Summary

Dynamic leader with extensive expertise in water resources, environmental engineering, and surface water management. Adept at business development, client engagement, and managing multidisciplinary teams to deliver complex water resources projects on time and within budget. Strong background in mentoring staff, ensuring quality control, and applying technical expertise to create innovative solutions.

Professional Experience

Consultant

Self-Employed | Hillsboro, OR, USA | Jan 2012 – Present

- Provide comprehensive consulting services in water resources and environmental engineering, specializing in water treatment, wastewater treatment, and sewage treatment systems.
- Maintain active relationships with clients, including equipment suppliers and operators of wastewater treatment plants, providing tailored technical guidance.
- Oversee end-to-end project execution, from initial planning and design to commissioning and handover of water and wastewater treatment facilities.
- Prepare detailed scopes of work, cost estimates, and proposals for projects involving advanced treatment technologies and environmental compliance. Guide clients on regulatory compliance, operational efficiency.
- Mentor junior engineers and staff on advanced modeling, quality control, and

project management methodologies.

- Collaborate with multidisciplinary teams to ensure projects are delivered on time, within budget, and meet the highest standards of quality.

Environmental Engineer

Iowa Department of Natural Resources | Des Moines, IA, USA | June 2011 – Dec 2011

- Reviewed and approved designs for municipal and industrial projects.
- Ensured compliance with EPA standards. •

Dean & Professor

St. Peter's Engineering College | Chennai, India | May 2002 – Dec 2011

- Led research and taught advanced hydrologic and hydraulic engineering courses. • Guided student and faculty research. • Conducted workshops on water treatment.

Chief Executive/General Manager

Green and Smart (Polutech); Beardsell Satec-Dorr Oliver | Chennai, India | Aug 1983 – Jan 2003

- Directed end-to-end execution of water treatment and effluent management projects.
- Designed flow sheets, oversaw construction, and commissioned treatment plants for municipal and industrial clients.
Engaged in marketing, client development, and tender negotiations.

Sales Manager

KCP Eimco | Chennai, India | June 1974 – Jan 1983

- Developed and marketed water and effluent treatment solutions for large-scale projects.
- Designed and commissioned water and wastewater treatment plants. Conducted pilot plant studies for innovative water resources solutions.

Project Engineer

Space Research Center | India | June 1971 – Dec 1974

- Spearheaded the design and commissioning of chemical plants.
- Conducted pilot-scale research .

Education

Ph.D. Chemical Engineering 1974

Indian Institute of Science | Bangalore, Karnataka, India | 1969 – 1971 • Thesis:

Kinetics of Vapor Phase Oxidation of Furfural to Maleic Anhydride.

M S Chemical Engineering 1967

Indian Institute of Technology | Chennai, Tamil Nadu, India | 1965 – 1967

- Project: Recovery of Sulfur from Iron Pyrites; Pilot Plant Design. **B S**

Chemical Engineering 1965

Annamalai University | Chidambaram, Tamil Nadu, India | 1960 – 1965

Project: Design of a Rotary Dryer.

Skills

- Water/Wastewater Treatment Design and Implementation. • Client Development, Marketing, and Contract Negotiation.
- Employee Supervision, Mentorship, and Team Leadership.
- Advanced Technical Writing and Report Preparation.

Certifications

- Professional Engineer License (PE).
Eligible within six months.
