Summary

AI Engineer with 20+ years in software engineering, data systems, and automation. Specialized in LLMs, AI workflows, and customer journey automation using tools like OpenAI, Google Gemini, Grok AI, HighLevel, Zapier, n8n, and Pabbly Connect. Experienced with Python, SQL Server, AWS, and real-time AI integrations. Proven record of cutting manual work, boosting ROI, and scaling businesses with automation.

Top Skills

Python	SQL Server	Ai Agent Programming	NLP	LLMs
OpenAI API	Google Gemini	Grok AI	AWS	DeepSeek Api
Google Cloud Serv.	N8N	Highlevel	Marketing Automation	Twilio Programming
HeyGen	Ai Chatbots	Java Programming	Email+SMS Automation	SQL Dashboards

Experience

AI Engineer | FireWireAds.com (2005 – Present)

Built AI workflows with OpenAI, Google Gemini, Grok AI. Automated with Python, SQL, REST APIs, AWS. Applied LLMs for chatbots, personalization, and lead scoring. Developed AI agents integrated with Google Cloud, OpenAi, Facebook Analytics, and Apollo.io to automate lead generation and streamline prospect acquisition. Built AI agents with LangChain/LangFlow, integrated Cassandra, and used Kibana to enhance system monitoring. Managed SQL Server for analytics and reporting. Created real-time apps with Grok AI inference. Integrated voice & video AI (ElevenLabs, HeyGen, Twilio, Google Cloud). Designed workflow automations for lead intake and trust building inside Highlevel.

Highlights

- Boosted ad ROI up to 4.5x with AI-driven targeting & personalization
- Cut manual work 60–80% with Python + SQL automation pipelines
- Built AI outbound & inbound caller (Twilio + ElevenLabs), raised bookings 40%
 - Launched AI email & SMS workflows with HighLevel, Zapier, n8n, Pabbly — engagement +55%, conversions +22%
- Built AI integrations with OpenAI, Gemini, Grok AI for chatbots & campaigns
- Delivered SQL dashboards with enterprise insights
- Helped businesses generate 6–7 figure funnels
- Produced AI video ads with 2–3x CTR
- 20 years as SQL DBA for analytics & automation

Software Engineer | Dow Chemical (2003 – 2005)

- Built SQL Server web apps used by thousands of employees
- Converted static reports into real-time dashboards
- Optimized queries and database performance
- Automated workflows with cross-functional teams
- Built secure, scalable, enterprise-grade solutions

Education

University of Houston–Downtown — B.S. in Business & Computer Information Systems (1998–2004)
Texas Law — Law Enforcement for Criminal Justice (1992–1994)
