PROFESSIONAL SUMMARY

Results-oriented ServiceNow Developer with proven expertise in ITSM, HRSD, and SAM across global enterprises. Specializing in automating workflows, integrating systems (SAP APO, REST APIs), and optimizing ServiceNow platforms for performance and scalability. Adept at streamlining business processes, driving cost reductions, and enhancing user experience through innovative solutions. Skilled in cross-functional team collaboration, stakeholder engagement, and delivering high-impact projects within deadlines. Passionate about leveraging digital transformation to deliver measurable improvements in operational efficiency and business performance.

TECHNICAL SKILLS

ServiceNow Platform & Modules: Incident Management, Problem Management, Change Management, Knowledge Management, Employee Center, Lifecycle Events, HR Case Management, Centers of Excellence (COEs), Software Catalog, Entitlement Management, License Compliance, Model Management, Asset Management, Service Mapping, Data Modeling, Dependency Mapping, Scoped Applications, Table Design, Business Rules, UI Actions, Custom Workflows

Development & Scripting: Business Rules, Script Includes, Access Control Lists (ACLs), Workflow Editor, Flow Designer, UI Policies, Client Scripts, GlideAjax, UI Actions, Widgets, AngularJS, HTML, CSS, JavaScript, Flow Designer, Lifecycle Events Automation, Approval Workflows

Integrations & API Development: REST APIs, SOAP APIs, SAP APO, External ITSM Tools, Integration Hub, MID Server

Data Management & Analytics: Import Sets, Transform Maps, Automated Data Loads, MySQL, Oracle, SQL, Performance Analytics, KPI Tracking, Dashboards, Custom Reports, Trend Analysis, Predictive Insights, Schema Design, Performance Tuning, Query Optimization

DevOps & Tools: Git, GitHub, Jenkins, JIRA, Confluence, Agile SDLC, Eclipse IDE, PowerShell, Postman, JSON

Platform Optimization & Support: Platform Troubleshooting, Performance Issue Resolution, Role-Based Access Control (RBAC), ACL Configuration, Data Security, Root Cause Analysis, Production Support, End-user Training

Documentation & Business Tools: MS Word, PowerPoint, Excel, Power BI, Process Documentation, Requirements Gathering, Stakeholder Communication

PROFESSIONAL EXPERIENCE

ServiceNow Developer

Databricks, USA | Dec 2024 – Present

- Architected and deployed enterprise-wide ITSM solutions across Asia-Pacific regions (India, Taiwan, Hong Kong, ASEAN, Australia, New Zealand), optimizing multi-regional processes and eliminating manual bottlenecks, resulting in a **40% improvement in operational efficiency** across Finance, HR, IT, Asset Management, and Procurement domains.
- Drove cross-functional workshops and end-to-end solution design, translating ambiguous business needs into scalable ServiceNow implementations; accelerated project delivery timelines by **35%** through agile execution and stakeholder alignment.
- Engineered automated Service Request workflows across Incident, Problem, and Knowledge Management modules, reducing downtime by **25%** and enhancing IT issue resolution throughput by **30%**, directly supporting business continuity.
- Spearheaded the REST API integration between ServiceNow and SAP APO, achieving **50% faster cross-platform data synchronization** and streamlining end-to-end finance and supply chain workflows.
- Led the design and launch of the ServiceNow Employee Center Portal, creating a unified self-service experience for HR and IT, driving a **45% surge in employee adoption rates** and significantly lowering support ticket volumes.
- Developed advanced dashboards and real-time reporting solutions leveraging Performance Analytics, enabling leadership teams with **40% more actionable insights** for service performance optimization.
- Directed hypercare support and enterprise-wide ServiceNow training programs post-deployment, increasing platform adoption by **60%**, reducing critical issues by **35%**, and improving user confidence.

ServiceNow Developer

Indium Software, Bengaluru, India | June 2022 – Aug 2023

- Collaborated closely with a team of 9 developers and administrators to deliver complex ServiceNow implementations, contributing to improved platform development velocity and ensuring high-quality, maintainable solutions.
- Conceptualized and executed the deployment of a scalable CMDB architecture, increasing asset management accuracy by **30%**, reducing configuration item (CI) discrepancies, and improving IT audit readiness.
- Automated critical ITSM workflows using Flow Designer, Script Includes, and Business Rules, reducing operational overhead by **20%**, and enhancing SLA compliance rates for incident resolution.
- Drove end-to-end ServiceNow integration with external ITSM ecosystems, eliminating process silos and reducing ticket backlogs by **35%**, ensuring seamless cross-platform service management.
- Oversaw a zero-downtime ServiceNow upgrade, fortifying system stability, boosting platform performance, and minimizing risks to business operations.
- Hardened platform security by implementing advanced Role-Based Access Controls (RBAC), ACLs, and security frameworks aligned with enterprise compliance standards.

Junior ServiceNow Developer

Magna InfoTech, Bengaluru, India | June 2021 – May 2022

- Actively collaborated with cross-functional business units to gather and refine technical requirements, ensuring alignment between client processes and ServiceNow solutions.
- Configured and optimized the ServiceNow SAM module, enhancing software entitlement tracking, license compliance, and software asset governance.
- Contributed to the Employee Center buildout within HRSD, delivering an intuitive, centralized HR portal that enhanced employee experience and reduced HR ticket volumes.
- Automated HR lifecycle management processes (onboarding/offboarding), streamlining service request fulfillment and improving process consistency across regions.
- Designed and managed HR Case flows, Custom COEs, and HR Skills management, enabling automated task assignments based on skill matching and COE ownership.
- Ensured platform reliability by enforcing ServiceNow development best practices, proactively resolving configuration and performance issues.
- Facilitated training workshops for internal users, elevating ServiceNow adoption rates and improving organizational self-sufficiency.
- Diagnosed and resolved platform performance bottlenecks, improving transaction processing speeds and elevating the overall user experience.

EDUCATION

Belhaven University, Jackson, MS

Master of Science in Information Technology | May 2025

G. Narayanamma Institute of Technology and Science, Hyderabad, India

Bachelor of Engineering in Electrical and Electronics Engineering | May 2022
