PROFESSIONAL EXPERIENCE

JP Morgan Chase

New York, NY

Full Stack Software Engineer

Nov 2023 – Present

- Designed and developed interactive React.js front-end interface, implementing Redux for state management, improving user experience by 30%.
- Led Agile development as Scrum Master, facilitating agile development processes with daily stand ups and spring planning, increasing productivity by 20%.
- Built and tested XML and JSON-based cloud services, reducing service response time by 25%.
- Developed Spring Boot services to enable seamless integration with external data sources, increasing data availability by 50%.
- Optimized application performance using lazy loading, code splitting, and Webpack, reducing load time by 26%.

Illinois Institute of Technology

Chicago, IL

Software Engineer

Dec 2022 – Nov 2023

- Optimized RESTful APIs, reducing data exchange time by 40% between front-end and back-end services.
- Developed Java Spring Boot applications, improving system performance by 30%, ensuring scalability and user experience.
- Enhanced security with OAuth2 and JWT authentication, ensuring regulatory compliance and data integrity.
- Led unit testing with JUnit and Mockito, achieving 95% test coverage leading to a 20% reduction in post-release defects.

Decimal Technologies

New Delhi, India

Software Development Engineer

Aug 2020 – Jul 2022

- Developed software features using SDLC best practices, achieving 100% adherence to deadlines.
- Built CI/CD pipelines with Jenkins, reducing deployment time by 40%.
- Optimized database schemas using SQL and Postgres, enhancing data retrieval efficiency by 30%.
- Integrated REST APIs with React and Angular, improving frontend - backend connectivity.
- Managed source code using Git and GitHub, improving team collaboration by 15% through efficient branching and merging.

EDUCATION

Illinois Institute of Technology, M.S. in Information Technology

rec'd May 2024

Guru Gobind Singh Indraprastha University, B.S. in Computer Science

rec'd June 2021

SKILLS

Skills: Java, Python, JavaScript, TypeScript, C++, and C#. React, Angular, HTML5, CSS, JSON, Adobe Flex, Spring Boot, Node.js, GraphQL, and RESTful APIs. MySQL, PostgreSQL, MongoDB, NoSQL, and relational databases. cloud computing and DevOps, utilizing Amazon AWS (EC2, S3, Lambda, RDS), Google Cloud Platform (GCP), and Microsoft Azure. Docker, Kubernetes, Jenkins, Postman, JIRA, Confluence, and Terraform. For version control and CI/CD, I am skilled in Git, GitHub, and CI/CD pipelines using Jenkins and GitLab.

Interests: Travel, Chess, American Pragmatism, Stoicism, Soccer

Languages: English (Advanced) Hindi (Native)

PROJECTS

AI Headshot Generator – Developed an AI-driven app for generating professional headshots using Next.js and Leap AI.

E-Kart (MERN Stack) – Built a full-stack e-commerce app implementing admin/user dashboards with JWT authentication and secure payment integration through PayPal and Stripe.

Banking Application System – Developed a banking platform with Spring Boot, Hibernate, and Oracle DB, ensuring seamless and secure transactions.
