Professional Experience

Slalom Consulting, LLC, Walnut Creek

2018 to 2024

Technical Program Manager

Managing change initiatives within Slalom's Business Advisory Services team, focusing on minimizing organizational disruption and maximizing employee adoption. Employ agile methodologies and program delivery excellence to enhance client outcomes beyond project lifecycle. Serving as a trusted advisor, ensuring adoption and return on investment for the program's focus on cultural changes for new ways of working. Collaboration was critical to align with cross-functional teams for one integration with both business and IT to achieve the desired outcome of the program.

Ecommerce experience

- Amazon: Directed a program as a TPM where we implemented the cloud sales territory planning software Anaplan for all ~5,000 of Amazon's sales account managers globally.

Digital marketing experience

- Cisco: Managed a program for a digital marketing project where we helped to integrate the marketing software Marketo into Salesforce helping to provide confidence into how the demand gen campaigns for all ~1,000 marketing specialists would flow downstream into the CRM platform.

Accenture Consulting, San Francisco

2010 to 2017

Change Enablement Senior Manager Talent & Organization Effectiveness

Directed large-scale software transformations in Accenture's Talent & Organization, specializing in cloud CRM and agile methodologies to facilitate behavioral change and ensure successful adoption of new systems. Spearheaded stakeholder engagement initiatives, conducted user story impact assessments, and developed next-generation communication strategies to support end-users.

- Workday: Implemented a new end-to-end change framework for their business innovation office.
- Ericsson: Successfully implemented Salesforce Lightning for 10,000 Ericsson sales users, streamlining sales processes and improving user experience.
- Autodesk: Delivered comprehensive training programs and utilized behavioral data to drive adoption, focusing on sustainable change that enhances return on investment (ROI).
- Arrow Technologies: Change management lead focusing on adoption of new standard operating procedures.
- Cisco: Led change management over 4 release trains – software supply chain, enterprise license agreements, buying programs, and SaaS.
- Chevron: I was brought on to help with change management to enhance the relationship between sales and supply chain by moving all their lubrications division all onto one platform through SAP.

Led cross-functional project teams to drive organizational change and improve operational efficiency across various sectors such as Hi-tech, utilities, manufacturing, FMCG, and telecommunications. Implemented Lean and Six Sigma methodologies to streamline processes and enhance productivity. Developed and executed project management strategies to ensure alignment with industry best practices and client objectives. Collaborated with stakeholders to identify bottlenecks and implement solutions for sustainable growth. Facilitated workshops and training sessions to empower teams with the skills necessary to maintain continuous improvement initiatives.

- Kellogg's: Increased operational efficiency by applying Lean Six Sigma techniques, resulting in streamlined processes and reduced waste.
- Coca-Cola: Directed successful change management initiatives, ensuring seamless adaptation to new systems and processes.
- Dyneema: Fostered a culture of continuous improvement, leading to enhanced productivity and team performance.
