

Likitha Sai Devireddy

ServiceNow Developer

likithasaiddevireddy1@gmail.com | [LinkedIn](#) | (469) 536 5387 Frisco, TX

ServiceNow Developer with 3 years of experience in IT, holding certifications in System Administration and Application Development, and currently pursuing an MS in Computer Science. Expertise in reducing project turnaround time by refining development workflows. Deployed machine learning to improve Javascript execution by 30%. Promoted from Intern to Developer in under 12 months at Cognizant

PROFESSIONAL EXPERIENCE

ML Researcher – JavaScript Optimization | Missouri State University, USA

Jul 2024 – Dec 2024

- Deployed machine learning-based optimization techniques, improving JavaScript execution efficiency by 35% in JSOptimizer.
- Established decision tree-based optimization for loop-invariant code motion and partial redundancy elimination, improving JavaScript execution speed by 30%.
- Collected and pre-processed large-scale JavaScript datasets, mapping to optimization outcomes to train ML models.
- Evaluated the performance of ML-enhanced JavaScript optimizations, reducing code execution time and memory footprint by 25%.
- Conducted comparative analysis of JSOptimizer's performance against traditional JavaScript optimization techniques.

ServiceNow Developer | Cognizant Technology Solutions

Nov 2020 – Oct 2022

- Engineered Incident, Change, Problem, and HR Service Delivery modules to meet business needs.
- Configured Service Catalog Management, Knowledge Base, User Registration, and Service Portals.
- Revolutionized Agent Workspace interface by implementing ServiceNow UI policies and client scripts.
- Built mobile applications as per client requirements, ensuring seamless functionality across devices.
- Implemented Virtual Agent Chat, improving workflow efficiency by 40% and reducing response time by 20%.
- Orchestrated Workflows, Business Rules, UI Policies, UI Actions, and ACLs to customize platform functionality.
- Authored Transform Map scripts, View Rules, and Update Sets for seamless instance management.
- Integrated Active Directory (LDAP) and other third-party systems using REST APIs and Node.js.
- Streamlined CMDB, improving data accuracy by 40% through systematized discovery and reconciliation.
- Orchestrated scheduled imports and data sources for smooth data processing.
- Executed User Acceptance Testing (UAT) for catalog items before production deployment, identifying and resolving critical bugs early, thereby reducing post-implementation support tickets by 35%.
- Directed catalog items, workflows, and tables to improve request fulfillment.
- Integrated REST APIs to automate user provisioning across platforms, enhancing efficiency and reducing data synchronization errors.
- Directed ServiceNow instance maintenance, including patch updates, cloning, and coordination with HI support.
- Tailored HR modules, including HR Case Management, Employee Center, Lifecycle Events.
- Revamped HR application forms and list layouts within ServiceNow, using HR Case Management modules, resulting improvement in HR team responsiveness to employee inquiries.

ServiceNow Intern | Cognizant Technology Solutions

Jan 2020 – Oct 2020

- Deployed an Online Pharmacy ServiceNow application using CSS, HTML, and JavaScript, improving inventory tracking accuracy by 35%.
- Enhanced the Service Portal using ServiceNow widgets, leading to a 25% increase in user satisfaction.
- Optimized workflows using GlideAjax, GlideRecord, and Script Includes, reducing manual errors and processing times by 40%.
- Engineered Service Catalog items, UI Pages, and Widgets to enhance portal usability.
- Authored client-side and server-side scripts to improve user interactions and data processing.
- Configured Access Control Lists (ACLs) to secure application data and enforce role-based permissions.
- Revamped Forms, Lists, and UI Policies to align with requirements.
- Played a role in ServiceNow Instance Upgrades, testing custom applications for compatibility.

EDUCATION

- MS in **Computer Science, Missouri State University, Springfield, USA**
- BE in **Electricals, Electronics and Communication, Anna University, Chennai, India**

Jan 2023 - Dec 2024

Aug 2016 - Aug 2020

CERTIFICATIONS

- **ServiceNow Certified System Administrator**
- **ServiceNow Certified Application Developer**

TECHNICAL SKILLS

- **ServiceNow Development:** ITSM, CSM, Service Catalog, Virtual Agent, ServiceNow Mobile App, Agent Workspace, ServiceNow Widgets
- **Programming Languages:** JavaScript, Python, C, C++
- **Web Development:** HTML, CSS, REST, SOAP Web Services
- **Workflow Automation & Optimization:** GlideAjax, GlideRecord, Script Includes, Business Rules, UI Policies, UI Actions
- **Integrations & API Development:** REST API, SOAP Web Services, LDAP, Scheduled Imports, Data Sources
- **Database Management:** ServiceNow Tables, CMDB, MySQL, PostgreSQL
- **Machine Learning & JavaScript Optimization:** Decision Trees, Loop Optimization, Partial Redundancy Elimination
- **Quality Assurance & Testing:** Automated Test Scripts, ServiceNow ATF, Selenium, Postman
- **Cloud Platforms & Reporting:** AWS (S3, Glue, QuickSight), Power BI, Tableau
- **Agile Methodologies & Project Management:** Jira, Confluence, Rally, ITIL-aligned ITSM Processes
