ACCESSIBILITY ENGINEER | CRM EXPERT | CERTIFIED SALESFORCE CONSULTANT

Inclusive Technology Consultant – WCAG-Compliant Solutions Engineer – Accessibility-First CRM Strategist

Driving digital inclusion through CRM implementation, administration, and accessibility engineering to ensure equal access for all.

Innovative Accessibility Engineer with extensive experience in Salesforce CRM Implementation and Administration, ensuring digital platforms are inclusive, compliant, and user-friendly for individuals with disabilities. A Triple Star Salesforce Ranger, holding multiple certifications; adept at leveraging Salesforce Lightning, Sales Cloud, and Marketing Cloud to optimize customer engagement and streamline business processes. Proficient in WCAG 2.1, Section 508 compliance, and assistive technologies (NVDA, JAWS, VoiceOver) to create accessible digital experiences. Experienced in integrating automated accessibility testing tools (Axe, WAVE, Pa11y) into CI/CD pipelines, ensuring regulatory compliance and system-wide inclusivity. Skilled in Microsoft Office and data-driven Salesforce solutions, excelling in process automation, user experience enhancement, and platform scalability. Passionate about advocating for accessibility, driving inclusive design strategies, and delivering impactful solutions that make digital platforms universally accessible.

- Keyboard Navigation & Focus Management
- Credit Bureau Reporting
- Payment Fraud Investigation
- Secure Data Entry & Management
- Account Authentication Protocols
- AI-Driven Automation Tools

PROFESSIONAL EXPERIENCE

09/2019 – 01/2025 • SALESFORCE • Hillsboro, OR

Accessibility Engineer

Recruited by a Fortune 500 firm to manage accessibility across Salesforce platforms, ensuring compliance with WCAG 2.1 and Section 508 standards. Streamlined bug-tracking in Jira, improving remediation efficiency, and collaborated with product teams to refine mobile accessibility for iOS and Android. Integrated automated accessibility testing into CI/CD pipelines using Axe, WAVE, and Pa11y.

- Ensured WCAG 2.1 AA compliance for Salesforce applications by conducting in-depth accessibility audits using both automated tools and manual testing with screen readers, identifying critical issues in UI components, and implementing ARIA enhancements.
- Integrated AI-driven automation tools into the accessibility testing process by embedding Axe DevTools and Pa11y into Salesforce pipelines, automating WCAG 2.1 compliance checks, detecting color contrast issues, and generating real-time remediation reports.
- Led accessibility remediation efforts for government agencies using Salesforce by customizing Lightning components and Visualforce pages to align with Section 508 and WCAG 2.1 standards, implementing ARIA roles, and preparing VPAT documentation.
- Developed accessibility training programs for teams by creating tailored workshops, hands-on coding sessions, and interactive guides to ensure product managers, developers, and designers implemented inclusive design principles in Salesforce environments.
- Optimized keyboard navigation and focus management for custom applications by restructuring tab order, ensuring logical focus progression, skip links, and keyboard traps to improve usability for screen reader users relying on NVDA, JAWS, and VoiceOver.

03/2016 – 10/2019 • VOLKSWAGEN CREDIT • Hillsboro, OR

Customer Experience Representative

Tasked with leading customer support initiatives, specializing in end-of-lease navigation, payment relief solutions, and tailored financial guidance for leasing/loans. Managed credit bureau corrections by streamlining internal protocols, ensuring accuracy, and expediting resolution timelines. Dedicated to delivering clear, solutions-focused assistance that enhances customer satisfaction.

- Led two Six Sigma projects aimed at optimizing Volkswagen Credit's customer service workflows; identified bottlenecks in the loan application process, implemented solutions that reduced processing time, and enhanced the accuracy of credit bureau reporting.
- Resolved complex account management issues by providing detailed support over inbound calls, assisting customers with queries related to car loans and leases, and ensuring proper documentation and follow-up for titling and registration processes.

