control Valves workshop and aftersales manager skillful in troubleshooting with top-notch repair knowledge and technical expertise. Accustomed to reviewing highly technical documentation to assess scope and develop repair strategy. Focused, reliable and results-driven with good safety records and attention to detail.

II. Core Skills

- Operations Management, Time Management & Workflow Optimization
- Quality Management & Compliance
- Project Planning, scheduling & Execution
- Team Leadership & Development
- Cost Estimation & Budget Management
- Testing, Commissioning, & Technical Troubleshooting
- Vendor Negotiation & Relationship Management
- Advanced Proficiency: AutoCAD, Microsoft Office Suite, Adobe Acrobat
- Code Compliance Familiarity & Leak Detection methodologies
- Material Selection Knowledge

III. Work History

General Manager, 09/2021 to Current

Daybreak for Trading and Contracting Co. W.L.L – Doha, Qatar

- Led a diverse team, fostering collaboration and achieving high employee satisfaction.
- Increased profitability by implementing targeted sales strategies and operational improvements.
- Established a specialized business branch for leak detection and water system inspections, including innovative methodologies for HVAC condensate analysis and water recycling.

- Analyzed market trends to identify growth opportunities, successfully expanding the company's service portfolio.
- Delivered year-over-year growth while maintaining operational excellence.

Projects Manager, 06/2017 to 09/2021

Power Water and Energy Technologies (PWE) – Doha, Qatar

- Optimized resource allocation and implemented time-saving strategies to enhance project efficiency.
- Conducted post-project evaluations to identify and implement continuous improvements.
- Successfully completed multiple high-priority projects under tight deadlines.
- Reduced costs through meticulous budget analysis and enhanced client satisfaction by maintaining transparent communication.

Operation Manager, Water Treatment & Ind. Projects, 10/2011 to 03/2017

Professional Technical Services (PROTEC) – Doha, Qatar

- Implemented cost-cutting strategies, significantly increasing profitability.
- Restructured the organization to enhance efficiency and employee productivity.
- Developed comprehensive training programs to ensure industry compliance and professional growth.
- Established KPIs to track and optimize business performance.

Senior Mechanical Engineer (Sewage Pump Station), 07/2010 to 08/2011

Alhattab Consultancy Office – Cairo, Egypt

- Evaluated client needs and established clear goals for consulting engagements.
- Checked design compliance with product specifications and standards.
- Managed client relationships through regular updates on project progress.
- Conducted thorough market research and analysis, providing valuable insights for client decision-making.

Control Valves Workshop & Aftersales Manager, 02/2006 to 05/2010

SAMSONCONTROLS S.A.E – Cairo, Egypt

- Managed production facilities and after-sales services for the MENA region.
- Implemented quality control measures, reducing product defects and increasing customer satisfaction.
- Provided hands-on training to junior engineers, fostering professional growth.
- Established and documented protocols for preventive maintenance procedures, decreasing equipment downtime.

Piping Engineer, 06/1999 to 01/2006

DSD-Ferro-Metalco – Alexandria, Egypt

- Designed and installed pipe networks for hydraulic oil, greasing systems, and special alloy projects.
- Performed pre-construction, quality, and safety management as well as commissioning of piping systems.
- Contributed to proposal development for new projects, providing technical expertise and accurate cost estimates.
- Optimized material selection processes, developing databases of approved materials for various environments.
- Achieved cost reduction by coordinating technical office and site teams to enhance productivity.
- Generating 3D models and 2D drawings and shop drawings of planned piping structures and designs.
- Resourcefully used various coding books, procedure manuals, and on-line encoders. such as **U.S. standards** (e.g., **ASME**, **EPA** regulations), JES and EU different standards

IV. Education

- **Bachelor of Science in Mechanical Power Engineering**
Alexandria University, Egypt (U.S. equivalency: Bachelor of Science)
Credential Evaluation: Scholaro, Inc.
- **Graduate Certificate in Mechanical Power Engineering**
Ain Shams University, Egypt (U.S. equivalency: Graduate Certificate)
Credential Evaluation: Scholaro, Inc.

V. Accomplishments

- Saved a company from bankruptcy by implementing profit centers and cost-reduction strategies.
- Spearheaded the restructuring of multiple organizations to improve performance and profitability.
- Supervised and developed teams of up to 150 staff, enhancing productivity and morale.
- Negotiated favorable vendor agreements, achieving significant cost savings Resolved product issue through consumer testing.
- Achieved high performance and progress through effectively helping with staff relocation according to the work environment.

