Oracle Certified Professional (OCP) Specializing in Database Administration, Performance Tuning, & High Availability Solutions

Experienced **Oracle Database Administrator** with **9+ years** in database administration, performance tuning, backup & recovery, migration, and high-availability solutions. Proficient in **Oracle 10g, 11g, 12c, 19c, and 21c** across **on-premises and cloud environments (AWS, OCI)**. Skilled in **Data Guard, RMAN, GoldenGate, RAC, OEM Grid Control, SQL tuning, partitions, materialized views, data integrity, regulatory compliance, database security, and fine-grain auditing**. Strong problem-solving, analytical, and conflict resolution skills with expertise in automating DBA tasks using **Shell Scripting and PowerShell**. Adept at **documentation management** and **collaborating in real-time** to enhance system reliability and scalability.

CORE COMPETENCIES

- Database Administration & Management
- Data Migration
- Oracle GoldenGate
- ETL & Data Integration
- Documentation & Process Standardization
- Security & Regulatory Compliance (TDE, Auditing, FGA control)
- Capacity Planning
- Performance Tuning & Optimization
- Installation, Configuration & Upgrade
- SQL Query Optimization & Indexing
- Database Cloning
- Monitoring & Troubleshooting
- Automation & Scripting
- Cloud & Virtualization (AWS, OCI, EXADATA)
- Backup, Recovery & Disaster Recovery Planning
- Replication & High Availability (RAC, Data Guard, GoldenGate)
- Cross-Team Collaboration & Conflict Resolution

PROFESSIONAL EXPERIENCE

Oracle Database Administrator

J.B. Hunt, Lowell, AR (Aug 2021 – Present)

- Manage **500+ Oracle databases** using **OEM Grid Control** for monitoring and alerts.
- Upgraded databases **10g → 11g, 11g → 12c, 12c → 18c/19c**, including **RAC and Data Guard setups**.
- Optimized SQL queries using **AWR, SQL Tuning Advisor, Real-Time SQL Monitoring, ASH, SQLT, SQLHC, partitions, and materialized views**.
- Designed and implemented **GoldenGate** for **unidirectional and bidirectional replication**.
- Led database migrations from **on-premises to AWS & OCI**.
- Ensured **database security, regulatory compliance, and data integrity**.
- Applied **Critical Patch Updates (CPU) & Patch Set Updates (PSU)** using **OPatch**.
- Automated **RMAN backups, schema refreshes, and maintenance tasks** using scripts.
- Configured and managed **Data Guard (Active Standby)** for **disaster recovery**.
- Performed **installation, configuration, monitoring, and troubleshooting** of database environments.

Oracle Database Administrator

The Washington Trust Company, Cranston, RI (July 2018 – Aug 2021)

- Migrated **Oracle 12c databases to AWS cloud** using **RMAN & Data Pump**.

- Administered **Oracle 12c RAC and ASM** for high availability.
- Automated monitoring and maintenance tasks via **Shell Scripting, PowerShell and Crontab**.
- Optimized SQL queries, partitions, and indexes to improve performance.
- Applied security patches and managed database security compliance.
- Developed **comprehensive documentation management systems** to track system configurations.

Oracle Database Administrator

Toyota Ghana Company Ltd., Accra, Ghana (June 2015 – July 2018)

- Performed **root cause analysis and resolved database issues** using OEM Grid Control.
- Implemented **RMAN backup strategies** ensuring fast and reliable recovery.
- Automated database health checks and performance monitoring scripts.
- Configured **TDE (Transparent Data Encryption) for enhanced security**.
- Strengthened **data integrity and compliance adherence** across all database operations.
- Assisted with **real-time collaboration** between cross-functional teams to optimize database performance.

EDUCATION & CREDENTIALS

Bachelor of Business Administration (BBA), University of Education, Winneba, Ghana (2010 – 2014)

Oracle Certified Professional (OCP)

TECHNICAL SKILLS

- **Database Management:** Oracle 10g, 11g, 12c, 19c, 21c
- **Backup & Recovery:** RMAN, Data Pump, Flashback, Veritas NetBackup, IBM TSM
- **Performance Tuning:** AWR, ADDM, SQL Tuning Advisor, TKPROF, Statspack, ASH, SQLT, SQLHC, Partitions, Materialized Views
- **High Availability:** Oracle Data Guard, RAC, ASM, GoldenGate, Replication
- **Automation & Scripting:** Shell Scripting (Unix/Linux), PowerShell, SQL Scripts, Cron Jobs
- **Cloud & Virtualization:** AWS (RDS, EC2, S3), Oracle Cloud Infrastructure (OCI)
- **Security & Compliance:** TDE, Oracle Wallets, User Privilege Management, Patch Management, Data Integrity, Regulatory Compliance, Fine-Grain Auditing
- **Operating Systems:** Linux, Windows, Unix (AIX, Solaris, HP-UX)
- **Advanced Technologies:** Oracle Exadata, Real -Time Data Processing, TOAD, ETL
- **Installation & Configuration:** Oracle RDBMS, RAC, ASM, OEM Grid Control
- **Monitoring & Troubleshooting:** OEM, ASH Reports, AWR, ADDM, SQLT, SQLHC
- **Scripting & Automation:** Shell Scripting (Unix/Linux), Cron Jobs, PowerShell, SQL Scripts for DB Object Creation & Maintenance
