

Rachana Srivastava

Phone 781-827-1547
Email: rachana1209@gmail.com

Over 6 years of progressive experience in Data Munging ,Data Analysis and Statistical Modeling in order to drive successful business solutions.

EDUCATION: Banaras Hindu University India
Allahabad University India

MS, Statistics(2004-06)
BS, Statistics(2001-04)

SKILLS

Techniques: Time Series Analysis, ARIMA, Exponential Smoothing, Holt's, Winter additive/Multiplicative exponential smoothing, Weibull, Quality control charts, multicollinearity, Anova, Logistics regression, linear/non linear regression
Data Analysis: Data wrangling, hypothesis testing, Random forest, database (SQL Server, Oracle 11g, My SQL, Oracle Database, MS Access),Hadoop,AWS s3,GoogleSheet,Dbeaver,hive,PowerBI,Athena,SQL,Github,SQL workbench,EMR,Spark,MapReduce,Google sheets, Python(Numpy,Panda,matplotlib,seaborn),SSMS
Programming: R, SPSS, Matlab, Pentaho (Kettle) ETL Tool, Citrix, Minitab,Tableau

Professional Experience

Verisys

Data Engineering Analyst

Nov 2021–Dec 2023

- Derived solutions to client queries/support tickets regarding the provider credentialing using SQL hadoop.
- Spearheaded on multiple complex enhancement/New Project based on client requirements.
- Extensively involved with the team to provide solutions on complex queries enquired by clients.
- Diligently covered On call support for a week every month and took care of job failures and QA trips.
- Cleansed the data to fix the load issue on client site due to missing information.
- Deduplicated data QA reports which helped to reduce QA trips as well as manual intervention of the team member to analyse the data.
- Utilized JIRA Ticketing system in day to day activities
- Utilized Power BI for data analysis as well as tracking of running/stalled job status.

RCM Aeroservices Ltd

Senior Statistical Analyst

Oct 2012 – Jan 2015

- Provided Business insight through Data Mining, Predictive modelling and Segmentation
- Measured Predictive model effectiveness by evaluating leads and campaign performance
- Forecasted AUM behaviour using Time Series Models like ARIMA, Exponential Smoothing
- Analysed the Technical Performance of Aircraft's systems and its components through Statistical Control Systems
- Controlled the component removals and inventory movements on a case to case basis using suitable methodologies like Weibull, Pareto etc
- Formulated viable relations for the data, with the help of Regression/Correlation and supplied the relevant supporting data to airlines for the Engineering Maintenance Program
- Modified reports through writing Multilayered and Multifunctional SQL Queries to eliminate the need of manual manipulation
- Extensively involved with the team to build the internal statistical software "StatsPro"
- Mentored new team members to learn the process so that they proceed it without any difficulty

Mercer Consulting (India) Private Ltd

Analyst

March 2010 – February 2012

- Spearheaded the setting up all tools and protocols required for publication of surveys
- Supported management with data insights that was used in compensation and health reports
- Published surveys and support team in using internal systems
- Liaisoned with stakeholders informed across markets in survey data anomalies
- Analyzed survey data to interpret and report market trends in HR practices
- Prepared peer group/customized reports based on clients requirement
- Generated the statistical customized reports based on client requirement which includes statistical as well as regression reports along with charts

- Oversaw the generation of customized yearly reports sent out to select clients to enable them to do YOY comparison
- Used advanced Microsoft Excel to create Pivot tables to compare final results

Zyme Solutions Pvt Ltd.

Data Analyst

Oct 2007 – May 2009

- Extracted, compiled and tracked data and analysed data to generate reports using ETL Tool and MY SQL
- Prepared critical Reports regarding company name discrepancies using MS Office
- Performed daily data queries and prepared reports on daily, weekly, monthly, and quarterly basis
- Used advanced Excel functions to generate spreadsheets and pivot tables
- Completed a very crucial project within a day with my team.