Projects & Key Contributions

A. Facility Maintenance & Inspection

- Led HVAC maintenance and leak detection projects, including chilled water system inspections. (Daybreak, 2021-2024)
- Executed chilled water system installation for Gulf Cement, ensuring optimal performance and efficiency. (Daybreak, 2022)

B. Water & Sewage Treatment Projects

- Managed Engineering, Procurement, Installation & Commissioning (EPIC) of Sewage Treatment Plant (STP) for Tamim Air Base. (PWE, 2020-2021)
- Led the rehabilitation of QAPCO STP, including long-term operation and maintenance. (PWE, 2019-2021)
- Designed and installed a surge vessel for Kahramaa potable water pumping station. (PWE, 2020-2021)
- Directed the Al Shananyya STP expansion and new installations for Alkaraana & Umm Birka STPs. (Protec, 2011-2015)
- Oversaw operation and maintenance (O&M) of Barwa Village STPs, supporting large residential communities. (Protec, 2011-2014)
- Implemented Medco Labor Camp water recycling facility, optimizing resource utilization. (Protec, 2013-2016)
- Managed multiple brackish water reverse osmosis (BWRO) plants, including Qatar Foundation Education City, Al Waab Farm, and Alsailyia Farm. (Protec, 2012-2017)
- Supervised Qatalum Chemical Dosing Tank Farm and QAPCO domestic wastewater treatment projects. (Protec, 2012-2014)

C. Infrastructure & Industrial Projects

- Executed sewage terminal pumping stations in Abu Rawash, Egypt, handling large-scale municipal wastewater. (2010-2011)
- Managed EPIC for landfill closure for Qatar Petroleum (QP), ensuring environmental compliance. (PWE, 2019-2020)
- Led DSTPS (GEC-PWE JV) for MEICA works, optimizing mechanical, electrical, and control systems. (PWE, 2019)
- Delivered an automated slaughterhouse for Baladna Cow Farm, implementing advanced processing systems. (PWE, 2018)

D. Energy, Oil & Gas, and Heavy Industry

- Supervised control valve assembly, installation, and maintenance for petroleum, petrochemical, steel, and food industries across the MENA region. (Samson Control, 2006-2010)
- Key projects include Baniyas Refinery (Syria), Hadeed Steel Plant (KSA), METITO-SOHAR Power Project (Oman), and Holcim Cement (Lebanon). (Samson Control, 2006-2008)
- Managed piping installation for Abu-Zabaal Hot & Cold Rolling of Flat Steel Co. (AZE) and MISR Canada Lub Oil Refinery (MCL). (DSD Ferro-Metalco, 2003-2006)
- Contributed to major power plant projects like Port Said-Suez Gas-Fired Power Plant (4x341 MW Units) and El Gabal El-Asfar Wastewater Treatment Plant. (DSD Ferro-Metalco, 2001-2003)
- Delivered Middle East Oil Refinery (MIDOR) infrastructure, supporting refining and processing operations. (DSD Ferro-Metalco, 2000)
- Played a vital role in PepsiCo's 6th of October City Plant and Alexandria National Steel Dekheila (ANS DK) Flat Steel Plant installations. (DSD Ferro-Metalco, 1999-2001)

VII. Certifications

1. Trainer Diploma & Assistant Practitioner of NLP - Canadian Training Center of Neuro-Linguistic Programming Inc., June 2011 (Completed a comprehensive seminar in Neuro-Linguistic Programming).
2. Certified Future Professional Trainer (CFPT) - Canadian Training Center of Human Development, June 2011 (Demonstrated advanced skills in training and professional development).
3. SAMSON Training Certificate (Valve Maintenance & Positioner Training), - SAMSON AG, Frankfurt, Germany, October 2008 (Hands-on training in valve disassembly, assembly, and testing, including SAMSON positioners and TROVIS controllers).
4. SAMSON Training Certificate (After Sales Service) - SAMSON AG, Frankfurt, Germany, December 2006 (Training in valve assembly, disassembly, and testing, along with SAMSON special tools and positioners).
5. GE Power & Water Channel Partner Sales and Product Training - GE Power & Water, Istanbul, Turkey, November 2011 (Completed sales and product training for GE Power & Water technologies).
6. Project Management Professional Course (36hr) - Becom Academy, May 2011 (Completed a comprehensive course in project management).
