SUMMARY

Detail-oriented **Senior .NET Full Stack Developer** with over 10 years of experience building robust web applications and optimizing system performance. Skilled in **.NET Core, Angular, React**, and **SQL Server**, I have improved system efficiency by up to 25% through query tuning and performance optimization. At TEKsystems, I modernized legacy **AS400** applications into **microservices**, reducing errors by 35%, and delivered responsive **Single Page Applications** with **ReactJS**, enhancing user engagement across devices. Passionate about collaborating in **Agile** environments, I excel at crafting scalable solutions, mentoring teams, and leveraging modern technologies to solve complex challenges efficiently.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE
Florida State University | Tallahassee, FL

📅 Dec 2012

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, TypeScript, Node.js, SQL, T-SQL, Bash, C, Visual Basic .NET (VB.NET), Powershell
- **Frontend:** ReactJS, Redux, Angular, WPF, jQuery, Vue.js, Blazor, HTML5, CSS3
- **Frameworks:** .NET Core, ASP.NET Core, ASP.NET MVC, .NET Framework, Entity Framework, LINQ, ADO.NET
- **Databases:** SQL Server (2012+), MongoDB, Kusto, Azure Blobs, NoSQL
- **Cloud Platforms:** Azure, GCP, Microsoft Azure, Google Cloud Platform (GCP), AWS Lambda
- **Containerization:** Docker, Kubernetes
- **DevOps:** CI/CD Pipelines, Azure DevOps, JIRA
- **Performance:** Query Tuning, Debugging, Unit Testing (NUnit, Rhino Mocks)
- **Testing:** Jasmine, NUnit
- **Architecture:** Microservices Architecture, REST APIs, Web APIs, SOLID Design Principles
- **Agile Methodologies:** Scrum, Sprint Planning
- **UI/UX Design:** Telerik Controls, WPF Toolkit, Prototyping
- **Version Control:** Git, GitHub, GitLab, Bitbucket, TFS
- **Reporting Tools:** SSRS, SSIS, Crystal Reports, Azure Databricks

PROJECT

- **Title:** Warehouse Management (Warehouse and Shipping Corp)
- **Team Size:** 30 Members
- **Duration:** July 2022 – October 2024
- **Technologies Used:** .Net Core, MVC, MSSQL, Xamarin, WebAPI, Vue.js

PROFESSIONAL EXPERIENCE

TEKSYSTEMS

SENIOR .NET FULL STACK DEVELOPER

📍 Hanover, MD

📅 June 2022 – Present

- Worked on a project for a **Hospitality Service Provider** client, using a **.NET web-based framework** and **SQL Server** as back-end technologies.
- Built **REST APIs** with **.NET Core**, ensuring seamless communication between front-end and back-end systems.
- Developed **Single Page Applications (SPAs)** using **ReactJS** and **Redux**, enabling efficient state management and smooth data retrieval.
- Designed and developed **UI components** with **ReactJS, HTML5, CSS/SCSS, TypeScript**, and **JSON**, creating interactive and user-friendly interfaces.
- Optimized system performance by 25% through **query tuning** and overall system improvements, enhancing speed and reliability.

- Utilized **SQL**, **Kusto**, and **Azure Blobs** for efficient data management and retrieval in the backend.
- Migrated legacy **AS400** applications to **microservices** using **ASP.NET Core** and **Entity Framework Core (EF Core)**.
- Reduced data errors by 35% by implementing advanced validation and error-handling mechanisms.
- Wrote and maintained **unit tests** using the **Jasmine** framework for TypeScript/JavaScript, ensuring high-quality code.
- Used **React hooks** like **useState** and **useEffect** to manage state and lifecycle events in functional components.
- Achieved experience in building software systems with improved **functionality**, **code quality**, and **productivity**, while consistently meeting **business expectations** and **deadlines**.
- Participated in **Agile/Scrum** processes, including sprint planning, daily stand-ups, and task completion within deadlines.

Skills: .NET Core, REST APIs, ReactJS, Redux, SQL Server, EF Core, Azure Blobs, React hooks, Jasmine, Agile/Scrum.

HITACHI CONSULTING

SENIOR SOFTWARE ENGINEER II

📍 Dallas, TX

📅 Sept 2019 – May 2022

- Developed and optimized backend services using **C#** and **ASP.NET**, improving the system's speed and responsiveness by 25%.
- Integrated **front-end technologies** like **Angular** and **React** with backend systems, delivering seamless and cohesive user experiences.
- Boosted data retrieval times by fine-tuning **SQL Server queries**, optimizing stored procedures, and database indexes for better performance.
- Reduced software bugs by 30% through rigorous **unit** and **integration testing** with **NUnit**, ensuring a more reliable product.
- Played a key role in **Agile** processes, leveraging tools like **JIRA** and **Azure DevOps** to manage tasks and automate **CI/CD pipelines**.
- Built **WPF applications** that seamlessly integrate UI, documents, and media content for an enhanced user experience.
- Consumed **Microsoft WCF services** in the Bing ad application, enabling efficient data exchange and operations.
- Utilized **LINQ queries** to streamline data handling from diverse sources, optimizing application performance.

Skills: C#, ASP.NET, Angular, React, SQL Server, NUnit, WPF, WCF, LINQ, JIRA, Azure DevOps.

CROWE LLP

.NET FULL STACK DEVELOPER

📍 Chicago, IL

📅 Apr 2017 – Aug 2019

- Built web applications using **.NET**, **C#**, and **ASP.NET MVC**, improving functionality and service delivery in public sector healthcare.
- Optimized **SQL Server procedures**, enhancing system performance by 20% and accelerating data processing.
- Automated report generation using **SSRS**, **SSIS**, and **Crystal Reports**, reducing report creation time by 40%.
- Designed simple, intuitive interfaces with **HTML**, **CSS**, and **Bootstrap**, increasing user satisfaction by 15%.
- Developed custom routing mechanisms in **MVC 4** and rewrote **ASP.NET WebForms** into **MVC 4** for improved application structure.
- Worked extensively with **Telerik controls** to build rich, interactive GUI web applications.
- Enhanced code quality through code reviews, debugging, and conducting performance testing to ensure stability.

Skills: .NET, C#, ASP.NET MVC, SQL Server, SSRS, HTML, CSS, Bootstrap, Telerik, MVC 4.

NAGARRO

.NET DEVELOPER

📍 Princeton, NJ

📅 Apr 2013 – Mar 2017

- Developed web applications using **C#**, **.NET**, and classic **ASP**, enhancing functionality and improving user experience.
- Worked with **ASP.NET**, **WCF Services**, and **SQL Server 2012** to design and develop robust back-end solutions.
- Employed **Entity Framework** with a **Model-First approach** and **LINQ** to connect to **SQL Server**.
- Designed responsive web pages using **CSS** and **Bootstrap**, ensuring seamless performance across devices.
- Utilized **jQuery**, **HTML5**, and **CSS** to create dynamic user interfaces.
- Created service contracts, data contracts, and classes in **WCF** to enable seamless communication.
- Conducted **unit testing** to identify and resolve issues prior to deployment, ensuring application stability.

Skills: C#, ASP.NET, WCF, SQL Server 2012, Entity Framework, LINQ, Bootstrap, jQuery, HTML5, CSS.
