EXECUTIVE SUMMARY

Motivated, results-driven Information Technology (IT) professional with 20+ years of experience in software engineering, database development and administration, Application Programming Interface (API) design, and Cybersecurity initiatives. Skilled across full-stack development, data engineering, and system integration. Adept at enterprise-scale applications and delivering solutions in remote, Agile environments.

CORE SKILLS

Languages	Python, Go, SQL, KQL, C, C++, C#, ASP.Net, Perl, Bash, JavaScript, PHP, HTML
Data & Tools	Snowflake, Elasticsearch, ELK, PostgreSQL, MySQL, MS SQL, DataBee, Postman, Microsoft Power BI, Kusto Query Language (KQL)
Frameworks	Django, React, Angular, FastAPI, Pyramid, CakePHP, Streamlit
Systems	Linux, Windows, AWS, Docker, Azure, Git, Atlassian: JIRA, Confluence
Expertise	RESTful APIs, Data Pipelines, Database Design, Full-Stack Development, Cybersecurity Dashboards

PROFESSIONAL EXPERIENCE

Senior Software Engineer (remote contractor) 6/2024 – 9/2025
Trustwave, Chicago, Illinois; contract with Amtrak - National Railroad Passenger Corporation

- ◆ Delivered cybersecurity data solutions using Snowflake, Python Streamlit, Power BI, and KQL.
- ◆ Managed DataBee platform, configuring 100+ feeds and resolving all support cases.
- ◆ Successfully built Swimlane Turbine connectors, dashboards, and playbooks for security automation.

Database Administrator II (remote contractor) 8/2023 – 5/2024
Intel Corporation, Santa Clara, California

- ◆ Administered MS SQL, PostgreSQL (Postgres), and ELK environments; developed backend APIs with Python FastAPI.
- ◆ Migrated and modernized 20-year-old legacy systems into Python/React architectures.
- ◆ Efficiently designed and implemented custom data pipelines and automation solutions.

Senior Software Engineer (remote) 6/2021 – 3/2023
ZeroFox, Baltimore, Maryland

- ◆ Built and maintained REST APIs using Python, Django, Elastic, MySQL, and Angular.
- ◆ Tuned Django Object-Relational Mapping (ORM) queries and managed large-scale data ingestion.
- ◆ Supported VigilanteATI migration and provided cybersecurity/dark web threat intelligence.

Senior Software Developer (remote) 8/2019 – 6/2021
Vigilante ATI (Advanced Threat Intelligence), Phoenix, Arizona

- ◆ Developed advanced APIs and portals using Python, Django, Elastic, and PostgreSQL.
- ◆ Successfully managed customer-facing solutions and internal automation for threat intelligence.

Software Engineer (remote) 7/2015 – 8/2018
QL2 Software, Dover, Delaware

- ◆ As sole US-based C/C++/Perl developer, supported timely real-time data core product releases.
- ◆ Effectively revived automated testing systems, ensuring continuous product sustainability.

Senior Programmer Analyst 12/2006 – 3/2015
Black Hills Energy Corporation, Rapid City, South Dakota

- ◆ Crafted full-stack Perl/MS SQL enterprise web apps resulting in improved performance and revenue.
- ◆ Delivered improved reporting, asset/work management systems, and server upgrades.

EDUCATION

Post-Graduate Studies	Computer Science, SD School of Mines & Technology, Rapid City, SD
Master of Accountancy	Southern Utah University, Cedar City, UT
Bachelor of Science	Accounting, Southern Utah University, Cedar City, UT
