| Sudbury, Ontario, Canada

SUMMARY OF QUALIFICATIONS

iOS Developer with 6+ years of experience, with 5 years experience in healthcare domain, building and launching successful applications on the App Store and Private Distribution onto Apple Business Manager. Proven track record in Swift development, UI/UX implementation, and RESTful API integration. Experienced in remote work environments with strong communication skills and ability to collaborate effectively across time zones.

TECHNICAL SKILLS

- **Programming Languages:**
 - Swift
 - Objective-C
- **Testing Frameworks:**
 - XC Test
 - XCUITest suite
- **iOS Frameworks & Tools:**
 - SwiftUI, UIKit, Core Data, RxSwift, Combine, Alamofire, WebRTC, Core Animation, Core Graphics, Core Text, Interface Builder
 - Composable Architecture (TCA), VIPER-esque Architecture
- **Development Practices:**
 - MVC, MVVM, VIPER, Clean Architecture, SOLID Principles
 - Agile, Scrum, CI/CD Pipelines (GitHub Actions, Fastlane), Code Review
 - Apple Human Interface Guidelines implementation
 - Responsive layouts, User-centric design implementation, Accessibility features
- **Other Skills:**
 - Memory management
 - Concurrency & Threading, Thread handling, async/await, actors
 - UI responsiveness
 - Debugging
 - Performance optimization
 - API testing, API generation tools
- **Tools:** Xcode, CocoaPods, Swift Package Manager, Swagger, Git, GitHub, Jira, Confluence, GitHub Actions, Postman, CI/CD pipelines, GitLab
- **APIs & Networking**
 - REST APIs, Swagger, API generation tools, Protocol Buffers
 - URLSession, Alamofire, GraphQL
- **Testing & Debugging**
 - XCTest, XCUITest Suite, Mobile Testing Automation, API Testing, Unit Testing
 - Memory Management, Performance Optimization, UI Responsiveness
- **Database**
 - Core Data
 - RealmDB
 - SQLite3
- Mobile testing automation
- Mobile development life cycle
- Push notifications
- Background app tasks
- Networking & Network connection management
- Automated testing

- Protocol Buffers
- Declarative UI Framework - SwiftUI
- Custom Design System
- Secure Coding Standard
- App Store deployment, App Store submission and distribution
- **Other Programming Languages:**
 - Python
 - Node.js

PROFESSIONAL EXPERIENCE

Mobile Development Lead (Senior iOS Application Developer)

TimeoutIQ Technology Inc., Toronto, ON, Canada (Remote) | 2023 - Present

- Led development of consumer-facing iOS application focusing on user authentication and security
- Implemented biometric authentication and encryption protocols for sensitive user data
- Managed App Store releases and deployment processes
- Collaborated with cross-functional teams to deliver high-quality features
- Conducted code reviews and maintained high programming standards through comprehensive testing

Senior Software Engineer & Team Lead

Crede Technologies Inc., Vancouver, BC, Canada (Remote) | 2019 - 2023

- Developed and maintained multiple healthcare apps with strict security requirements
- Implemented secure authentication systems and encryption protocols
- Designed scalable iOS architectures ensuring high reliability and maintainability
- Achieved 90% test coverage through automated testing strategies
- Led code reviews and mentored junior developers

Co-Founder & Lead Developer

NexGen ITs, Sri Lanka | 2015 - 2019

- Built consumer-facing iOS applications with focus on user experience and security
- Integrated authentication systems and secure data storage
- Managed complete mobile development lifecycle from design to deployment
- Led development team and established coding standards

Software Engineer (Trainee)

Arimac Lanka Pvt. (Ltd.) | 2017 - 2018

- Developed a social media iOS app for an Australian client, integrating features like real-time chat and photo filters.
- Gained hands-on experience with Agile methodologies, contributing to sprint planning, estimations, and retrospectives.