(503) 250-2518 | rdelvalle747@gmail.com – Page 1

- Achieved high performance in customer service quality by adhering to service standards and consistently exceeding set metrics through diligent follow-ups and resolution of customer queries, contributing to overall customer satisfaction and loyalty.
- Contributed to organizational culture initiatives by participating in the Fun Committee, promoting workplace diversity through the Diversity Committee, and supporting workplace engagement activities, which improved overall employee morale and teamwork.
- Mentored new hires as part of the Buddy Program, providing guidance and support through their integration process, which improved training effectiveness and accelerated the proficiency of new employees in handling customer service tasks efficiently.

08/2014 – 11/2015 • COMCAST • Beaverton, OR

Communication Technician 2

Handpicked to educate customers on proper equipment use and self-troubleshooting techniques by demonstrating modem and router settings, explaining Wi-Fi optimization strategies, and ensuring customers understood how to reset common connectivity issues. Responded to emergency service outages by conducting network inspections and providing customers with updates on repairs.

- Resolved an escalated customer complaint by acknowledging and apologizing for the miscommunication, and using personal technical knowledge to troubleshoot and fix the problem, leaving the customer highly satisfied despite the issue being out of scope.
- Investigated an unexpected service disruption by tracing the customer's cable line along the block, identifying an unauthorized excavation that resulted in a severed buried line, securing permission to access the property for repairs, restoring full connectivity.
- Installed residential cable, internet, and phone services by running new lines, testing signal strength, identifying sources of interference, and walking customers through equipment setup to ensure proper service activation with minimal need for support.
- Troubleshoot complex network issues by isolating packet loss, adjusting modem configurations, swapping out faulty splitters or coaxial connections, and recalibrating signal levels to improve connectivity and reduce intermittent internet disruptions.
- Provided training and mentorship to newly hired technicians by demonstrating proper installation techniques, troubleshooting strategies, and customer interaction protocols to ensure consistent service quality and adherence to company standards.
- Managed large-scale installation projects in multi-dwelling units (MDUs) by coordinating with property managers, assessing infrastructure requirements, running multiple service lines, and ensuring compliance with Comcast's and property's specifications.
- Diagnosed and repaired persistent service interruptions by inspecting customer premises, checking for loose connections, identifying external signal interference sources, and performing in-depth line testing to ensure long-term service stability.

07/2012 – 12/2013 • CAPITAL ONE • Hillsboro, OR

Customer Accounts Specialist

Investigated billing discrepancies effectively by cross-referencing transaction histories, adjusting erroneous charges, and liaising with internal departments to ensure accurate account reconciliation and improved transparency. Guided customers through credit score improvement strategies by explaining how payment history, credit utilization, and responsible borrowing behavior influence scores.

- Resolved complex account management and billing concerns by providing inbound telephone support, guiding customers through payment disputes, fee clarifications, and interest rate inquiries while adhering to financial policies to propel customer satisfaction.
- Identified and reported fraudulent transactions with precision by thoroughly reviewing account activity, verifying customer authorization, documenting unauthorized charges, and initiating immediate fraud prevention protocols to secure accounts.
- Assisted customers in avoiding account delinquency by offering tailored payment solutions, setting up flexible payment plans, and educating customers on credit impact, ensuring resolution while fostering financial responsibility and long-term account retention.
- Enhanced customer experience through detailed account security verification by strictly adhering to authentication procedures, mitigating unauthorized access risks, and maintaining compliance with data protection policies to uphold trust and standards.
- Provided exceptional credit card support by educating customers on card benefits, reward programs, and spending limits, ensuring optimal account utilization while addressing inquiries related to cash advances, balance transfers, and statement clarifications.

09/2008 – 07/2011 • VERIZON/FRONTIER COMMUNICATIONS • Hillsboro, OR

Sales Representative

Developed sales strategies to upsell fiber-optic internet and digital TV plans, conducting needs assessments, demonstrating service advantages over competitors, and overcoming objections to drive higher-value customer acquisitions while increasing customer satisfaction. Managed accounts, resolved billing concerns, and provided technical support, ensuring seamless service experiences.

- Exceeded sales quotas by identifying customer needs and aligning with Verizon and Frontier broadband, telephone, and television service packages, leveraging in-depth product knowledge, competitive market positioning, and persuasive sales techniques.

- Optimized lead conversion rates by leveraging customer data insights, identifying potential upgrade opportunities, and delivering targeted sales pitches, ensuring maximum adoption of expanding fiber-optic offerings post-acquisition.
