EXPERIENCE

Senior Data Scientist

Jackson Lewis P.C.

📅 Dec 2020 – Current

- Automated EEO-1 & CA Pay government reporting for 100s of companies by building data manipulation software & interactive web-app, saving thousands of man-hours.
- Built a statistical platform in Python for pay equity, adverse impact, WARN/RIF analyses
- Developed libraries of functions for firm-wide use in billable projects
- Trained & implemented many ML models (classifiers/regressions) for litigation prediction, cost forecasting, future diversity trends, & more

Data Scientist, Jackson Lewis P.C., Feb 2018 - Dec 2020

- Developed & deployed interactive web-apps & dashboards, visualizing workforce diversity statistics, retention, HR analytics
- Built an unemployment benefits Django UI calculator with custom algorithms for each state's unique laws/guidelines: actionable tool for clients to gauge how to make their employees whole amid pandemic-induced furloughs
- Managed analytics team infrastructure: deployment platforms, Git, server configs, Azure resource creation/management

Analytics Consultant

Tutorfly

📅 Jun 2019 – Apr 2020

- Acquired 100s of clients by creating a constant-running NOHUP data scraper for Amplitude API to auto-locate and contact leads
- Provided major decision-altering business insights building statistical regression loop evaluating web analytics variable relationships & piping them into HTML widget visuals

Research Fellow

LIRSM (Columbia University Psych Lab)

📅 Dec 2015 – May 2018

- Analyzed data with statistical & computational (un)supervised learning methods, programmed surveys, authored manuscripts, natural language processing; social network analysis of diversity; exploratory analysis in R

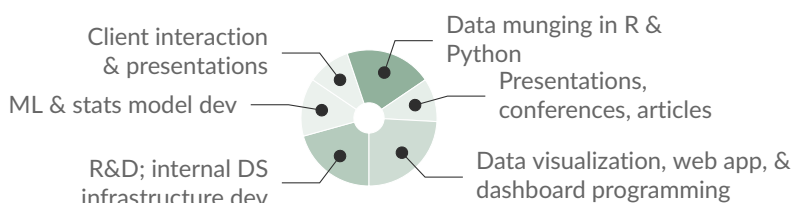

Decision Sciences Research Intern

Columbia Business School, Management Dept.

📅 May 2017 – Sept 2017

- Synthesized and analyzed big data using Dask-ML & distributed framework; built/executed SQL database queries via backend R integration libraries

RESPONSIBILITIES BREAKDOWN

EDUCATION

Master's ('18) | Quantitative Methods, Data Science

Columbia University | QMSS | 4.0 GPA

Bachelor's ('18) | Psychology, Sociology (Pre-Law)

Columbia University | 3.93 GPA

SKILLS & LANGUAGES

Python, R, SQL, PowerBI

STATA, JavaScript, LaTeX, HTML

Azure Library Dev Big Data Machine Learning
R Shiny/flexdashboard Django Flask Dash JS React
TensorFlow Pandas SciPy NumPy scikit-learn
Plotly Tidyverse (Un)supervised Learning NLP EDA
Deep Learning/Neural Nets Data Visualization GIS
Stats SNA LLMs Predictive Analytics Snowflake
HRIS/People Analytics ETL Web Dev A/B Testing

RESEARCH / CONFERENCE PRES.

Rhoads, S.K., et. al. ('18). Gender in negotiations: Investigation of network centrality. *SPSP Conv.*, Atl., GA

Rhoads, S.K., et. al. ('17). Empathic concern mediates social ties & political views. *APS Conv.*, Boston, MA

ACHIEVEMENTS

🏆 Magna Cum Laude | Dean's List | Psychology & Sociology Honors
Top 5-10% of Columbia undergrad class

👥 Teaching
TA for 2 Columbia courses; multiple guest-lectures

⚙️ Library/Function Development
Created hundreds of R/Python functions for numerous libraries

👥 Mentoring
Led DS team + taught R, Python, Web dev. Advised students. Tutored since childhood

🎓 Quick Study
Master's & Bachelor's degrees in 4 yrs; Authored 3 departmental thesis papers: psych & soc (undergrad), social data science (Master's)

📖 Independent Learner
I learn new coding languages for fun, as if it's a video game