KEY PROJECTS

TimeoutIQ App

TimeoutIQ Technology Inc. | [AppStore Link](#)

- Developed a parental control and screen time management app using Swift, RealmDB, and Parental Control APIs.
- Integrated QR-based app pairing and ads network for seamless user onboarding and monetization.
- Achieved a 4.8-star rating on the App Store.
- Implemented secure authentication and encryption for parental controls
- Developed custom UI components using SwiftUI and Storyboard
- Managed App Store deployment and release cycles
- Integrated automated testing for critical security features

CleanHands Audit App

Crede Technologies Inc. | [AppStore Link](#)

- Built a SaaS app for hospital activity auditing leveraging Swift, Objective-C, and RESTful APIs.
- Available on the App Store for enterprise and individual users.
- Built enterprise iOS applications with secure authentication
- Implemented encryption and secure data storage using SQLite and RealmDB
- Developed automated testing suites for reliability

CleanHands Audit - Mobile App

Crede Technologies Inc. | [AppStore Link](#)

- Specially built SaaS app from scratch to be highly compatible with iPhone layout for hospital activity auditing, leveraging Swift, Objective-C, and RESTful APIs.
- Ensured encryption and secure data storage using SQLite and RealmDB.
- Available on the App Store for enterprise and individual users.

Quality Inspection Audit System App

Crede Technologies Inc. | Unlisted App Distribution B2B | [AppStore Link](#)

- App for evaluating standard and best practices in Vancouver Coastal Health Authority, leveraging Swift, Objective-C, and RESTful APIs.
- Ensured encryption and secure data storage using RealmDB and SQLite.
- Distributed using Unlisted App Distribution to organization for enterprise usage.

Patient Experience System App

Crede Technologies Inc. | Private Distribution B2B (VPP)

- Multi-layout compatible App built from scratch for gathering patient experience survey in Fraser Health Authority, leveraging Swift, and RESTful APIs, Automatic Database synchronization.
- Ensured encryption and secure data storage using RealmDB.
- Distributed using Private Distribution to organization's Apple Business Account for enterprise usage.

Hospital Productivity Improvement Apps - HandHygiene Audits and Quality Improvement Survey Apps.

Crede Technologies Inc. | Private Distribution B2B (VPP)

- Multi-layout compatible App for gathering audit and survey data, leveraging Swift, and RESTful APIs, Automatic Database synchronization.
- Ensured encryption and secure data storage using RealmDB.
- Distributed using Private Distribution to organization's Apple Business Account for enterprise usage.
- These Apps are been used by facilities in major Canadian health authorities. Such as: Vancouver Coastal Health Authority, Fraser Health Authority, Prince Edward Island Health Authority, Saskatchewan Health Authority, New Foundland and Labradore Health Authority, Doctors of BC etc.

Remedy Messenger App

Crede Technologies Inc. + Remedy Medical Inc. | Under Development | [AppStore Link](#)

- Multi-layout compatible App for connecting patients and healthcare providers for robust booking and scheduling of appointments and providing better tele-health experience for both parties.
- Usage of VON network for identity handling.
- Apple Watch and HealthKit, CareKit data synchronization for realtime statistics and reporting.
- Ensured encryption and secure data storage using RealmDB.
- Will be available for general public in BC, Canada in phase-1 release.

Tele-Medicine App (RappiDoc)

Nava Tele-Medicine Technology

- Developed a telemedicine app with real-time audio/video chat using Agora and Socket.io.
- Integrated payment gateways and schedulers for seamless user experience.
- Available on the App Store in the USA.

Pikanite - Last Minute Hotel Booking System

Pikanite | [AppStore Link](#)

- Designed and developed a last-minute hotel booking app using Node.js, Swift, and Google Maps API.
- Enabled real-time booking and payment processing for users.
- Available on the App Store.

Urban-Agent - Social Media App

Arimac Lanka Pvt. (Ltd.)

- Developed a social media app for an Australian client, featuring real-time chat, photo filters, and payment gateways.
- Integrated Socket.io and Braintree for seamless communication and transactions.
- Available on the App Store in Australia.

EDUCATION

B.Sc. (Hons.) Degree in Information Technology

University of Moratuwa, Sri Lanka | 2014 - 2019

- Second Upper Class - 3.38 FGPA

VOLUNTEER SERVICES

- **Knights of Columbus (2024):** Volunteer services for community initiatives.
- **Guest Speaker (2022):** Conducted Python workshops for Women in FOSS at ICBT Campus.
- **AIESEC OCVP – Digital Marketing & Communications (2014 - 2017):** Volunteered for global classroom and health projects.

AWARDS & ACHIEVEMENTS

- **CODERush Hackathon (2016):** Winner – Team Wolfpack
- **Hackintra Inter-University Hackathon (2017):** 1st Runner Up – Team Codex
