

Sai Bharath Reddy Lattupalli

Arlington, VA 22202 | saibharath.lattupalli@gmail.com | 571-547-9623 | LinkedIn [in/saibharathreddylattupalli/](https://www.linkedin.com/in/saibharathreddylattupalli/)

EDUCATION

The George Washington University, School of Engineering and Applied Science
Master of Science in Computer Science, GPA: 3.82/4.00

Washington DC, USA
August 2023 – May 2025

Vignan's Foundation for Science, Technology & Research

Guntur, India

Bachelor of Technology, Computer Science

June 2017 – July 2021

TECHNICAL SKILLS

Programming Languages/Frameworks: Java, Spring Boot, Typescript, Python, C, ReactJS, R | **Database Systems:** MySQL, MongoDB, PostgreSQL | **Operating Systems:** Linux, Unix, macOS, Windows | **Tools & Technologies:** AWS, Git, Jenkins, Gatling, Kafka, Redis, Docker, Kubernetes, Figma, SoapUI, Postman, Swagger, Jira.

EXPERIENCE

CodeAdvantage

Washington DC, USA

Coding Instructor

February 2025 - Present

- Designed and delivered interactive **Java** and **Python** lessons for young learners, simplifying complex programming concepts through engaging exercises.
- Led diverse groups of 20 children, fostering teamwork and problem-solving in coding projects, while adapting teaching methods to enhance engagement and learning outcomes.

Hexaware Technologies

Chennai, India

Associate Software Engineer

June 2021 - June 2023

- Developed **RESTful APIs** in **Spring Boot** for **microservices**, handling client requests and delivering **JSON** responses to enhance communication, while collaborating with cross-functional teams to design scalable architecture that improved system capacity and ensured high availability.
- Developed and implemented **unit** and **integration tests** with **JUnit** and **Mockito**, using **Postman** for **functional testing** and **Gatling** for **performance testing** to ensure consistent API performance under **high traffic** and **heavy load** conditions.
- Enhanced query performance and optimized data retrieval by leveraging **JPQL** within the **JPA** specification, improving the efficiency of database operations and reducing response times for data retrieval in **high-volume transactions**.
- Automated **CI/CD** pipelines using **GitHub Actions** and **Kubernetes** for seamless application deployment.

JPMorgan Chase & Co

Remote

Software Engineering Virtual Experience

May 2020 - June 2020

- Set up and **optimized financial data feeds**, ensuring seamless integration and real-time updates, which increased the efficiency of data processing and reduced delays in financial reporting.
- Developed an interactive front-end interface with **HTML**, **CSS**, and **JavaScript** to visualize financial data, using **Git** for **version control** to ensure code consistency and smooth deployment, enhancing user engagement.

PROJECTS

Green Shoe Store

January 2024 – May 2024

- Designed and implemented scalable microservices for **Inventory**, **User**, and **Order Management** using **Spring Boot**, ensuring modularity.
- Developed **RESTful APIs** for **CRUD** operations on products, users, and orders, and integrated **JMS** for **email notifications** on **user sign-ups**, **2FA**, and **order updates**, enhancing **security** and user experience.

Computer System Simulator

August 2023 – December 2023

- Implemented a **16-bit ISA** in **Java** with an **Assembler** to convert assembly instructions into machine code and a **Swing**-based UI simulating an Operator's Console for register, memory, and status display, along with debugging utilities.
- Designed and implemented **memory** and **cache management** with load, store, and execution instructions, including a **Boot Loader (ROM Loader)** for program initialization and controlled execution. Validated system functionality with integer search and text processing, integrated **pipelining** and **branch prediction**, and delivered a fully functional **JAR** package with documented source code and test cases.

ADDITIONAL INFORMATION

Certifications: Microsoft Azure Fundamentals - AZ900 (2022), Specialist Certification – InsuranceSuite 10.0 Integration (2022), Oracle Certified Associate: Java SE 8 Programmer (2021).

Awards/Achievements: Best Performer Award during training at Hexaware Technologies, SEAS Merit Based Scholarship – George Washington University, 50% Scholarship (awarded to top 75 students) – Vignan's Foundation for Science, Technology & Research.
