

Jerry Franklin

Arp, TX | +1 (323) 419-3266 | jerryseiordev@gmail.com | LinkedIn

Motivated Software Developer with 10+ years of experience in designing, developing, and deploying enterprise-grade applications. Proven expertise in building scalable, efficient solutions while driving system modernization and integrating cross-functional services. Skilled in streamlining workflows to enhance user experience and operational efficiency. Adept at collaborating in Agile environments, delivering high-quality software solutions, and ensuring seamless integration with business objectives.

PROFESSIONAL EXPERIENCE

Credera

Senior Full Stack Engineer

Remote, US

December 2022 – Present

- **Developed an E-commerce platform** (Python, React.js, AWS) – Integrated **LLMs and machine learning models** to enhance product recommendations, improving search efficiency by **30%**.
- **Built a Gaming platform** (Node.js, React.js, Azure) – Developed **data integration pipelines** to pull external gaming data for a **UGC sports platform**.
- Designed and maintained **AI-driven web applications**, ensuring seamless user experiences and scalable architecture.
- Built **robust RESTful APIs** using **FastAPI, Django, and Express.js**, managing **MySQL, PostgreSQL, and MongoDB** databases.
- Worked closely with **UX, product teams, and stakeholders** in an **Agile** environment, focusing on user-centric problem-solving.
- Conducted **code reviews and bug fixes**, reducing **technical debt by 30%** within the first quarter.
- Implemented **CI/CD pipelines** with **Jenkins, Docker, Kubernetes, Terraform, and AWS**, optimizing deployment workflows.
- Developed **test suites using Jest, Cypress, and React Testing Library**, ensuring high-quality software and improved user reliability.

Intellectsoft

Senior Full Stack Engineer

Palo Alto, CA

July 2017 - November 2022

- Led the development of a **food delivery system** using **Python, Django, and React Native**, optimizing order processing and user engagement.
- Built and maintained **Python/FastAPI and Node.js applications**, integrating **ML frameworks** such as **NumPy, Pandas, and PyTorch** for predictive analytics and personalization.
- Developed a **mobile application**, ensuring smooth functionality and seamless user experience across platforms.
- Contributed to the development of **Next.js/React applications**, designing **scalable and AI-powered UI components** with **HTML5 and Tailwind UI**.
- Worked with **LLMs** to build **compound AI systems**, including **multi-step RAG, Text-to-SQL, and natural language processing with deep learning/AI**.
- Developed **cloud-native applications** using **Docker, Kubernetes, and GCP**, integrating **MongoDB, Cassandra, and Elasticsearch** for high-performance storage and data retrieval.
- Conducted **intensive debugging and performance optimization**, leading to a **40% improvement in site performance**.
- Collaborated with **business and product teams** to prioritize generative AI solutions within the **AI-powered central merchandising platform**.

PayPal

UI Developer

Remote, US

May 2016 – May 2017

- Focused on **front-end development**, implementing **Figma designs** and developing **UI components** using **React.js** to enhance user experience.
- **Optimized the frontend codebase**, improving **performance by 30%** and reducing **page load times by 20%**.
- Applied **accessibility best practices**, increasing the site's **accessibility rating by 40%** and ensuring compliance with web standards.
- Integrated **user analytics tracking**, leading to a **15% increase in user engagement** by refining feature development.
- Analyzed **web page engagement data** and adjusted UI/UX design strategies, boosting **visit duration by 15%**.

PixelPioneers Inc

Web Developer

Remote, US

April 2014 – March 2016

- Delivered **full-stack projects** across **Finance, E-Commerce, and Insurance** industries, thriving in a **fast-paced startup environment**.
- Developed **Angular and Vue.js frontends** and **Python, Node.js backends**, seamlessly integrating **third-party services and APIs**.
- Led **back-end development** using **Node.js, Django, and FastAPI**, integrating **Firebase and AWS services** (Lambda, Cognito, S3, SQS, EC2) for scalable cloud solutions.
- Resolved **critical UI bugs** in **React and Node.js**, ensuring a seamless user experience and improved application performance.
- Implemented **Test-Driven Development (TDD)** methodologies using **Jest, Mocha, Cypress, and React Testing Library** for unit, component, and end-to-end testing.
- Developed a **Kafka-based real-time data processing solution**, integrating **Cassandra, DB2, and PostgreSQL** to enhance data handling and scalability.
- Provided **ongoing support and maintenance**, ensuring the smooth operation of deployed projects and prompt issue resolution.
- Maintained **CI/CD pipelines** with **Docker, Jenkins, Terraform, Kubernetes, and AWS CodePipeline**, optimizing deployment workflows.

Safebox Technology

Backend Developer

Marco Island, FL

October 2012 – Feb 2014

- **Developed and maintained RESTful APIs** and backend services using Python (Django, FastAPI) and Node.js (Express, NestJS), ensuring seamless system integration and high performance.
- **Optimized PostgreSQL and MongoDB** queries, reducing response times by 30% and significantly improving application efficiency.
- **Implemented AWS cloud solutions, leveraging S3, Lambda, and RDS** for scalable data storage and efficient processing.
- Designed and deployed secure **authentication systems using OAuth2 and JWT**, enhancing user security across multiple platforms.
- Collaborated **with cross-functional teams, diagnosing** and resolving critical issues, ensuring high system uptime and reliability.
- **Built and optimized CI/CD pipelines using Docker, Kubernetes, and Jenkins**, automating deployments and reducing deployment time by 40%.
- Developed and integrated **real-time data processing with Kafka and Redis**, improving event-driven workflows and system responsiveness.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React, React Native, Next.js, Vue, Nuxt, Angular, Tailwind CSS, Material UI, Bootstrap
- **Backend:** Node.js (NestJS, Express.js), Python (Django, FastAPI, Flask), PHP (Laravel, Symfony), RESTful APIs, GraphQL, WebSockets
- **Databases:** MySQL, PostgreSQL, SQL, DynamoDB, MongoDB, Cassandra, ElasticSearch
- **Cloud & DevOps:** AWS, Azure, GCP, Firebase, Docker, Kubernetes, Kafka, Redis, CI/CD
- **Additional:** C#, Java, Go, Software Development Best Practices (TDD, API Documentation)

EDUCATION

- **Texas State University**
Bachelor of Science : Computer Science

2008 – 2012
